Shakespeare and Quotation Julie Maxwell, Kate Rumbold, 2018-04-26 Shakespeare is the most frequently quoted English author of all time. Quotations appear everywhere, from the epigraphs of novels to the mottoes on coffee cups. But Shakespeare was also a frequent quoter himself - of classical and contemporary literature, of the Bible, of snatches of popular songs and proverbs. This volume brings together an international team of scholars to trace the rich history of quotation from Shakespeare's own lifetime to the present day. Exploring a wide range of media, including Romantic poetry, theatre criticism, novels by Jane Austen, Thomas Hardy and Ian McEwan, political oratory, propaganda, advertising, drama, film and digital technology, the chapters draw fresh connections between Shakespeare's own practices of creative reworking and the quotation of his work in new and traditional forms. Richly illustrated and featuring an Afterword by Margreta de Grazia, the collection tells a new story of the making and remaking of Shakespeare's plays and poems.

Shakespeare Survey Stanley Wells, Jonathan Bate, Michael Dobson, 2003-10-16 Shakespeare Survey is a yearbook of Shakespeare studies and production. Since 1948 Survey has published the best international scholarship in English and many of its essays have become classics of Shakespeare criticism. Each volume is devoted to a theme, or play, or group of plays; each also contains a section of reviews of the previous year's textual and critical studies and of major British performances. The books are illustrated with a variety of Shakespearean images and production photographs. The current editor of Survey is Peter Holland. The first eighteen volumes were edited by Allardyce Nicoll, numbers 19-33 by Kenneth Muir and numbers 34-52 by Stanley Wells. The virtues of accessible scholarship and a keen interest in performance, from Shakespeare's time to our own, have characterised the journal from the start. Now backnumbers are gradually being reissued in paperback.

Under the Sky of My Africa Catharine Theimer Nepomnyashchy, Nicole Svobodny, Ludmilla A. Trigos, 2006-05-30 A wide-ranging consideration of the nature and significance of Pushkin's African heritage Roughly in the year 1705, a young African boy, acquired from the seraglio of the Turkish sultan, was transported to Russia as a gift to Peter the Great. This child, later known as Abram Petrovich Gannibal, was to become Peter's godson and to live to a ripe old age, having attained the rank of general and the status of Russian nobility. More important, he was to become the great-grandfather of Russia's greatest national poet, Alexander Pushkin. It is the contention of the editors of this book, borne out by the essays in the collection, that Pushkin's African ancestry has played the role of a wild card of sorts as a formative element in Russian cultural

mythology; and that the ways in which Gannibal's legacy has been included in or excluded from Pushkin's biography over the last two hundred years can serve as a shifting marker of Russia's self-definition. The first single volume in English on this rich topic, *Under the Sky of My Africa* addresses the wide variety of interests implicated in the question of Pushkin's blackness-race studies, politics, American studies, music, mythopoetic criticism, mainstream Pushkin studies. In essays that are by turns biographical, iconographical, cultural, and sociological in focus, the authors-representing a broad range of disciplines and perspectives-take us from the complex attitudes toward race in Russia during Pushkin's era to the surge of racism in late Soviet and post-Soviet contemporary Russia. In sum, *Under the Sky of My Africa* provides a wealth of basic material on the subject as well as a series of provocative readings and interpretations that will influence future considerations of Pushkin and race in Russian culture.

Shakespearean Criticism Lynn M. Zott, 2002-08 The plays, theme or focus of this volume includes: King John Othello The Winter's Tale Revenge

Othello Joan L. Hall, 1999-06-30 One of Shakespeare's four major tragedies, *Othello* has captivated audiences for centuries. In its treatment of jealousy and racial tension, it offers an enduring study of universal themes. Part of the Greenwood Guides to Shakespeare, this reference book provides students with a comprehensive overview of the play. The early chapters discuss significant differences between Quarto and Folio texts of *Othello* and explore the play's sources and historical contexts—in particular, how *Othello* contributes to early seventeenth century discourses on racial otherness and the role of women. The book then analyzes the dramatic structure of the play, including its settings, action, and patterns of language. The play hinges on Shakespeare's characters, and the volume discusses his complex presentation of Desdemona, Iago, and Othello. It then examines the tragedy's significant themes: the outsider in society, the gap between empirical evidence and intuitive faith, and the monsters and demons of sexual jealousy and the human imagination. This discussion is followed by a review of the critical response to *Othello* from the early seventeenth century to the present. A final chapter covers the play in performance, with special attention to versions available on film and videotape. Included are photographs from several major productions. The volume concludes with a bibliographical essay.

English Language and Literature Mompoloki Mmangaka Bagwasi, Modupe Moyosore Alimi, Patrick Ebewo, 2008 English Language and Literature: Cross Cultural Currents is a collection of essays that interrogate the precarious positions of English and African languages in an era in which English is increasingly becoming the dominant language in Africa while at the same time there is a growing resistance against it. Though many Africans take pride in their own cultural heritage that is expressed by their African languages, they require the economic and social benefits of English. The book presents a language dilemma in which both African languages and English enhance, inhibit, and influence each other. The data used by the authors spans a broad spectrum of sources including: fiction, courts, parliamentary Hansards, House of Chiefs,

classrooms, internet, roads and bus ranks. Thus, it is reflective of the most and least educated, the most and least influential Africans. The presentations provide broad insights about African symbols, metaphors, imagery and folklores representing undocumented literature that challenge scientific imperialism and deficit theories. The diversity and freshness of the ideas in the book stem from the unique blend of the background of the contributors: English language and literature teachers, teachers of African languages, educationalists, sociologists, historians and politicians. Thus the book is a valuable asset to scholars in linguistics, anthropology and language policy makers.

The Smell of Slavery Andrew Kettler, 2020-05-28 In the Atlantic World, different groups were aromatically classified in opposition to other ethnic, gendered, and class assemblies due to an economic necessity that needed certain bodies to be defined as excremental, which culminated in the creation of a progressive tautology that linked Africa and waste through a conceptual hendiadys born of capitalist licentiousness. The African subject was defined as a scented object, appropriated as filthy to create levels of ownership through discourse that marked African peoples as unable to access spaces of Western modernity. Embodied cultural knowledge was potent enough to alter the biological function of the five senses to create a European olfactory consciousness made to sense the African other as foul. Fascinating, informative, and deeply researched, *The Smell of Slavery* exposes that concerns with pungency within the Western self were emitted outward upon the freshly dug outhouse of the mass slave grave called the Atlantic World.

Semiotic Encounters, 2009-01-01 *Semiotic Encounters: Text, Image and Trans-Nation* aims at opening up scholarly debates on the contemporary challenges of intertextuality in its various intersections with postcolonial and visual culture studies. Commencing with three theoretical contributions, which work towards the creation of frameworks under which intertextuality can be (re)viewed today, the volume then explores textual and visual encounters in a number of case studies. While (a) the dimension of the intertextual in the traditional sense (as specified e.g. by Genette) and (b) the widening of the concept towards visual and digital culture govern the structure of the volume, questions of the transnational and/or postcolonial form a recurrent subtext. The volume's combination of theoretical discussions and case studies, which predominantly deal with 'English classics' and their rewritings, film adaptations and/or rereadings, will mainly attract graduate students and scholars working on contemporary literary theory, visual culture and postcolonial literatures.
