What's Queer about Europe? Mireille Rosello, Sudeep Dasgupta, 2014-02-03 What's Queer about Europe? examines how queer theory helps us initiate disorienting conjunctions and counterintuitive encounters for imagining historical and contemporary Europe. This book queers Europe and Europeanizes queer, forcing a reconsideration of both. Its contributors study Europe relationally, asking not so much what Europe is but what we do when we attempt to define it. The topics discussed include: gay marriage in Renaissance Rome, Russian anarchism and gender politics in early-twentieth-century Switzerland, colonialism and sexuality in Italy, queer masculinities in European popular culture, queer national identities in French cinema, and gender theories and activism. What these apparently disparate topics have in common is the urgency of the political, legal, and cultural issues they tackle. Asking what is queer about Europe means probing the blind spots that continue to structure the long and discrepant process of Europeanization.

Fighting Stars Kyle Barrowman, 2024-09-05 Fighting Stars provides a rich and diverse account of the emergence and legacies of Hong Kong martial arts cinema stars. Tracing the meanings and influence of stars such as Bruce Lee, Jackie Chan, Michelle Yeoh, Jet Li, Zhang Ziyi, and Donnie Yen against the shifting backdrops of the Hong Kong film industry, the contributors to this important volume highlight martial arts stars' cultural reach, both on a local and global scale. Each of the chapters, written by a host of renowned international scholars, focuses on an individual film star, considering issues such as martial arts practices and philosophies, gender and age, national identities and conflicts, cinematic genres and aesthetic choices in order to understand their local and transnational cultural influence.

The Encyclopedia of Best Films Jay Robert Nash, 2019-10-23 This all-inclusive A-Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5,000 three- to five-star entries (three stars=good; four stars=excellent; five stars=masterpiece), and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a precis, each film's entry also includes a listing of the cast as well as the key principles involved in production, from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations for viewing: recommended, acceptable, cautionary, and

unacceptable. Backmatter includes a list of top films by genre (i.e. animated, drama, sports, mystery, adventure etc.) as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.
