Love, Mom Nicole Saphier, M.D., 2024-04-16 From Fox News medical contributor Dr. Nicole Saphier, comes an inspiring collection of powerful first-person stories celebrating motherhood, from Fox News personalities and extraordinary moms around America. Unmatched and unwavering, mothers are the embodiment of selfless, pure, and unconditional love. But so often, the sacrifices and triumphs of motherhood go unrecognized. Now, in *Love, Mom*, Fox News medical contributor and mom of three, Dr. Nicole Saphier, shines a light on the power of a mother's love, with inspiring first-person stories from moms in the Fox News family. For Dr. Saphier—who was just a teenager when she gave birth to her first son—motherhood was a transformative responsibility. Her story, like so many moms featured in this book, is an inspiration for what it means to be there for your child, no matter where you are in life. Alongside Dr. Saphier's account are deeply personal contributions from FOX News anchors and personalities, such as: Ainsley Earhardt, on the precious bond between mother and daughter, the loss of her own mom, and the power of her faith. Rachel Campos-Duffy, on raising nine children, unexpected blessings, and dedicating her life to advocating for education and awareness about children with Down Syndrome. Kayleigh McEnany, on embracing motherhood despite health challenges, and the delicate balance between career aspirations and the profound gift of raising children. Janice Dean, on navigating the heartbreak of miscarriage, living with an autoimmune disease, and finding joy in raising boys. Martha MacCallum, on the challenges of juggling career and family, the myth of perfection, and the importance of being kind to yourself. Sandra Smith, on how motherhood truly takes a village, and the value of a strong support system as a working mom. Carley Shimkus, on being a new mom, and balancing new responsibilities with grace and determination. In *Love, Mom*, these mothers share their powerful stories, greatest challenges, and insightful reflections about young motherhood, miscarriage, ovarian cancer, mixed race children, postpartum depression, domestic violence, adoption, blended families, and more. Ultimately, *Love, Mom* is a celebration of motherhood and reminds us that a mother's strength and love is an extraordinary gift.

Make America Healthy Again Nicole Saphier, 2020-04-21 NATIONAL BESTSELLER! If Americans want to know why their health care is so costly and getting costlier, they need only look in the mirror. Americans are notoriously unhealthy—we eat too much, drink too much, and sit too much. When roughly 80 percent of cardiovascular disease and 40 percent of all cancer cases could be prevented by simple lifestyle changes, it is time to take a deeper look at the problem and ask who is truly

responsible. Consider that: · After seventy years of innovation, heart disease and cancer remain the top two causes of death in the United States. · In 1960, health care spending was 5 percent of America's GDP; today, it is 17.5 percent. · The government spends over \$1 trillion annually on health care. · Nearly one in five American deaths is associated with poor diets. · Simply reducing sodium intake by 1,200 mg per day could save up to \$20 billion a year in medical costs. In *Make America Healthy Again*, Nicole Saphier, a Memorial Sloan Kettering physician, nationally recognized patient advocate, and media personality, reveals how individual negligence and big government incompetence have destroyed America's health care system. Combining historical events, economic trends, and essential lifestyle advice, with her unique perspective, she offers concrete solutions to address this epic problem. We don't need socialized medicine—we need to take better care of ourselves. By getting healthier and adopting preventative measures, Saphier believes, we can reduce the astronomical costs of treatment and improve overall care. The only way to lower medical costs for everyone is to stop incentivizing bad health decisions. Policies such as the Affordable Care Act and single-payer plans ignore something crucial to lowering the overall financial burden: personal responsibility. We can no longer expect doctors and the government to fix illnesses we have the power to prevent. Regardless of which health policy is adopted, our nation will flounder unless we take action. It is up to the American people to make America healthy again.

Panic Attack Nicole Saphier, 2021-05-25 “Follow the science” is what they said. “Follow our politics” is what they meant. In *Panic Attack*, nationally bestselling author and physician Nicole Saphier uncovers the hypocrisy and hysteria which has characterized so much of the American pandemic response. While journalists trumpeted the importance of following science to “flatten the curve,” they praised Governors Andrew Cuomo and Phil Murphy, who sanctioned ill-equipped nursing homes to take COVID-positive patients, leading to an enormous death spike for New York and New Jersey. Plus, the old guard medical establishment captured by Dr. Fauci proved to be far too rigid during a health care emergency. While some state legislators are still concealing accurate records of nursing home deaths, many others have made anti-science decisions regarding re-opening plans; all of which fuel distrust and civil unrest. Democrat mayors like Bill de Blasio openly admitted that their decisions to keep schools closed were fueled by a “social contract” with teachers (that is: teachers' unions), despite hard science saying this would be harmful. When anti-science measures are continuously implemented, the long-term consequences of such actions will likely stay with us for years to come. The pandemic has resulted in a failure of government, much of which is unavoidable in a unique disaster scenario. However, the rampant politicization of science, from the origin of the virus to the simple concept of wearing facemasks, has hopelessly muddied the water, divided the country, and knee-jerk anti-Trumpism made it all worse.

Hoax Brian Stelter, 2020-08-25 The instant New York Times bestseller that reveals the collusion between Fox News and Donald Trump—with explosive new reporting covering the election and the January 6 riot. As the nation recovers from the

Trump presidency, many questions remain: Why was the COVID-19 pandemic so grossly mishandled? How did we get so politically polarized? What caused white nationalist groups to come out of the shadows, and are they here to stay? The answers lie the twisted story of the relationship between Donald Trump and Fox News. Through firsthand accounts from over 250 current and former Fox insiders, CNN anchor and chief media correspondent Brian Stelter unlocks the inner workings of Rupert Murdoch's multibillion-dollar media empire. The confessions are shocking: "We don't really believe all this stuff," a producer says. "We just tell other people to believe it." Stelter completes the story of the Trump years and looks toward the future of the network that made him. Hoax is a book for anyone who reads the news and wonders how we got here, and what happens next.

The \$Panic of 2020 III Charles V. O'Boyle,2021-11-01 Part III of this book series continues the 2020 COVID-19 Pandemic journey documenting the major events along with the Author's reflection and analysis from a business, government, social and economics viewpoint. Again in Part III, focus is on future pro-active countermeasures that can interdict what lies ahead as pandemic occurrences.
