A stunning opening to the series. —Sunday Times Jo Nesbo is my favorite thriller writer. —Michael Connelly Oslo detective Harry Hole is sent to Sydney, Australia, to assist the local police in their investigation of the brutal rape and murder of Inger Holter, a young, blonde Norwegian woman who was working in a restaurant. Initially sidelined as an outsider, Harry becomes central to the investigation when the police realize that Inger may be only the latest victim in a number of unsolved rape and murder cases around the country. Inger had a number of admirers, each with his own share of secrets, but there is no obvious suspect and the pattern of the other crimes seems impossible to crack. Then a circus performer is brutally murdered, followed by yet another young woman. And Harry is in a race against time to stop a highly intelligent killer who is bent on total destruction.

**Harry Hole Mysteries 3-Book Bundle** Jo Nesbo, 2012-11-19 With more than seven million copies sold worldwide, and translated into over forty languages, Jo Nesbo's Harry Hole series is an international phenomenon. Detective Harry Hole is a genuine anti-hero: a handsome loner, an alcoholic and workaholic who is tormented in his personal life even as he is revered by his colleagues for his unwavering sense of justice and proven police instincts. Harry's self-governing, anti-authoritarian style has driven his superior officer at the crime squad in Oslo to call him "the best investigator in the department and the worst public servant." First-class thrillers with high voltage suspense and complex plotting, *The Snowman*, *The Leopard* and *Phantom* are fascinating journeys into the world of this singular character and the dark criminal minds he pursues to the very limits of his sanity, in Oslo and beyond. "Jo Nesbo is my favorite thriller writer and Harry Hole my new hero." —Michael Connelly "Exuberantly, ingeniously gruesome." —The Telegraph

The murder victim, a self-declared Tinder addict. The one solid clue—fragments of rust and paint in her wounds—leaves the investigating team baffled. Two days later, there's a second murder: a woman of the same age, a Tinder user, an eerily similar scene. The chief of police knows there's only one man for this case. But Harry Hole is no longer with the force. He promised the woman he loves, and he promised himself, that he'd never go back: not after his last case, which put the people closest to him in grave danger. But there's something about these murders that catches his attention, something in the details that the investigators have missed. For Harry, it's like hearing "the voice of a man he was trying not to remember." Now, despite his promises, despite everything he risks, Harry throws himself back into the hunt for a figure who haunts him, the monster who got away.

**The Son** Jo Nesbo, 2014-05-13 INTERNATIONAL BESTSELLER • From the author of the bestselling Harry Hole series comes an electrifying tale of vengeance set amid Oslo's brutal hierarchy of corruption. "The crime author of the moment."—The New York Times Book Review Sonny Lofthus has been in prison for almost half his life: serving time for crimes he didn't commit. In exchange, he gets an uninterrupted supply of heroin—and a stream of fellow prisoners seeking out his Buddha-like absolution. Years earlier Sonny's father, a corrupt cop, took his own life rather than face exposure. Now Sonny is the center of a vortex of corruption: prison staff, police, lawyers, a desperate priest—all of them focused on keeping him stoned and jailed. When Sonny discovers a shocking truth about his father's suicide, he makes a brilliant escape and begins hunting down the people responsible for his and his father's demise. But he's also being hunted, and by enemies too many to count. Two questions remain: who will get to him first, and what will he do when he's cornered?

But now, the unthinkable has happened—Oleg, the boy he helped raise, has been arrested for killing a man. Harry can't believe that Oleg is a murderer, so he returns to hunt down the real killer. Although he's off the police force, he still has a case to solve that will send him into the depths of the city's drug culture, where a shockingly deadly new street drug is gaining popularity. This most personal of investigations will force Harry to confront his past and the wrenching truth about Oleg and himself.

Twenty-First-Century Popular Fiction Bernice M. Murphy, 2017-12-04 This groundbreaking collection provides students

with a timely and accessible overview of current trends within contemporary popular fiction.

**Violence in Popular Culture** Laura L. Finley, 2018-11-09 A comprehensive resource, this book reviews current and historical examples of violence in film, television, radio, music, music videos, video games, and novels. Despite decades of attention and various attempts to enact legislation that limits violence in American popular culture, it remains ubiquitous across films, television, radio, music, music videos, video games, and popular fiction. Studies have shown that programs marketed to children are often remarkably violent and that viewing or otherwise consuming such violence has numerous negative effects on children's psychological health. This book sheds light on the scholarship related to violence in popular culture and compares historical and current examples, analyzing popular shows such as *Game of Thrones*, video games such as *Mortal Kombat*, young adult fiction including the trilogy *The Hunger Games*, and more. Not only does *Violence in American Popular Culture* provide a comprehensive review of the research about the effects of violence in media, but it also offers detailed assessments of violent content in various expressions of popular culture. In addition, it invites readers to compare violence in American popular culture with that globally via entries on violence in popular culture outside the United States. An appendix of additional resources and primary sources gives readers further tools for deepening their understanding of this complex and controversial issue.

An assassin forged in the war-torn region has been brought to Oslo to settle an old debt. As the police circle in, the killer becomes increasingly desperate and the danger mounts for Harry and his colleagues.

**The Snowman** Jo Nesbo, 2011-01-04 In the seventh book in the Harry Hole series, Inspector Harry Hole is tested to the very limits of his sanity by a killer with a strange signature: a snowman. One night, after the year's first snowfall, a boy named Jonas wakes up and discovers that his mother has disappeared. Only one trace of her remains: a pink scarf, his Christmas gift to her, now worn by the snowman that inexplicably appeared in their yard earlier that day. Inspector Harry Hole suspects a link between the missing woman and a suspicious letter he's received. The case deepens when a pattern emerges: over the past decade, eleven women have vanished—all on the day of the first snow.
