

The Wings Yi Sang

Peter H. Lee

The Wings Yi Sang, 2015-01-10 Yi Sang was the most famous avant-garde writer of the colonial era. In his work he experimented with language, interiority, separation from inside one's self as well as the outer world. His poems, particularly, were influenced by Western literary concepts including Dadaism and Surrealism. *The Wings* is simple, apparently dumb and at least partly autistic. He lives in one room, kept by a wife who works as a prostitute; he understands neither sex nor money, but something of their importance is clear to him. When he begins to go out while his wife is with clients, to wander the streets at night, what order there is to his life disintegrates.

Modern Korean Literature Peter H. Lee, 1990-11-01 The history of Korea in the twentieth century has been a grim succession of oppressions, humiliations, and betrayals. Yet through it all, modern Korean writers have been able not only to find their own distinctive voices but to forge a national literature that speaks eloquently of the survival of the human spirit in times of crisis. This anthology includes the finest translations available of representative works in all the major genres, including poetry, fiction, essays, and drama. Readers will gain a clear sense of the development of twentieth-century Korean literature and a vivid impression of the resilience, strength, and tenacity of modern Korean writers.

The Routledge Companion to Korean Literature Heekyoung Cho, 2022-03-15 The Routledge Companion to Korean Literature consists of 35 chapters written by leaders in the field, who explore significant topics and who have pioneered innovative approaches. The collection highlights the most dynamic current scholarship on Korean literature, presenting rigorous literary analysis, interdisciplinary methodologies, and transregional thinking so as to provide a valuable and inspiring resource for researchers and students alike. This Companion has particular significance as the most extensive collection to date of English-language articles on Korean literature; it both offers a thorough intellectual engagement with current scholarship and addresses a broad range of topics and time periods, from premodern to contemporary. It will contribute to an understanding of literature as part of a broad sociocultural process that aims to put the field into conversation with other fields of study in the humanities and social sciences. While presenting rigorous and innovative academic research that will be useful to graduate students and researchers, the chapters in the collection are written to be accessible to the average upper-level undergraduate student and include only minimal use of academic jargon. In an effort to

provide substantially helpful material for researching, teaching, and learning Korean literature, this Companion includes as an appendix an extensive list of English translations of Korean literature.

Understanding Korean Literature Hung-Gyu Kim, Robert Fouser, 2016-09-16 This study examines the development and characteristics of various historical and contemporary genres of Korean literature. It presents explanations on the development of Korean literacy and offers a history of literary criticism, traditional and modern, giving the discussion an historical context.

It's Madness Theodore Jun Yoo, 2016-02-16 *It's Madness* examines Korea's critical years under Japanese colonialism when mental health first became defined as a medical and social problem. As in most Asian countries, severe social ostracism, shame, and fear of jeopardizing marriage prospects drove most Korean families to conceal the mentally ill behind closed doors. This book explores the impact of Chinese traditional medicine and its holistic approach to treating mental disorders, the resilience of folk illnesses as explanations for inappropriate and dangerous behaviors, the emergence of clinical psychiatry as a discipline, and the competing models of care under the Japanese colonial authorities and Western missionary doctors. It also analyzes interpretations of culture-bound emotional states that Koreans have viewed as specific to their interpersonal relationships, social experiences, local contexts, and the new medical discourses that the Korean press adopted to reshape social understandings of mental illness. Drawing upon unpublished archival as well as printed sources, this is the first study to examine the ways in which madness has been understood, classified, and treated in traditional Korea and the role of science in pathologizing and redefining mental illness under Japanese colonial rule--Provided by publisher.

The Routledge Companion on Architecture, Literature and The City Jonathan Charley, 2018-09-03 This Companion breaks new ground in our knowledge and understanding of the diverse relationships between literature, architecture, and the city, which together form a field of interdisciplinary research that is one of the most innovative and exciting to have emerged in recent years. Bringing together a wide variety of contributors, not only writers, architectural and literary scholars, and social scientists, but graphic novelists and artists, the book offers contemporary essays on everything from science fiction and the crime novel, to poetry, comics and oral history. It is structured into two sections: History, Narrative and Genre, and Strategy, Language and Form. Including over ninety illustrations, the book is a must read for academics and students.

Modern Korean Literature Chung Chong-Wha, 2012-10-12 The sixth book in Kegan Paul International's Korean Culture Series, this volume contains thirty stories that have been selected on the basis of historical interest and literary worth, each representing a monumental moment in the history of Korean Literature. The ten stories in the first part share the common theme of the Korean experience of the confrontation between man and woman; in some stories the relationship is portrayed as innocent and pure, in others the relationship becomes more sophisticated and complex. The ten stories in the second part all deal with old Korean or the old Korean way of life - the Korea of bygone days, which is gradually disappearing in the face

of industrialization and internationalization. The third group of stories reveals modern Korea in the process of change during the period of the Japanese Occupation, the liberation from the Occupation, and the Korean War. All thirty stories may serve as social documents. From the time of ideological chaos following the independence of Korea in 1945 up to the fall of the USSR in the 1980s, modern Korean literature has been powerfully swayed by Marxist ideology one way or another. Literature has an important role to play in its portrayal of the relations between society and individual people, and it has a particularly vital social function in developing or undeveloped countries. However, the stories in this anthology are not just historical documents. They represent the peak of literary achievements by great and gifted writers in the first half of this century. It is remarkable to find so many talented writers producing so many powerful works of art in a short span of just over 50 years between 1908 and 1965. This anthology is an invitation to readers to grasp how much Korea has attained in the process of its modernization. The authors whose works appear in this volume are: Yi Kwang-su, Kim Dong-in, Hyun Chin-kon, Yi Hyo-suk, Kim Yu-jong, Yi Sang, Kim Dong-ni, O Yung-su, Hwang Sun-won, Sohn, So-hi, Hahn Mu-suk, Sunwu Hwi, Kang Shin-jae, Oh Sang-won, Suh Ki-won, Han Mal-suk, Choi In-hun, Kim sung-ok, Yi Mun-ku.
