*Earthshatter* Albert Nothlit,2016-03-08 Haven Prime: Book One The world is gone. All that's left are the monsters. The creatures attacked Haven VII with no warning. An AI named Kyrios, a nearly omnipotent being, should have protected the city during the Night of the Swarm. Except It didn't. No one knows why It failed, or why It saved eight specific people: the Captain, the Seer, the Sentry, the Messenger, the Engineer, the Alchemist, the Medic, and the Stewardess. They have no idea of the meaning behind the titles they've been given, why they were selected and brought together, or what Kyrios expects from them. When they awake from stasis, they find their city in ruins and everyone long dead. They're alone—or so they think. But then the creatures start pouring out from underground, looking for them. They don't stand a chance in a fight, and with limited supplies, they can't run forever. All they know is that the creatures aren't their only enemies, and there's only one place they can turn. Kyrios beckons them toward Its Portal, but can It be trusted? In Its isolated shrine in the desert, they might find the answers they need—if they can survive long enough to reach it.

**Ann Bartlett Returns to the Philippines** Martha Johnson,2020-02-25 Ann Bartlett Returns to the Philippines, first published in 1945, is an exciting historical-fiction novel centering on Navy nurse Ann Bartlett and her friend and fellow nurse Evelyn Baldwin; location: the occupied Philippines during World War II. The pair travel from the U.S. to the Philippines and serve as nurses aboard a ship. Upon reaching the Philippines, their adventures begin as Ann boards a lifeboat searching for survivors of a nearby ship that has gone down following a Japanese attack; foggy weather separates the lifeboat from the ship, and when the weather clears, a Japanese airplane machine-guns the boat, forcing the passengers into the water. The story continues with the survivors reaching an island shore, narrow escapes from the Japanese, and a romance. Five 'Ann Bartlett' books were published by author Martha Johnson between 1941-1946.

The Cone Stories Stuart Real,2007-12-01 Colin is an ordinary orange and white road traffic cone. He and his friends at the motorway maintenance yard close to the M4 motorway are bored with standing around at the edge of a road. When people are not watching them they cause mischief and mayhem on the roads and motorways. See Colin make people laugh when he sits on top of a statue in the local park. Find out how brave a good little cone can be. Read about the adventures and

the fun the cones from the maintenance yard close to the M4 have whenever they can. The Cone Stories are a collection of fourteen stories, they will make you laugh and sometimes make you cry. These fun stories also have delightful illustrations to bring the cones from the yard to life. Never again will you see an ordinary orange and white traffic cone without wondering what he is doing, on top of a garage roof or lurking in the shadows.

**Human-Computer Interaction - INTERACT 2009** Tom Gross, Jan Gulliksen, Paula Kotzé, Lars Oestreicher, Philippe Palanque, Raquel Oliveira Prates, Marco Winckler, 2009-08-18 INTERACT 2009 was the 12th of a series of INTERACT international conferences supported by the IFIP Technical Committee 13 on Human-Computer Interaction. This year, INTERACT was held in Uppsala (Sweden), organized by the Swedish Interdisciplinary Interest Group for Human-Computer Interaction (STIMDI) in cooperation with the Department of Information Technology at Uppsala University. Like its predecessors, INTERACT 2009 highlighted, both to the academic and to the industrial world, the importance of the human-computer interaction (HCI) area and its most recent breakthroughs on current applications. Both experienced HCI researchers and professionals, as well as newcomers to the HCI field, interested in designing or evaluating interactive software, developing new interaction technologies, or investigating overarching theories of HCI, found in INTERACT 2009 a great forum for communication with people of similar interests, to encourage collaboration and to learn. INTERACT 2009 had Research and Practice as its special theme. The reason we selected this theme is that the research within the field has drifted away from the practical applicability of its results and that the HCI practice has come to disregard the knowledge and development within the academic community.

**Ski Jumping in Washington State: A Nordic Tradition** John W. Lundin, 2021 Ski jumping, once Washington's most popular winter sport, was introduced by Norwegian immigrants in the early twentieth century. It began at Spokane's Browne's Mountain and Seattle's Queen Anne Hill, moved to midsummer tournaments on Mount Rainier in 1917 and expanded statewide as new ski clubs formed. Washington tournaments attracted the world's best jumpers--Birger and Sigurd Ruud, Alf Engen, Sigurd Ulland and Reidar Andersen, among others. In 1941, Torger Tokle set two national distance records here in just three weeks. Regional ski areas hosted national and international championships as well as Olympic tryouts, entertaining spectators until Leavenworth's last tournament in 1978. Lawyer, historian and award-winning author John W. Lundin re-creates the excitement of this nearly forgotten ski jumping heritage.
