Theatre from Rhodesia to Zimbabwe Samuel Ravengai, Owen Seda, 2021-07-06 The voices that are represented in this collection come from various parts of the world and express the views of practitioners and scholars who have all had first-hand experience working in Zimbabwean theatre from the last days of Rhodesia to Zimbabwe. The collection views the long continuum of developments in local theatre history as a case of the intrusive hegemonies that came with colonial Rhodesia as a conquest society, and localised identities in the form of the persistence of indigenous and syncretic popular forms. With time, all these came together to constitute the makings of a contested post-colony in contemporary theatre practice in Zimbabwe. The primary interest of scholars who are represented here is located at the intersection of political, cultural and performative discourses and the flow of Zimbabwean history. The focus, moreover, is not only on the history of performance cultures in postcolonial Zimbabwe - it extends its critical gaze to include the history of political ideas that gave rise to cultural contestation in the field of theatre and performance.

Contemporary Readings in Global Performances of Shakespeare Alexa Alice Joubin, 2024-10-03 A concise guide to global performances of Shakespeare, this volume combines methodologies of dramaturgy, film and performance studies, critical race and gender studies and anthropological thick description. This companion guides students from critical methodologies through big pictures of global Shakespeare to case studies that employ these methodologies. It uses a site-

specific lens to examine global performances of Shakespeare on stage, on radio and on screen. As well as featuring methodological chapters on modernist adaptations, global cinema, multilingual productions and Shakespeare in translation, the volume includes short histories of adaptations of Shakespeare in Southeast Asia, Latin America, the Arab world, India, the Slavic world, Iran, Afghanistan and the Farsi-speaking diaspora. It uses these micro-historical narratives to demonstrate the value of local knowledge by analysing the relationships between Shakespeare and his modern interlocutors. Finally, thematically organized case studies apply the methodologies to analyse key productions in Brazil, Korea, Yemen, Kuwait, China and elsewhere. The final chapter considers pedagogical strategies in a global setting. These chapters showcase the how of global Shakespeare studies: how do minoritized artists and audiences engage with Shakespeare? And how do we analyse the diverse and polyphonic performances with an eye towards equity and social justice?

Devising Critically Engaged Theatre with Youth Megan Alrutz, Lynn Hoare, 2020-05-04 *Devising Critically Engaged Theatre with Youth: The Performing Justice Project* offers accessible frameworks for devising original theatre, developing critical understandings of racial and gender justice, and supporting youth to imagine, create, and perform possibilities for a more just and equitable society. Working at the intersections of theory and practice, Alrutz and Hoare present their innovative model for devising critically engaged theatre with novice performers. Sharing why and how the Performing Justice Project (PJP) opens dialogue around challenging and necessary topics already facing young people, the authors bring together critical information about racial and gender justice with new and revised practices from applied theatre, storytelling, theatre, and education for social change. Their curated collection of PJP performance actions offers embodied and reflective approaches for building ensemble, devising and performing stories, and exploring and analyzing individual and systemic oppression. This work begins to confront oppressive narratives and disrupt patriarchal systems—including white supremacy, racism, sexism, and homophobia. *Devising Critically Engaged Theatre with Youth* invites artists, teaching artists, educators, and youth-workers to collaborate bravely with young people to imagine and enact racial and gender justice in their lives and communities. Drawing on examples from PJP residencies in juvenile justice settings, high schools, foster care facilities, and community-based organizations, this book offers flexible and responsive ways for considering experiences of racism and sexism and performing visions of justice. Visit performingjusticeproject.org for additional information and documentation of PJP performances with youth.

Transnational connections in early modern theatre M. A. Katritzky, Pavel Drábek, 2019-11-25 This volume explores the transnationality and interculturality of early modern performance in multiple languages, cultures, countries and genres. Its twelve essays compose a complex image of theatre connections as a socially, economically, politically and culturally rich tissue of networks and influences. With particular attention to itinerant performers, court festival, and the Black, Muslim and Jewish impact, they combine disciplines and methods to place Shakespeare and his contemporaries in the wider context of

performance culture in English, Spanish, French, Dutch, German, Czech and Italian speaking Europe. The authors examine transnational connections by offering multidisciplinary perspectives on the theatrical significance of concrete historical facts: archaeological findings, archival records, visual artefacts, and textual evidence.

Performing Sustainability in West Africa Meike Lettau, Christopher Yusufu Mtaku, Eric Debrah Otchere, 2022-08-29
This book discusses the role of cultural practices and policy for sustainable development in West Africa across different artistic disciplines, including performance, video, theatre, community arts and cultural heritage. Based on ethnographic field research in local communities, the book presents findings on current debates of cultural sustainability in Nigeria, Ghana, Cameroon and Benin. It provides a unique perspective connecting cultural studies, conflict studies and practical peacebuilding approaches through the arts. The first part pays particular attention to aspects of social cohesion and the circumstances of internally displaced persons e. g. caused by the Boko Haram insurgency in Northeast Nigeria. The second part focuses on cultural policy issues and challenges in the context of sustainable development, investigating participatory approaches and bottom-up processes, the role of governments and civil society, as well as performing arts organizations and universities in policy making and implementation processes. *Performing Sustainability in West Africa* presents research results and new methods on the role of artistic and cultural practices in conflict situations as well as current debates in cultural policy for researchers, academics, NGOs and students in cultural studies, sustainable development studies and African studies. Gaps and the Creation of Ideas Judith Seligson, 2021-03-08 *Gaps and the Creation of Ideas: An Artist's Book* is a portrait of the space between things, whether they be neurons, quotations, comic-book frames, or fragments in a collage. This twenty-year project is an artist's book that juxtaposes quotations and images from hundreds of artists and writers with the author's own thoughts. Using Adobe InDesign® for composition and layout, the author has structured the book to show analogies among disparate texts and images. There have always been gaps, but a focus on the space between things is virtually synonymous with modernity. Often characterized as a break, modernity is a story of gaps. Around 1900, many independent strands of gap thought and experience interacted and interwove more intricately. Atoms, textiles, theories, women, Jews, collage, poetry, patchwork, and music figure prominently in these strands. The gap is a ubiquitous phenomenon that crosses the boundaries of neuroscience, rabbinic thinking, modern literary criticism, art, popular culture, and the structure of matter. This book explores many subjects, but it is ultimately a work of art.

Think Like a Curator Donna R. Braden, 2025-04-01 Most history museums—large and small, indoor and outdoor—have a staff member with the title of curator, or at minimum, have tasks that can be classified as curator's work. But, understanding what is involved in doing this work is more complicated than it seems. This book will help you to “think like a

curator.” Written by an author who has spent 45 years doing this type of work at one of the largest history museums in the country, this book guides the reader through curatorial methodology in today’s world with topics that include: reading objects; shaping collections; engaging in rigorous research; the curatorial role in exhibitions and historic site interpretation; the basics of curatorial writing; and curators as leaders. It gives special focus to applying DEAI lenses, as well as aligning with institutional mission and goals, incorporating audience perspectives, and using conceptual and systems thinking. Both succinct and substantial, this book includes easy explanations, step-by-step process guides, practical tips, real-life examples, activities, and source lists.

The Routledge History of Terrorism Randall D. Law, 2015-03-27 Though the history of terrorism stretches back to the ancient world, today it is often understood as a recent development. Comprehensive enough to serve as a survey for students or newcomers to the field, yet with enough depth to engage the specialist, *The Routledge History of Terrorism* is the first single-volume authoritative reference text to place terrorism firmly into its historical context. Terrorism is a transnational phenomenon with a convoluted history that defies easy periodization and narrative treatment. Over the course of 32 chapters, experts in the field analyze its historical significance and explore how and why terrorism emerged as a set of distinct strategies, tactics, and mindsets across time and space. Chapters address not only familiar topics such as the Northern Irish Troubles, the Palestine Liberation Organization, international terrorism, and the rise of al-Qaeda, but also lesser-explored issues such as: American racial terrorism state terror and terrorism in the Middle Ages tyrannicide from Ancient Greece and Rome to the seventeenth century the roots of Islamist violence the urban guerrilla, terrorism, and state terror in Latin America literary treatments of terrorism. With an introduction by the editor explaining the book’s rationale and organization, as well as a guide to the definition of terrorism, an historiographical chapter analysing the historical approach to terrorism studies, and an eight-chapter section that explores critical themes in the history of terrorism, this book is essential reading for all those interested in the past, present, and future of terrorism.

What's Our Problem? Tim Urban, 2023-02-21 From the creator of the wildly popular blog *Wait But Why*, a fun and fascinating deep dive into what the hell is going on in our strange, unprecedented modern times. Between 2013 and 2016, Tim Urban became one of the world’s most popular bloggers, writing dozens of viral, long-form articles about everything from AI to colonizing Mars to procrastination. Then, he turned his attention to a new topic: the society around him. Why was everything such a mess? Why was everyone acting like such a baby? When did things get so tribal? Why do humans do this stuff? This massive topic sent Tim tumbling down his deepest rabbit hole yet, through mountains of history, evolutionary psychology, political theory, neuroscience, and modern-day political movements, as he tried to figure out the answer to a simple question: What’s our problem? Six years later, he emerged from the hole holding this book. *What’s Our Problem?* is a

deep and expansive analysis of our modern times, in the classic style of Wait But Why, packed with original concepts, sticky metaphors, and 300 drawings. The book provides an entirely new framework and language for thinking and talking about today's complex world. Instead of focusing on the usual left-center-right horizontal political axis, which is all about what we think, the book introduces a vertical axis that explores how we think, as individuals and as groups. Readers will find themselves on a delightful and fascinating journey that will ultimately change the way they see the world around them. Anyway he wanted to say a lot more about all of this but there was a word limit on this book description so just go read the book.
