The Fall and Rise of Jerusalem Oded Lipschits, 2005-06-30 The period of the demise of the kingdom of Judah at the end of the 6th century B.C.E., the fall of Jerusalem to the Babylonians, the exile of the elite to Babylon, and the reshaping of the territory of the new province of Judah, culminating at the end of the century with the first return of exiles—all have been subjects of intense scrutiny during the last decade. Lipschits takes into account the biblical textual evidence, the results of archaeological research, and the reports of Babylonian and Egyptian sources and provides a comprehensive survey and analysis of the evidence for the history of this 100-year-long era. He provides a lucid historical survey that will, no doubt, become the baseline for all future studies of this era.

Making Sense of Old Testament Genocide Christian Hofreiter, 2018-02-23 The divine commands to annihilate the seven nations living in Canaan (to 'devote them to destruction', herem in Biblical Hebrew) are perhaps the most morally troubling texts of the Hebrew and Christian bibles. Making Sense of Old Testament Genocide: Christian Interpretations of Herem Passages addresses the challenges these texts pose. It presents the various ways in which interpreters from the first century to the twenty-first have attempted to make sense of them. The most troubling approach was no doubt to read them as divine sanction and inspiration for violence and war: the analysis of the use of herem texts in the crusades, the inquisition, and various colonial conquests illustrates this violent way of reading the texts, which has such alarming contemporary relevance. Three additional approaches can also be traced to antiquity, viz. pre-critical, non-literal, and divine-command-theory readings. Finally, critics of Christianity from antiquity via the Enlightenment to today have referenced herem texts: their critical voices are included as well. Christian Hofreiter combines a presentation of a wide range of historical sources with careful analysis that scrutinizes the arguments made and locates the texts in their wider contexts. Influential contributions of such well-known figures as Augustine, Origen, Gregory the Great, Thomas Aquinas, and John Calvin are included, as well as those of critics such as Marcion, Celsus and Matthew Tindal, and less widely known texts such as crusading histories, songs and sermons, colonial conquest accounts, and inquisition manuals. The book thus sheds new light on the ways in which these texts have shaped the thoughts and actions of their readers through the centuries, and offers pertinent insights into how readers might be able to make sense of them today.

The Yehud Stamp Impressions Oded Lipschits, David S. Vanderhooft, 2011-06-30 The study of the yehud stamp impressions, which appear on the handles or bodies of store jars, has persisted for over a century, beginning with the

discovery of the first of these impressions at Gezer in 1904. Nevertheless, until the pioneering work of Stern in 1973, who cataloged, classified, and discussed the stamp impressions known up to 1970, discovery and publication of new stamp impressions were scattered, and analysis was cursory at best. Furthermore, a gap in research has persisted since then. Now, Oded Lipschits and David Vanderhooft are pleased to present a comprehensive catalog (through the winter of 2008-9) of published and unpublished yehud stamp impressions, with digital photographs and complete archaeological and publication data for each impression. This long-overdue resource provides a secure foundation for general reflection on the whole corpus and illuminates more-narrow fields such as stratigraphy, paleography, administration, historical geography, and Persian-period economic developments within Yehud. The catalog clarifies what is nebulous apart from a complete corpus, matters such as distribution, petrographic analysis of the clay, new readings of the seal legends, use of the toponym yehud, and significance of the title phwa. The scope of this catalog renders it a worthwhile tool for all future study of these invaluable artifacts and the period of history that produced them.
