Contemporary Perspectives on Religions in Africa and the African Diaspora Carolyn M. Jones Medine, Ibigbolade S. Aderibigbe, Hans D Seibel, 2015-10-14 Contemporary Perspectives on Religions in Africa and the African Diaspora explores African derived religions in a globalized world. Religions of Africa E. Thomas Lawson, 1984 Concise, expert, and fully accessible, this is an excellent introduction to the complex, diverse religious traditions of Africa practiced by peoples with vastly different cultures and languages. E. Thomas Lawson makes comprehensible the underlying unity of thought that provides a set of profound answers to fundamental questions ... about the world and the place of human life in it. Religions of Africa outlines and clarifies the historical development of Indigenous African belief systems, discusses the impact of colonization, Christianity, Islam, and liberation movements on the continent's religious evolution, and examines the interaction between time-honored customs and new worlds of thought to illustrate the process of traditions in transformation and transformations in tradition. Lawson presents the history, myths, rituals, institutions, and socio-cultural patterns of two representative groups: the Yoruba of Nigeria and the Zulu of South Africa. Through understanding the religious worlds in which these groups live, the reader gains a solid basis for understanding the whole spectrum of the religions of Africa--from back cover.

African Traditions in the Study of Religion in Africa Afeosemimo Unuose Adogame, Ezra Chitando, Bolaji Bateye, 2012 This book presents a unique exploration of African traditions in the study of religion in Africa and the new African diaspora. Contributors drawn from diverse African and global contexts situate current scholarly traditions of the study of African religions within the purview of academic encounter and exchanges with non-African scholars and non-African contexts. Jacob Kehinde Olupona stands out as a pioneer in the socio-scientific interpretation of African indigenous religion and religions in Africa. This book is to mark his immense contribution to an emerging field of study and research.

The Religious Traditions of Africa Elizabeth Isichei, 2004-11-23 This work is a first of its kind historical introduction to the major religions of Africa. The vast majorities of Africa's peoples have been Muslim, Christian, or Traditionalist for a great deal of time, making an inclusive study of these religions essential. Isichei's work gives equal attention to all three religions and balances the elements of each to construct an easily accessible overview. It is also the first book to provide a

comprehensive look at the traditional religion in Africa, filling the void in the literature on African religious history. Written by a pioneering scholar in the African religious experience, this volume blends in-depth research and personnel accounts to explore the origins and effects of religion in Africa. While primarily a work of history this book also incorporates the latest findings while engaging with current issues such as the interface of neo-traditional religion and contemporary cultures. This work includes four sections, each dedicated to a separate religion, detailed maps, a glossary, and a guide to further reading.

African Traditions in the Study of Religion in Africa Dr Afe Adogame, Dr Bolaji Bateye, Professor Ezra Chitando, 2013-06-28 The historiography of African religions and religions in Africa presents a remarkable shift from the study of 'Africa as Object' to 'Africa as Subject', thus translating the subject from obscurity into the global community of the academic study of religion. This book presents a unique multidisciplinary exploration of African traditions in the study of religion in Africa and the new African diaspora. The book is structured under three main sections - Emerging trends in the teaching of African Religions; Indigenous Thought and Spirituality; and Christianity, Hinduism and Islam. Contributors drawn from diverse African and global contexts situate current scholarly traditions of the study of African religions within the purview of academic encounter and exchanges with non-African scholars and non-African contexts. African scholars enrich the study of religions from their respective academic and methodological orientations. Jacob Kehinde Olupona stands out as a pioneer in the socio-scientific interpretation of African indigenous religion and religions in Africa. This book is to his honour and marks his immense contribution to an emerging field of study and research.

Introduction to African Religion John S. Mbiti, 2015-01-14 In his widely acclaimed survey, John Mbiti sheds light on the survival and prosperity of African Religion in different historical, geographical, sociological, cultural, and physical environments. He presents a constellation of African worldviews, beliefs in God, use of symbols, valued traditions, and practices that have taken root with African peoples throughout the vast continent. Mbiti's accessible writing style sympathetically portrays how African Religion manifests itself in ritual, festival, healing, the human life cycle, and interplay with the mystical and invisible world. The account embraces foundational traditions, while touching on elements that spawn transitions, including migration, the spread of Christianity and Islam, political-economic development, and modern communication. This popular introduction leaves readers with informed knowledge of the riches of African heritage.

African Religions Douglas Thomas, Temilola Alanamu, 2018-12-01 This book supplies fundamental information about the diverse religious beliefs of Africa, explains central tenets of the African worldview, and overviews various forms of African spiritual practices and experiences. Africa is an ancient land with a significant presence in world history—especially regarding the history of the United States, given the ethnic origins of a substantial proportion of the nation's population. This book presents a broad range of information about the diverse religious beliefs of Africa that serves to describe the beliefs,

practices, deities, sacred places, and creation stories of African religions. Readers will learn about key forms of spiritual practices and experiences, such as incantations and prayer, dance as worship, and spirit possession, all of which pepper African American religious experiences today. The entries also discuss central tenets of the African worldview—for example, the belief that humankind is not to fight nature, but to integrate into the natural environment. This volume is specifically written to be highly accessible to students. It provides a much-needed source of connections between the religious traditions and practices of African Americans and those of the people of the continent of Africa. Through these connections, this work will inspire tolerance of other religions, traditions, and backgrounds. The included selection of primary documents provides users first-hand accounts of African religious beliefs and practices, serving to promote critical thinking skills and support Common Core State Standards.

Religion and Faith in Africa A. E. Orobator,2021-02-04 Drawn from his Duffy Lectures delivered at Boston College, Orobator examines the living interplay between African religion, Christianity, and Islam in Africa, and argues that the religious experience and spiritual imagination of Africa offers a genius capable of renewing the global community of believers.

Introduction to African Religion John S. Mbiti,1991 These traditional reads are brimming with spirited characters and positive values--but with a little extra excitement and bite, so hold on to your hats! Written expressly for the middle grade struggling reader, the series does not contain strong language, edgy themes, or dysfunctional families. In fact, family is the main theme of these titles. And one particular Latino family is the focus with their uncanny knack for finding humor, hope, and colorful personalities--even in unusual circumstances. Written at the lowest reading levels, the 50-page story structure is straightforward and moves the reader through the text quickly and efficiently. They were trapped. Then Ana remembered the old stone church. It was nearby. She knew the old building was the safest place for her family. It could withstand the high winds and rising water.

African Traditional Religion in the Modern World, 2d ed. Douglas E. Thomas, 2015-05-21 African traditional religion encompasses a variety of non-dogmatic, spiritual practices followed by millions around the world. Some scholars argue it is related to the Nubian religion of Egypt's Dynastic Period. In an expanded second edition, this book examines the nature of African traditional religion and describes common attributes of various cultural belief systems, with an emphasis on West Africa. Principal elements studied include sacrifice, salvation and culture, modes of revelation, divination, and African resilience in the face of invasion and colonization. The religious experiences of black people throughout the Americas are also covered. The author finds the cosmology, symbolism and rituals of the Yoruba culture to be the fundamental bases of African traditional religion, and draws similarities between the oral and written literature of West Africans and that of New World practitioners. The influence of Islam and Christianity is also discussed. Instructors considering this book for use in a course may request an examination copy [here](#).

The New Religions of Africa Bennetta Jules-Rosette, 1979 This volume is an important and original collection of firsthand field reports and essays on contemporary African cults and churches. Using comprehensive ethnographic information, this volume focuses on the importance of religion as an agent and symbol of social change in emerging African nations, and the changing roles of gender in African society.

Engaging Religions and Worldviews in Africa Yusufu Turaki, 2020-04-30 In a world of increasing globalization, we live amidst a clash of cultures, religions, and worldviews - each battling for the human heart and mind. In this in-depth study, Yusufu Turaki offers a theological framework for engaging this clash of perspectives in Africa, where traditional African religions, colonialism, and exposure to Christianity have each had a lasting impact on contemporary African worldviews. Professor Turaki undertakes a systematic analysis of the nature of African Traditional Religion, its complex history with Christianity, and the need for African Christian theology to address its cultural and historical roots effectively. He provides both a conceptual framework and practical guide for engaging African cultures and religions with compassion, understanding, and a firm foundation rooted in scriptural truth. This book is an excellent resource for students of religion and theology, as well as those interested in Africa's traditional heritage or drawn to the important work of cross-cultural and inter-religious dialogue.

Art and Religion in Africa Rosalind Hackett, 1998-10-01 Africa's religious and artistic traditions constitute a primary example of its intellectual and cultural vitality. Artistic works play a vital role - especially where oral traditions dominate - in communicating ideas about the relationship between the human, spiritual and natural worlds. This work is a comparative study of Africa's visual and performing arts, concentrating on their geographical, material and gendered diversity, and

focusing on the relation of these arts to African religion. The author combines ethnographic and art-historical methodology but does not assume any prior knowledge of African art or African religion. The text seeks a greater understanding of the philosophical and religious aspects of African art, thus challenging western perceptions of what is important in terms of artistic representation. This approach reveals the transformative capacities and multi-dimensionality of African art. The work also highlights the changes brought about by Christianity, Islam and the newer religious movements in post-colonial Africa.

The first provides insights into the interface between Religion and Society. The second features African Diaspora together with Youth and Gender which have not yet featured prominently in studies on religion in Africa. African scholars enrich the study of religions from their respective academic and methodological orientations.
