A Critical Examination of the Recent Evolution of B2B Sales Cohn, Joel G., 2024-02-27 The seismic shifts in B2B selling brought about by the recent global pandemic have left scholars grappling with the fundamental question of permanence. As the traditional face-to-face dynamics of B2B sales stand challenged, academic minds seek answers: Are these changes enduring, or will we revert to the familiar norms of in-person interactions? A Critical Examination of the Recent Evolution of B2B Sales is a groundbreaking exploration designed for academic scholars seeking clarity in these uncertain times. In the pursuit for understanding, scholars encounter a myriad of questions. What truly transpired in sales activities during the pandemic? Does the surge in virtual selling signify a lasting transformation, or is it merely a temporary adaptation? Critical thinking becomes paramount, necessitating a deep dive into published ideas to discern the strength of conclusions drawn. The academic community grapples with the challenge of scrutinizing the landscape to determine if the changes are indeed permanent and if so, how B2B sales forces can effectively adapt.

A new era of Value Selling Thomas Menthe, 2019-04-04 With this book, Thomas Menthe provides new insights into the era

of value-selling, which has been the Number 1 method in selling complex products and services. Today, customers are expecting more while paying less and the value of your offer is defined by the customer not by the seller. Data is the new oil - the new digital age allows different ways with technology like machine learning to better analyze customer journeys, get insights, predict behaviors and personalize communication to improve customer retention. Digitalization will change the buying behavior much more towards e-commerce and self-service consultation with the support of sales robots. Value can be created from data, which needs to be structured, analyzed and used for the individual customer engagement. Does this mean the end of the sales representative and solution sales? Value is not based solely on product dimensions, much more emotional value created counts during the decision making process. The new era of value-selling explains, how value can be made tangible by the value quotient and ways to generate rational and emotional ROI for customers through story-telling and relationship benefits. Value is always first on the buyer's mind and the new value-selling concept will dramatically improve your business and show how to respond to the customer of tomorrow. Thomas Menthe (MBA) is a sales expert, experienced seller, recognized speaker and author of many publications about customer value, new ways of selling, selling strategy, leadership and coaching. His best selling book Kundennutzen has sold thousands of copies and others are available in their 4th edition. He served global companies like Bearing Point, Canon, Carlsberg, Cisco Systems, Global Knowledge, KWS, Microsoft, RIM, Xerox and others.

Scrum for Sales Michael J. Scherm, 2021-10-30 Many companies want to make their sales agile. Some of them have tried to set up agile sales organizations, but such top-down approaches and big-bang rollouts seldom seem to work. This book shows how the elements of the leading agile framework "Scrum" should be applied to install agility in the salesforce, improve sales performance, and resolve typical performance issues in sales organizations. It contains concrete guidelines, real-world examples, and useful tools to create the necessary change step by step and built to last.

Arthur Miller's Death of a Salesman Eric Sterling, 2008 Arthur Miller's Death of a Salesman, the third volume in the Dialogue series, covers six major and controversial topics dealing with Miller's classic play. The topics include feminism and the role of women in the drama, the American Dream, business and capitalism, the significance of technology, the legacy that Willy leaves to Biff, and Miller's use of symbolism. The authors of the essays include prominent Arthur Miller scholars such as Terry Otten and the late Steven Centola as well as young, emerging scholars. Some of the essays, particularly the ones written by the emerging scholars, tend to employ literary theory while the ones by the established scholars tend to illustrate the strengths of traditional criticism by interpreting the text closely. It is fascinating to see how scholars at different stages of their academic careers approach a given topic from distinct perspectives and sometimes diverse methodologies. The essays offer insightful and provocative readings of Death of a Salesman in a collection that will prove quite useful to scholars

and students of Miller's most famous play.
