*Proceedings of the Tarumanagara International Conference on the Applications of Social Sciences and Humanities (TICASH 2024)* Cokki Cokki, Miharni Tjokrosaputro, Linda Lin-Chin Lin, 2025-08-22 This is an open access book. The TICASH 2024 theme, Sustainable Communities: Promoting Law-Abiding Behavior through Digital Education underscores the vital role of digital education in fostering law-abiding behavior and enhancing community engagement. By leveraging digital platforms, communities can better understand their legal rights and responsibilities, promoting informed participation while considering the socioeconomic and business factors that drive sustainable development. As communities face the challenges of a rapidly changing landscape, encouraging law-abiding behavior is essential for ensuring safety and inclusivity. This approach aligns with overarching objectives such as the United Nations' Sustainable Development Goals (SDGs), particularly Goal 16, which focuses on Peace, Justice, and Strong Institutions. Thus, there is a pressing need for innovative digital solutions that integrate these socioeconomic and business considerations to improve civic awareness and advance sustainable progress.

Proceedings of the International Conference on Strategic and Global Studies (ICSGS 2024) Ibrahim Kholilul Rohman,Wu Zhaoyang,Mohammad Izdiyan Muttaqin,Ismail Suardi Wekke,Irene Sondang Fitritinitia,2025-01-31 This is an open access

book. The pandemic turned to endemic has pushed many countries in the world to digitalize almost all sectors in order to accelerate the development. Every crisis moments create momentum of opportunity to revive and reawaken the hidden potencies of nations. Instead of given thought about the digital culture, the social changes rapidly occurred. The discourses of digital security, cyber threats, monetization, crypto currency, big data, internet of things (IoT), artificial intelligence (AI), and social media had taken us concern about future generations. The very existence of AI application distorts the academic world too where the difference of human and bot could hardly determine. Chat GPT also opened academic eyes where the human analytics skill would perish against the advancement of technology that could provide more precise answers, despite lack of wisdom. Alipay has turned MSMEs to wider market and reach even small villagers to allow opportunity reach them. Gojek eases the burden of stagnancy in making affordable and comfortable public transportation where at the same time reduce the traffic frequency. Would everyone be fitted with the recent situation or still some country left behind? Whereas, for some parts of the world the very basic needs like electricity, elementary education, clean water, healthy food, and secure shelter are still luxurious and hard to access for certain part of the world. The gap disparity remains and recent world order is not everyone's favor or answer for all problems. Meanwhile, the attack of HAMAS to the Israeli shocked the world when the Operation Aqsa Flood launched in 7th of October 2023, days gone by the casualties mounted and the psychology of Palestinian disturbed to the extent incurable. Worse things worst Iran retaliates Israel after the attack to its consulate in Syria. The international society and global politics failed to show solidarity amidst the humanitarian catastrophe in Palestine, where Western alliance continuously rejected the cease fire in the UNGA. The US as the global power failed to show its quality as the world leader which prove the political constellation moved to the multipolarity. The injustice still persists and the voice to transform world order in UN resonates. The consequence lies on the transformation of global security where each nations pursue its own weaponization to ensure its national survival and well-being in the face of uncertainty and unpredictable threats. The opportunity arises in the sector of global halal industry. The player is not only Muslim countries, but non-Muslim countries are taking part. The industry expanded from food to banking and financial system, as well as tourism and fashion. Countless exhibition in regards with halal industry appeared and triggered more expansion in market as the global expense in halal industry significantly increased. This conference will become the melting pot of brilliant idea and push forward the solution to the global problem by making strategic decision into useful resource for all to solve the matters.

**Introduction to Media Distribution** Scott Kirkpatrick, 2023-12-04 In this second edition, author Scott Kirkpatrick draws from over a decade of personal experience in the distribution arena to provide a clear and up-to-date overview of the entire film, television, and new media distribution business. Readers will learn what fuels the distribution process and exactly how the distribution business works from beginning to end—not merely what happens to a film or television series upon acquisition, but how distributors develop, presell and broker deals on content before it even exists. This new edition

considers a much more international approach to media distribution, with case studies and analyses from across the globe. It also reflects on the ever-increasing relevance of diversity and inclusiveness in the industry, as well as the new media verticals like podcasts and the effects of social media influencers on the media landscape. The book will be an integral guidebook for any student or professional wishing to understand both the basics and the subtleties of media distribution. The book also contains a robust appendix containing in-depth studies of legal definitions, material delivery requirements, territory-by-territory financial projections and more.

**Development through Adulthood** Oliver Robinson, 2020-04-04 Now updated for its second edition, this illuminating textbook explores the developmental stages and changes during adulthood that define some of the most pivotal years of our lives. Relationships, cognitive ageing, parenthood, personality shifts, life crises, fulfilment, funerals, friendships, retirement, and death – all are presented in light of psychological theory and the latest research. Taking a thematic approach, the chapters cover interdependent areas of our cognitive, psychological, social, cultural and moral lives that constitute this fascinating area in psychology. Providing an empirical analysis, Robinson considers models for understanding behaviour and development, methods of collecting data and study design. Academically rigorous and elegantly written, *Development through Adulthood* is the perfect guide to classic and current research in the field. It is essential reading for students studying adult or lifespan development, gerontology and the psychology of ageing. It will also appeal to those studying an applied social science, and anyone interested in fully understanding adulthood and ageing. New to this Edition: - Spotlights on landmark studies, fully updated to cover the latest key research in each subject area - Increased focus on gender issues - Real-world applications boxes updated with current and relevant examples of important intervention strategies

**Quarterlife Crisis** Alexandra Robbins, Abby Wilner, 2001-05-21 While the midlife crisis has been thoroughly explored by experts, there is another landmine period in our adult development, called the quarterlife crisis, which can be just as devastating. When young adults emerge at graduation from almost two decades of schooling, during which each step to take is clearly marked, they encounter an overwhelming number of choices regarding their careers, finances, homes, and social networks. Confronted by an often shattering whirlwind of new responsibilities, new liberties, and new options, they feel helpless, panicked, indecisive, and apprehensive. *Quarterlife Crisis* is the first book to document this phenomenon and offer insightful advice on smoothly navigating the challenging transition from childhood to adulthood, from school to the world beyond. It includes the personal stories of more than one hundred twentysomethings who describe their struggles to carve out personal identities; to cope with their fears of failure; to face making choices rather than avoiding them; and to balance all the demanding aspects of personal and professional life. From What do all my doubts mean? to How do I know if the decisions I'm making are right? this book compellingly addresses the hardest questions facing young adults today.
