Abel Carlevaro. Un nuevo mundo en la guitarra Alfredo Escande, 2012-10-25 La biografía de Abel Carlevaro, el músico uruguayo de mayor trascendencia mundial e histórica en el universo de la guitarra llamada clásica. La biografía de Abel Carlevaro, el músico uruguayo de mayor trascendencia mundial e histórica en el universo de la guitarra llamada clásica. Abel Carlevaro marcó en forma indeleble la segunda mitad del siglo XX en el universo de la guitarra llamada clásica, como ningún otro instrumentista de su época. Según el autor de este libro (discípulo y asistente pedagógico del gran maestro compatriota durante casi treinta años), este uruguayo cosmopolita pero volvedor, que nunca aceptó vivir fuera de Montevideo, austero y esquivo a cualquier forma de protagonismo mediático, no dejó de hacer contribuciones sustanciales que alteraron para siempre lo que había sido hasta entonces la tradición guitarrística que provenía de Europa, y luego de haber prácticamente revolucionado desde sus propias bases la técnica, las pautas estéticas y la pedagogía del instrumento, abrió para la guitarra todo un mundo nuevo marcado por aquella visión universalista y constructiva legataria de la influencia torresgarciana y que se convirtió en piedra angular del desarrollo futuro de esta rama del arte. En las páginas de su libro, Alfredo Escande recorre los más de ochenta años de la vida de este guitarrista (interprete excelso y singular), y estudia en profundidad el conjunto de personajes y hechos culturales cuya influencia Carlevaro asimiló en el marco de su Montevideo natal, y que luego volcó a su creación musical y pedagógica, para vestirla con la especial impronta que lo distinguió nítidamente como el músico uruguayo de mayor trascendencia mundial e histórica en referencia a su propio ámbito de acción. Andrés Segovia y los guitarreros populares de Uruguay, Heitor Villa-Lobos y Agustín Barrios, Maurice Ohana y los pintores del Taller Torres García, los poetas españoles y ?Bachicha? Gallotti, partituras de Bach y discos de Gardel, un especial entorno familiar y las tradiciones culturales heredadas del pasado europeo son ingredientes que Carlevaro va fundiendo en el crisol efervescente del ambiente montevidiano de los años treinta y cuarenta para luego (en una brillante carrera artística y docente de seis décadas) dar la vuelta, desde el sur, el mapa de la guitarra de su siglo.

Guitar Ergonomics Martín Pedreira, 2021-01-06 As the title of his book attests, guitarist and musicologist Martín Pedreira presents a methodical treatment addressing the most highly refined guitar techniques. In my opinion, we should not confuse the methodical with the routine, because the latter does not facilitate the completion of any task. We applaud

Pedreira for his rigorous vision of instrumental practice and his meticulous attention to the physical-motor aspects of the instrumentalist. This reference book is worthy of frequent consultation for its valuable suggestions. Leo Brouwer This comprehensive reference book integrates the historical, structural, technical, and ergonomic aspects of classic guitar performance with the individual player's cultural, intellectual, creative, and emotional facets in what the author calls a psychophysiological approach to interpretation. In addition to its emphasis on ergonomic posture and technique, the book includes over 200 short musical excerpts by Sor, Giuliani, Coste, Tárrega, Barrios, Montoya, Ponce, Pujol, Villa-Lobos, Rodrigo, Brouwer and others— illustrating practically every aspect of classic and flamenco guitar technique. This unique Wholistic Perspective of Technique Through Repertoire will be useful to teachers, aspiring composers, and to students and professionals forming recital and concert programs. Given the author's extensive survey of technique and repertoire from an ergonomic point of view, it is likely that even seasoned concert artists and teachers will find something new of intense interest to share with their audiences and students. No classic guitarist's library would be complete without this landmark book! The author's goal in presenting this multifaceted approach is to provide theoretical and practical coordinates for improving guitar interpretation while acknowledging the player's intellectual and emotional contributions. While there is no companion recording for this book, many of its examples can be heard in their entirety on YouTube. The inclusion of numerous quotes from renowned guitar virtuosos and other instrumentalists, plus statements by non-musician artists, scientists, and psychophysical experts from the Renaissance to the present day — emphasize the wholistic nature of this book. Readers are encouraged to put everything they have into their performances, including technique and musicianship, of course, but also general cultural knowledge and, yes - personal experience, feelings and even spirituality in order to: "... Enchant instead of astonishing the audience... [and] play more for the heart than for the eyes." - Alexandre Lavignac, La Educación Musical
