**Ramses: The Battle of Kadesh** Christian Jacq,1999-07-05 The powerful Hittites have declared war on Egypt, and Ramses must do the impossible: seize their impregnable fortress at Kadesh with his ragged army, even as his powerful bodyguard and right-hand man has been arrested, suspected of treason.

**The Battle of Kadesh** Charles River,2022-09-13 Africa may have given rise to the first human beings, and Egypt probably gave rise to the first great civilizations, which continue to fascinate modern societies across the globe nearly 5,000 years later. From the Library and Lighthouse of Alexandria to the Great Pyramid at Giza, the ancient Egyptians produced several wonders of the world, revolutionized architecture and construction, created some of the world's first systems of mathematics and medicine, and established language and art that spread across the known world. With famous leaders like King Tut and Cleopatra, it's no wonder that today's world has so many Egyptologists. Many battles fought in antiquity remain famous thousands of years later, such as Marathon, Thermopylae, and Cannae, mainly due to the belligerents involved and the ways in which the battles changed the course of history. However, even as people are fascinated by the Egyptians, one of the most important battles in antiquity has also been one of the most overlooked: the Battle of Kadesh, fought by Ramesses II against the Hittites. Seeking to spread the area of Egypt's influence and control, Ramesses II led his first military campaign as pharaoh into Canaan in 1275 BCE. There were many battles fought during this campaign, but the one that is recorded in most detail describes Ramesses II fighting one of the Canaanite princes. This prince was apparently wounded by an arrow before his army was broken and routed by the Egyptian force. In the aftermath of the battle, the other princes of Canaan were made prisoners by Ramesses II, captured, and sent back to Egypt as their lands were plundered by the pharaoh's troops. Cowed by Egypt's military power, these vassal lands were thereafter forced to provide tribute to Egypt every year, which Ramesses II received himself at ruling headquarters he set up for himself in Riblah. The Hittite vassal state of Amurru was another one of those captured on this military campaign, and the expansion of Egypt's forces into their territory was of great concern to the rulers of the Hittite Empire. Hittite forces posed a threat to Ramesses II and his ambitions, but his early military successes only led him to plan even further expansion for his empire. It was this expansionist attitude that would lead directly to the Battle of Kadesh in the fifth year of his reign. In order to achieve his dreams of conquest, Ramesses II

needed a constant supply of trained forces and a vast cache of weapons. With his ambitions now clearly defined, the Pharaoh set about creating an industry of war after setting up a new capital he dubbed Pi-Ramesses. This military industry was primarily set up to support another planned campaign into Hittite territory; the capital of Pi-Ramesses was located to the northeast of Cairo in the region of the Nile delta, inland from Tanis and the Mediterranean Sea, and the position of the city itself was possibly motivated by military reasoning. The main battle of the campaign took place outside the moderately important city of Kadesh, which was located in modern Syria. Although Egyptologists, historians, and archaeologists of the ancient Near East are quite familiar with the battle, outside of a few references in films that concern Exodus, it has failed to capture the popular imagination, despite its critical importance. For one thing, it is the earliest known pitched battle to be documented, and the number of troops deployed by both the Egyptians and Hittites may have made it the largest battle ever fought up until that point in time. The organization of the forces, especially the Egyptians, is another intriguing aspect of this battle, because the Egyptians organized their units into divisions, which may be the first such case in history or simply the first time the organization was recorded.

Ramses Christian Jacq, 1999 To save Egypt from the Hittites, Ramses II must face the might of their powerful army, whose weapons are vastly superior to Egypt's own. War seems inevitable, and it is at Kadesh, the impenetrable fortress of Northern Syria, that the first major battle is to take place. But how can Ramses prepare himself for such a battle when the health of his beloved royal wife, Nefertari, is failing rapidly? And how can he be vigilant at home in Egypt where a pro-Hittite underground network continues to grow? In order to save his dying Queen, Ramses needs to travel South in search of the Stone Goddess, but the imminent battle to save his entire civilization is to the North. Will Ramses' father, now a celestial god, answer his desperate pleas for help and guidance?

*Ramses II and the Battle of Kadesh* Regina Goncalves, 2008-07-26 Caius Zip, the young time traveller, will learn the wisdom of Ancient Egypt with the great Pharaoh Ramses II. The main architect of the Pharaoh, plus the Greek scholar who visited Egypt for studying geometry, and the pharaoh's main wife, the beautiful Nefertari, will teach Caius the principles of geometry. After an impressive narration on the effort of the Egyptians in the building of their great monuments, Caius will participate in this effort, with the calculations of area and volume of the pyramids. In the famous battle of Kadesh, an important location in present day Syria, between the two largest eastern powers of that period, the time traveller will help the great pharaoh to win the battle against the Hittite army. How? Aiding in the construction of traps, where he will use his newly acquired knowledge of geometry. More than acquiring knowledge, this book is also about a young person acquiring maturity, 'growing', in the true essence of the word.

**The Makings of an Event** Lindsey June McCandless, 2016 This dissertation examines the packaging and presentation of the Battle of Kadesh as a meaningful Event to both a local Egyptian and a wider Near Eastern audience at pivotal moments in time. In 1275 BCE the Egyptian pharaoh, Ramses II, faced off against the Hittite king, Muwatalli, at the northern Levantine citadel of Kadesh along the border between the two great empires. This confrontation remains one of the most well studied battles of pre-classical times as a result of the lavish attention with which Ramses II commemorated it upon his temple walls in Egypt. Still visible today at Abu Simbel, Abydos, Karnak, Luxor, and the Ramesseum are the monumental reliefs depicting Ramses II charging into the chaotic fray of combat on his chariot. All around him Egyptian troops attack the Hittite army beside the Orontes River, which circumscribes the fortified citadel of Kadesh. Event is capitalized in this dissertation to refer to the ongoing construction and understanding of the Battle of Kadesh as embedded within specific social contexts. Such an approach emphasizes the temporal duration of Events, arguing that a crucial component of Events is their continued resonance in the material (archaeological and/or historical) record. This dissertation focuses upon three encounters with the Battle of Kadesh reliefs through time to demonstrate the Battle's Event-status: The initial carving of the Battle of Kadesh reliefs on the temple walls of the Ramesseum during the reign of Ramses II; the later addition to the Ramesseum of the Egyptian-Hittite peace treaty negotiated in the twenty-first year of Ramses II's reign; and lastly, the Neo-Assyrian army's encounter with this corpus on their campaign in the Theban region during the seventh century BCE. This dissertation argues that the physicality of the reliefs has the effect of creating (as opposed to reflecting) the Battle of Kadesh. In asking how the internal elements of the reliefs communicate with one another and how the reliefs communicate with their surrounding environment, this study demonstrates that meaning is constantly negotiated through the broader social, ideological, and

physical world. In so doing, it recognizes the role the reliefs play as active participants in various social and temporal settings, and it evaluates their efficacy as imperialistic and diplomatic tools utilized during the reign of Ramses II and the reigns of the Neo-Assyrian kings in constructing royal ideologies. Chapters 5-7 of this dissertation landscape the reliefs at the aforementioned moments in time in order to examine their shifting resonances. This includes a description of the permanent changes to the physical landscape of the Ramesseum (such as the addition of the Silver Tablet Treaty to the temple walls or the weathering of the stone surfaces), as well as the appearance of temporary objects (such as festival accouterment) that would impact how the reliefs mean to different audiences. Likewise each chapter describes the cultural and political expectations of each audience in order to demonstrate that Events comprise the encounter between both the landscape of the relief corpus and the different audiences that visit them. These diverse encounters reveal precisely how much an Event's meaning can change through time, highlighting how modern historical reconstructions of the Battle of Kadesh are just one more stage in the Event's making.

*The Transformation of an Ancient Egyptian Narrative* Anthony John Spalinger, 2002 This volume covers the alterations that were performed by Pentawaret, the scribe of P. Sallier III, when he decided to copy the entire text of the Battle of Kadesh. (Temp.: Ramesses II). The work covers his difficulties with syntax and morphology, but also treats the literary aspects of the original composition. The intellectual background to Pentawaret and his associates, especially their political and literary milieu, are covered. A specialized chapter treats the palaeography of P. Sallier III, and additional ones provide the necessary background data concerning the style of the copy and its relationship to the original hieroglyphic version. The final chapter provides a detailed analysis of Egyptian military compositions as literature, and a new unpublished war account of Ramesses III, in hieratic, rounds out the work.

*The Battle of Kadesh* Christian Jacq, 1998-07-01 The Pharaoh Ramses leads his army against the Hittites in an attempt to capture their fortress at Kadesh, while his brother and sister conspire against him and his Queen, Nefertari, is cast under an evil spell

**How I Won the Battle of Kadesh** Kent Jackson, 2017-11-17 This is the true account of my participation in the Battle of Kadesh and some of my adventures before and after it. The Battle of Kadesh, between the ancient Hittites and Egyptians, was one of the greatest battles in ancient times. Both sides claimed victory, but I know who really won. This book answers all the questions and sets the record straight. In it, you will see that much of what you have heard about the battle is not true, and many important facts have become lost to history. Be thankful that now I, a totally unbiased eye witness, have stepped forward to tell the story as it really happened.

The War and the Bagdad Railway Morris Jastrow (Jr.),1918 This book is about the path that connects Constantinople with Bagdad through Asia Minor. The war and the Bagdad Railway determines that this path and Asia Minor itself is at the core of the Eastern Question and how it is the determining element in bringing about the alternate rise and decline of the East.
