Concise History of Islam Muzaffar Husain Syed, Syed Saud Akhtar, B D Usmani, 2011-09-14 In World History, History of Islam is a glorious chapter. In fact, Muslim History involves the history of the Islamic faith as a religion and as a social institution. Through various periods, Islam made many a long stride and its influence spread far-off over the globe. Apart from religion, Muslims made considerable contribution in areas, like philosophy, literature, arts, law, economy, science, medicine and commerce etc. At the academic level, Muslim philosophers, educationists and experts of Islamic law have made great contributions. The evolution of Islam has impacted the political, economic and military history of an enormous geographical region. A century after the demise of Prophet Muhammad (Pbuh) the, Islamic empire extended from the Atlantic Ocean in the west to Central Asia in the east. Islamic civilization gave rise to many centers of culture and science and produced notable philosophers, scientists, astronomers, mathematicians, doctors and nurses, during the Golden Age of Islam. In today's world, Islam is one of the major religions and perhaps there is hardly any corner of the world, where Muslims are not found. History of Islam is a vast subject. Here it is in a concise form. This modest work, a comprehensive book in one cover, is an effort in the direction of recording the history of Islam in nutshell, authentically. This excellent book is an asset for all scholars and academics in all spheres of learning.

Islam as Education Aaron J. Ghiloni, 2019-08-01 Motivated by the intellectual historian Shahab Ahmed's observation that "the history of Islamic paideia has yet to be written," Islam as Education explores multiple forms that the search for knowledge and the transmission of wisdom have taken in Islam, focusing on the classical period (800-1500 CE). Ghiloni draws on a wide range of Islamic primary source material, ranging from sacred texts and parables to neglected pedagogical literature and paintings. He depicts three Islamic religious practices—pilgrimage, prophecy, and jihad—as modes of pedagogy: embodied ways of defining, defusing, and defending sacred knowledge. Islam as Education's educational heuristic not only aids in understanding Islam, but also provides guidance for intercultural and interreligious relations. Ghiloni argues that Islam's grand (knowledge) tradition serves as a bridge between Muslims and non-Muslims, and compares it with the educational theory of John Dewey, the celebrated American pragmatist. Based on this discussion, a final chapter develops practical tools for learning from cultural and religious difference.

Muslims Inspirational Quotes Abdullah Hawa,2020-10-26 Often, one feels like giving up in the face of tiring challenges that life keeps us presenting with. However, times like these test our mettle to the fullest. The trails of life are a test from Allah (SWT), we must be prepared for them all the time. If you are facing a lot of hardship, it means that Allah (SWT) has something good for you in-store. This is a fact that is validated by the saying of Prophet Muhammad (SAW). He (SAW) said: If Allah wants to do good to somebody, He afflicts him with trials.Source: Sahih al-Bukhari 5645
