Internationalization of Business Stefan Schmid,2018-12-30 This book illustrates the various facets of internationalization in managerial practice, starting with a strategic outline of the many options firms have when formulating internationalization strategies. Designed as a textbook for Bachelor, Master and MBA classrooms, the core of the book consists of six case studies on firms from diverse industries, such as sporting goods, aviation, grocery discount, motorcycle, computer and IT, and fast-food. The cases present a variety of ways of entering and operating in foreign markets, such as export, franchising, joint ventures, strategic alliances, greenfield-investments, acquisitions and mergers. In addition to market entry strategies, the cases provide readers, educators and students with insights into target market strategies, timing strategies, allocation strategies and coordination strategies of well-known companies.

SWOT-Analysis of Aldi in Germany ,2018-08-30 Essay from the year 2016 in the subject Business economics - Offline Marketing and Online Marketing, grade: 1,5, Dr. Buhmann Schule gemeinnützige GmbH, language: English, abstract: In today's society time is becoming more and more limited. People run from one point to another, do many things at the same time and pay less attention to the important things in each's life. While shopping for their groceries the customer's mind is already somewhere else and the variety and quantity of the products in a supermarket are overwhelming. Many groceries used this circumstance to their advantage, and out of it created their principle of discount shopping. The basic idea of this system has its origin in the establishment of Aldi in 1913. They have the idea to make the life of customers easier by keeping shopping as uncomplicated and simple as possible. This concept has proven itself: Aldi is among the most successful discounters worldwide. The aim of this paper is to carry out a SWOT analysis on the basis of Aldi Süd with defining the company's internal strengths and weaknesses and its external opportunities and threats. Therefore, at the beginning the company will be presented and the SWOT analysis will be integrated in the concept of the strategic management. On the back of this a recommendation for the company will be created, referring to actual transitions of the brand Aldi.

Strategic Analysis of the Supermarket Sainsbury's Abdullah Adigun,2021-11-26 Seminar paper from the year 2021 in the subject Business economics - Business Management, Corporate Governance, , language: English, abstract: The purpose of this study is to conduct a strategic analysis of Sainsbury's, a UK based supermarket with an objective to dominate the European retail industry. With its establishment in 1869, Sainsbury's features as a reputable supermarket chain in the UK. By 2020, its annual revenue was around £26,334 million, thereby guaranteeing its role as one of the foremost UK supermarkets within the retailing industry. Since inception, the organization has incorporated a self-service method of shopping into the UK supermarket; a strategy that enabled it reinforce its position within the industry till 1991, when it nearly collapsed. Sainsbury's strategic plan endured a significant amount of challenges, all of which required its mitigation to advance in its efficiency in service delivery. For example, the revival of its arch-competitor, Tesco challenged its expansion efforts in an effort to continue to obtain a substantial position within the UK market. At the same time, its leadership uncertainties endanger its efforts towards continuity, especially with reference to implementation of its strategic plan. With reference to the competition; ASDA also features as an opposition within the UK retailing industry, posing considerable threat to the market supremacy of Sainsbury's.

Global Expansion of the Discounter Lidl. Strategic International Business Management Patrick Wiget,2020-12-12 Academic Paper from the year 2019 in the subject Business economics - Business Management, Corporate Governance, grade: 62, University of Salford, language: English, abstract: This paper examines the possibilities of expansion for the Hard Discounter Chain Lidl that operates in the food and non-food retail sector. The organization is keen to expand on an international scale, and it will be evaluated if the expansion is more likely to be successful by opening a store in Norway

or Mexico. The paper will use different analysing models to identify the most attractive target market. This paper focuses on the country of Mexico to determine its potential as a target market for Lidl's future international expansion strategy. The rationale is processed with a more detailed discussion of a PESTEL analysis of the macro-environmental factors of the selected market. An explicit impact of the macro-environmental factors on the selected market is evaluated. Porter's 5-factor model is applied to critically analyse the competitive intensity of Lidl's industrial environment in the chosen market. Resources as well as the capabilities of Lidl and their impact on competition as the company enters the market are critically evaluated. The various market entry opportunities are examined, and recommendations are made as to which are available to Lidl. To this end, recommendations are made around the market entry opportunity that will allow the company to make this strategic international expansion a success.

International Brand Expansion of Aldi, 2020-03-16 Essay from the year 2019 in the subject Business economics - Miscellaneous, grade: 1.0, University of Lincoln, language: English, abstract: This report is concerned with the Germany-based discount supermarket chain Aldi. As the retailer is seeking to further internationalise their business, the Finnish market is analysed as a potential market for Aldi to enter. The method of the analysis includes a PESTEL analysis, industry structure analysis on the basis of Porters Five Forces as well as a SWOT analysis. The conducted research reveals that on one hand, a high level of rivalry, low recognition of discounters as well as many sparsely populated regions represent particularly considerable barriers. On the other hand, there is a great potential for the discount concept of Aldi, due to increasing prices and high price-sensitivity of the Finish consumers. The report evaluates this range of factors and concludes that Aldi could implement their concept successfully in the Finish grocery sector by adapting their business to the Finish culture.

LIDL's Implementation of Discount Supermarkets in Sweden Hauke Barschel, 2007-07 Seminar paper from the year 2004 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: 1,9 (B+), Anglia Ruskin University (Ashcroft International Business School), language: English, abstract: This work provides an exemplified analysis of a company's internationalisation. The chosen example is a possible implementation of LIDL discount supermarkets in Sweden. The analysis encompasses an investigation of the external environment (PEST), a risk assessment and a consideration of market entry strategies. Furthermore it adds an identification of implications for the marketing mix and implications for organisational resources and management.

The SWOT Analysis Anja Bhm, 2009-09 Seminar paper from the year 2008 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: 1,0, University of Applied Sciences Berlin, language: English, abstract: Marketing offers numerous valuable tools to analyze a company's current situation. Though, most of them have the weakness of providing only a very isolated view that is not suitable for a long-term entrepreneurial decision. The SWOT analysis, however, pursues an integrated approach including key company and

environmental variables. The objective is the confrontation of the company's internal strengths and its weaknesses as well as company-external business opportunities and risks in order to generate possible strategic options. The SWOT analysis particularly supports a combined and integrated approach of the current company situation enabling well-balanced and comprehensive decisions. One main benefit is thus the reduction of complexity through the integrated approach, leaving the key factors and strategies as analytical residue. In practice, the SWOT method is a well established tool to analyze business units in larger companies and smaller start-ups in particular during their launch. The SWOT analysis though reveals limited possibilities when analyzing all business units of large companies. For this task other, more holistic, approaches as the shareholder-value concept or the portfolio analysis are appropriate. However, this large field of tools will not be treated in this assignment. The SWOT analysis is though, despite its disadvantages, one of the most important instruments for the internal analysis of a company's situation that - in every case - delivers a pretty comprehensive and resilient foundation for further entrepreneurial decisions and strategic planning.

Marketing Plan ALDI. Entry into the Finnish Grocery Retail Market Lars Bucher, 2022-04-19 Seminar paper from the year 2021 in the subject Business economics - Offline Marketing and Online Marketing, grade: 1,0, , course: Strategic Retail Marketing, language: English, abstract: The ALDI Group is known as one of the biggest chains of discounters in Europe and is still growing into more markets all over the world. As their biggest German competitor LIDL already successfully expanded into the Finnish market, Finland could be a market of interest for ALDI as well. This project work presents an analysis of the discounters business model, capabilities and the environment of the Finnish market by using SWOT Analysis and PEST Analysis. After this a marketing plan is presented based on the insights with recommendations for the company.

Consumption Behavior - Comparison of SPAR and LIDL Niklas Kürten, 2007-11-12 Seminar paper from the year 2006 in the subject Business economics - Offline Marketing and Online Marketing, grade: 1,7, Göteborg University, language: English, abstract: Recently certain serious changes in the dynamic retailing sector could be noticed. Changes in the market environment, and a certain adjustment of the customers' needs, demand for a reaction in the market. Satisfying these changing needs, the importance of discounters in the retailing branch was more and more strengthened, since these markets are beginning to better meet the needs of the majority of customers in the market. Consequently discounters face a certain success and were able to grow and to capture new market shares of other retailing institutions by generating more and more sales. Therefore the aim of this paper is to provide a description of the current situation and the further expected development in the retailing market in Europe. To stress the importance of the discounters' influence on the market as well as the difference between different market's institutions satisfying various and differing needs of differentiating groups of customers, a comparison of an exemplary ordinary retailer, SPAR, and an exemplary discounter, the LIDL Stiftung & Co. KG,

is provided. Within the whole retailing industry, the food branch provides an exemplary market to work out these differences among discounters and ordinary supermarkets. In this market, discounters faced a certain success and customer changes could be more clearly and numerous recognized.

Strategic International Business Management - Lidl Plans Mohamed Sorogy,2023 Will discuss how the German giant Lidl plans to take expansionary steps in a Mexican or Norwegian market to add to its success records in the European and North American markets. Lidl began modestly in 1973 with a small shop that had three members and offers 500 products to 10,500 stores in twenty-nine countries. Lidl has many pros, plus the disadvantages to consider when evaluating the components available in each country, both the pros and cons of this analysis will be reviewed using PESTLE, five- force models, internal value-activities, international business being able to. Accordingly, the next targeted expansion decision will be made.

Primark. Core Competencies, Pestle Analysis, SWOT-Analysis Benaiah Mayabi,2019-06-11 Essay from the year 2019 in the subject Business economics - Miscellaneous, , language: English, abstract: Primark is one of the top leading companies in the retail clothing industry in the UK. The company owns over 350 stores The company was established in 1969 in Ireland and has grown in size to great heights since it was founded. The company has a variety of clothing for both men, women and children and home products as well. The company has a strong foundation policy of offering high quality clothing for a low price which has been successful and made it popular. The company has increased in its net worth to 378.8b British Pounds in 2016 thus possessing a market share of 7% of the clothing industry as at 2017. As of 2018 the company owned 368 stores with the largest being in Market Street, Manchester (approx. 155,000 sq. ft). The company has also employed over 70,000 employees. The company specializes in clothing, cosmetics and housewares.

Macro- and Microeconomic Analysis of the Meat Substitute Market in Germany Jakob Scheidel,2021-08-12 Studienarbeit aus dem Jahr 2021 im Fachbereich BWL - Handel und Distribution, , Sprache: Deutsch, Abstract: The following report examines both the German market for meat substitutes and Beyond Meat as a company in its self. For this purpose, the report is divided into two large parts. The macroeconomic and the microeconomic analysis. In the second part, Beyond Meat's current strategies for the German and European markets are examined and suggestions for the future are made. Plant-based food is currently a huge economic trend. 8 percent of the world's population now have a plant-based diet. About 70 percent of the world's population is reducing their meat consumption, so the market for plant-based foods is getting bigger and bigger every year. By 2017, the meat substitute market is expected to grow up to 35.5 billion US dollars. The IPO of the US company Beyond Meat in May 2019 underlined once again how big the hype around meat substitute products really is. The stock market price grew by several hundred per cent in the meantime, at least temporarily surpassing the IPOs

of Amazon, Facebook or Google. The Beyond Meat Burger has also been available at Lidl in Germany since 2019. However, demand significantly exceeded the quantity supplied, and so many people went home empty-handed.

Market definition and analysis of Pepsi-Cola Benjamin Pommer, 2014-08-25 Seminar paper from the year 2014 in the subject Business economics - Offline Marketing and Online Marketing, grade: 1,3, University of Applied Sciences Essen, language: English, abstract: PepsiCo is a global consumption goods company with a focus on beverages and “junk” food. The total revenue in 2013 underlines its global significance. Compared to Coca-Cola Company, PepsiCo is stronger in North America and around the globe, but that is a direct result of PepsiCo’s diversified portfolio. When it comes to brand value and numbers of sold cola beverages, Coca-Cola Co has a unique market share. Especially on the cola-market, both companies are the most successful competitors worldwide. Pepsi-Cola has a very long history, but had only been a domestic product in the United States until the late 1940s. Therefore, Coca-Cola has an advantage regarding international distribution. In Germany, Pepsi-Cola entered the market almost 30 years after Coca-Cola. Nonetheless, Pepsi proved to be strong opponent by initiating clever marketing campaigns. After the so-called “Pepsi-Challenge” in the 1970s PepsiCo could succeed temporarily in winning the consumers’ hearts. However, the German market for cola products is much more competitive behind Coca-Cola than the US-market. Traditionally, Coca-Cola is the main producer of cola in Germany followed by local products from discount markets. Next to the big international players, the German beverage industry is very diversified and oriented locally. Pepsi-Cola is available in nearly every German supermarket. It is also very present due to PepsiCo’s strong focus on advertising and sponsorship. But among German consumers Coca-Cola still maintains its pole position supported by a dominant brand image. This turns out to be one of the most obvious threat to Pepsi-Cola’s market position. Additionally, Pepsi-Cola’s image as a cheap cola drink is fixed, because of PepsiCo’s focus on distribution through discount markets. The development on the German beverage market shows the importance of sustainable packaging and ingredients. Therefore, Pepsi-Cola has to rely on its niche position in order to offer an alternative meeting consumers’ requirements in the future.
