**Nathan Abrams,Julie Hughes**

**Containing America** Nathan Abrams,Julie Hughes,2000-01-01 The postwar period in America witnessed a tremendous consumer boom that introduced thousands of new items into the mass market. The contributors to *Containing America* challenge our conceptions of Cold War culture by examining a range of such products - clothes, food, television, magazines, radio, and other forms of entertainment - in order to shed light on how Cold War discourses actually influenced the practices of ordinary behaviour. Their essays address very different sectors of American society - in terms of race, class, ethnicity, sexuality and gender - thus emphasising the multiplicity, diversity, and differing nature of the voices that emerged in cultural production and consumption during the 1950s. *Containing America* points out directions for further research and provides a fresh approach for scholars, students, and others interested in the culture of the Cold War of the 1950s.

*From Mouse to Mermaid* Elizabeth Bell,1995-11 *From Mouse to Mermaid*, an interdisciplinary collection of original essays, is the first comprehensive, critical treatment of Disney cinema. Addressing children's classics as well as the Disney affiliates' more recent attempts to capture adult audiences, the contributors respond to the Disney film legacy from feminist, marxist, poststructuralist, and cultural studies perspectives. The volume contemplates Disney's duality as an American icon and as an industry of cultural production, created in and through fifty years of filmmaking. The contributors treat a range of topics at issue in contemporary cultural studies: the performance of gender, race, and class; the engendered images of science, nature, technology, family, and business. The compilation of voices in *From Mouse to Mermaid* creates a persuasive cultural critique of Disney's ideology. The contributors are Bryan Attebery, Elizabeth Bell, Claudia Card, Chris Cuomo, Ramona Fernandez, Henry A. Giroux, Robert Haas, Lynda Haas, Susan Jeffords, N. Soyini Madison, Susan Miller, Patrick Murphy, David Payne, Greg Rode, Laura Sells, and Jack Zipes.

The Disney+ Kingdom David Whitt,John Perlich,2024-05-08 Debuting in 2019, Disney+ quickly became one of the most popular streaming services worldwide. With hubs for Disney, Pixar, Marvel, Star Wars and National Geographic, Disney+ not only provides vault content from these brands but also original films and television programming such as *High School Musical: The Musical: The Series*, *The Mandalorian*, *The Mighty Ducks: Game Changers*, *Andor* and *The Imagineering Story*. This collection of essays examines a variety of Disney+ exclusive content, exploring themes such as nostalgia, identity, representation and lived experience. Designed to appeal to both academics and the average Disney fan, it attempts to answer

the question of whether its original streaming content is a plus or minus for the Mouse House.

**The Glocalization of Shanghai Disneyland** Ni-Chen Sung,2021-04-11 Focusing on Disney's production of Shanghai Disneyland, this book examines how the Chinese state and the local market influence Disney's ownership and production of the identities and the representations of Shanghai Disneyland. Qualitative methods are here applied to combine both primary and secondary data, including document analysis, participant observation, and in-depth interviews. Shanghai Disneyland is purposely created to be different from the other Disneylands, under the "authentically Disney and distinctly Chinese" mandate. In order to survive and thrive in China, Disney carefully constructs Shanghai Disneyland as Disneyland with Chinese characteristics. Previous studies tend to link Disney with cultural imperialism; however, this book argues that it is not imperialism but glocalization that promotes a global company's interests in China. In particular, the findings suggest state-capital-led glocalization: glocalization led by economic capital of the state (direct investment) and economic capital with the state (market potential). Furthermore, the four categories of glocalization with different conditions, considerations, and consequences illustrate various global-local dynamics in the process of a global formation of locality. The Glocalization of Shanghai Disneyland will appeal to students and scholars of sociology, communication studies, business studies, and Asian studies more broadly.

**Walt's Utopia** Priscilla Hobbs,2024-09-13 The Happiest Place on Earth opened in 1955 during a trying time in American life--the Cold War. Disneyland was envisioned as a utopian resort where families could play together and escape the tension of the real world. Since its construction, the park has continually been updated to reflect changing American culture. The park's themed features are based on familiar Disney stories and American history and folklore. They reflect the hopes of a society trying to understand itself in the wake of World War II. This second edition expands its perspective in response to, among other things, the cultural shifts brought on by the Covid-19 pandemic. New and updated chapters endeavor to hold Disney accountable: not accountability for misdeeds, but its accountability to include everyone, as American mythmakers and cultural titans.

**One Little Spark!** Marty Sklar,2015-09-01 We've all read about the experts: the artists, the scientists, the engineers—that special group of people known as Imagineers for The Walt Disney Company. But who are they? How did they join the team? What is it like to spend a day in their shoes? Disney Legend Marty Sklar wants to give back to fans and answer these burning questions. When Marty was president of Walt Disney Imagineering, he created a list of principles and ideals for the team, aptly named Mickey's Ten Commandments. Using this code of standards as his organizational flow, Marty provides readers with insights and advice from himself and dozens of hands-on Imagineers from around the globe. It's a true insider's look like no other!

**Understanding Disney** Janet Wasko,2020-01-20 Since the 1930s, the Walt Disney Company has produced characters,

images, and stories that have captivated audiences around the world. How can we understand the appeal of Disney products? What is it about the Disney phenomenon that attracts so many children, as well as adults? In this updated second edition, with new examples provided throughout, Janet Wasko examines the processes by which the Disney company – one of the largest media and entertainment corporations in the world – continues to manufacture the fantasies that enthrall millions. She analyses the historical expansion of the Disney empire into the twenty-first century, examines the content of Disney's classic and more recent films, cartoons and TV programs and discusses how they are produced, considering how some of the same techniques have been applied to the Disney theme parks. She also discusses the reception (and sometimes, reinterpretation) of Disney products by different kinds of audiences. By looking at the Disney phenomenon from a variety of perspectives, she provides an updated and comprehensive overview of one of the most significant media and cultural institutions of our time. This important book by a leading scholar of the entertainment industries will be of great interest to students in media and cultural studies, as well as a broader readership of Disney fans.
