

Banque Chaabi Taux De Change

Marco Cascella

Banque du XXI^e siècle (La) Hervé de Carmoy, 1995-11 La décennie écoulée a vu l'environnement bancaire et financier se modifier en profondeur. Où en est-on aujourd'hui ? Quel sera dans les années à venir le destin d'un des plus anciens commerces du monde, celui de l'argent ? Faisant le point sur l'état de la banque-industrie en France aussi bien que sur les évolutions récentes aux États-Unis, à Londres ou au Japon, ainsi que dans des pays en pleine expansion comme la Chine, Hervé de Carmoy diagnostique l'émergence d'un nouveau modèle bancaire, la Banque-Dividende, axé sur la transparence, la rigueur, la rentabilité et l'obsession du client. Un instrument indispensable pour les professionnels comme pour les étudiants. Hervé de Carmoy a été administrateur directeur général de la Midland Bank à Londres, et administrateur délégué de la Société générale de Belgique. Il est actuellement président de la BIMF, il est l'auteur de Stratégie bancaire.

Histoire de la République Populaire de Chine - 2^e éd. Alain Roux, Xiaohong Xiao-Planes, 2024-03-06 En 1949, quand les communistes s'emparent du pouvoir après deux décennies de guerre civile, la Chine était l'un des pays les plus pauvres de la planète. Aujourd'hui, la République Populaire de Chine est la deuxième puissance commerciale du monde et la seule à pouvoir contester l'hégémonie américaine. Ce manuel décrit et explique cette ascension fulgurante. Il livre une analyse de la Chine des années Mao, marquées par la construction des bases de sa puissance retrouvée ainsi que par la catastrophe de la grande famine du Grand Bond en avant et le chaos de la Révolution culturelle. Il expose ensuite le processus complexe et contradictoire de la réforme de Deng Xiaoping, avec ses éclatants succès et leurs revers – montée des inégalités, disparités régionales, corruption et violation des libertés, arrogance vis à vis des États voisins... Enfin, il dépeint la Chine actuelle de Xi Jinping, qui semble amorcer une nouvelle étape dans son développement en s'affirmant à l'avant-garde de l'actuelle révolution du numérique et de l'intelligence artificielle, pour le meilleur mais aussi pour le pire.
