Stamos’s Evolution and the Big Questions delivers what its title promises—you get to look at all of the issues, such as race and ethics and religion, that make the study of evolution so interesting, and more than just a science. The book is written in a clear and friendly manner and deserves a very wide readership.” Michael Ruse, Florida State University This provocative text considers whether evolutionary explanations can be used to clarify some of life’s biggest questions. It offers a lively, informative, and timely look at a wide variety of key issues facing all of us today—including questions of race, sex, gender, the nature of language, religion, ethics, knowledge, consciousness, and, ultimately, the meaning of life. Some of the questions examined are: Did evolution make men and women fundamentally different? Is the concept of race merely a social construction? Is morality, including universal human rights, a mass delusion? Can religion and evolution really be harmonized? Does evolution render life meaningless? Designed for students and anyone with an interest in the relationship between evolutionary heritage and human nature, the text takes an interdisciplinary approach and offers direction for further reading and research. Each chapter presents a main topic, together with discussion of related ideas and arguments from various perspectives. Along the way, it poses life’s biggest questions, pulling no punches, and presenting a challenge to thinkers on all levels.

The Good Life Method Meghan Sullivan, Paul Blaschko, 2022-01-04 Two Philosophers Ask and Answer the Big Questions About the Search for Faith and Happiness For seekers of all stripes, philosophy is timeless self-care. University of Notre Dame philosophy professors Meghan Sullivan and Paul Blaschko have shepherded thousands of students on the journey to faith and happiness in their blockbuster undergraduate course God and the Good Life. Now they invite us into their classroom to wrestle with the big questions about how to live and what makes life meaningful. They distill guidance from Aristotle, Plato, Marcus Aurelius, Iris Murdoch, and W. E. B. Du Bois to work through issues like what justifies our beliefs, whether we should practice a religion, and what sacrifices we should make for others. The Good Life Method applies the timeless wisdom of philosophy to real-world case studies that explore love, finance, truth, and more. In so doing, this book

pushes us to escape our own caves, ask stronger questions, explain our deepest goals, and wrestle with suffering, the nature of death, and the existence of God.

The Big Questions Lou Marinoff,2009-09-07 Professor Lou Marinoff's first book drew on the wisdom of the great philosophers to solve our everyday problems, launching a movement that restored philosophy to what it once was: useful in all walks of life. Now, in *The Big Questions*, he takes the concept to the next level, applying centuries of philosophy and great literature to answer central questions of modern existence. Urging us not to accept victimhood as the by-product of modern life, Professor Marinoff uses specific case studies from his counseling practice to show how wisdom from the great thinkers can help us define our own philosophy, and thereby reclaim our sense of well-being. He asks and answers questions that go to the heart of the human condition: How do we know what is right? How can we cope with change? Why can't we all get along? And, most centrally, how can we use the centuries of wisdom that have come before us to help us answer these questions and feel at ease in the world? Accessible, entertaining, and profoundly useful, *The Big Questions* mixes wisdom from the great thinkers with specific case studies to illuminate how a shift in perspective can truly be life changing. Lou Marinoff is the author of the international hit *Plato, Not Prozac!*, which has been published in twenty languages. A professor of philosophy at the City College of New York, Marinoff is also the founding president of the American Philosophical Practitioners Association. Praise for *Plato, Not Prozac*: 'What exactly is philosophical practice? Marinoff calls it 'therapy for the sane.' In a nutshell, it's using the 2,500-year-old tradition of philosophy to solve everyday problems, like work, relationship and family issues. It's a return to what philosophy was meant to be - a guideline for a way of life.'-Salon.Com 'Plato, Not Prozac!' looks to become the bible of the philosophical counseling movement.' -Philadelphia Inquirer Magazine 'The ancient think
