*New Formalisms and Literary Theory* V. Theile, L. Tredennick, 2013-04-11 Bringing together scholars who have critically followed New Formalism's journey through time, space, and learning environment, this collection of essays both solidifies and consolidates New Formalism as a burgeoning field of literary criticism and explicates its potential as a varied but viable methodology of contemporary critical theory.

Hollywood 9/11 Tom Pollard, 2015-12-03 The terrorist attacks of September 11, 2001, and the subsequent US-led invasions of Afghanistan in 2001 and Iraq in 2003 profoundly affected all aspects of society, including cinema. Or did they? Even now, years after those horrific events, debate still rages over their impact on films. At the time many expected Hollywood to tamp down graphic movie violence, while others hoped that filmmakers would finally lay bare volatile socio-political issues fuelling terrorist attacks. In fact, what has emerged is a thicket of darkly pessimistic genres including thrillers, combat films, sci-fi, and horror that makes pre-9/11 films appear naive and optimistic. *Hollywood 9/11* explores this transformation, critically examining everything from *Harry Potter and the Half-Blood Prince* to *The Hurt Locker* and placing the films in the context of both the socio-political scene and the history of cinema.

**Watchmen as Literature** Sara J. Van Ness,2014-11-29 Watchmen has been hailed as the quintessential graphic novel and has spawned a body of literary criticism since its 1986 initial appearance in installments. This work explores the graphic novel's reception in both popular and scholarly arenas and how the conceptual relationship between images and words affects the reading experience. Other topics include heroism as a stereotype, the hero's journey, the role of the narrator, and the way in which the graphic layout manipulates the reader's perception of time and space. Instructors considering this book for use in a course may request an examination copy here.

Jean Stafford David Roberts,2003-12-31 Jean Stafford burst on the literary scene in 1944, when, at the age of twenty-nine, she published her bestselling novel, Boston Adventure. Three years later, Life magazine hailed her as the most brilliant of the new fiction writers. Bafflingly, for the rest of her life, Stafford would struggle--and fail--to capitalize on that early promise. David Roberts' compelling biography examines Stafford's disastrous marriages, including her first marriage to the volatile poet Robert Lowell, which culminated for her in a lengthy stay in a psychiatric hospital. Beautiful and gifted, Stafford squandered her health as well as her talent, ending her life embittered and alone.

500 Great Comic Book Action Heroes Mike Conroy,2003 Trying to undo the spell of the evil Dally Rumpe, Beatrice travels to a seaside resort, where she meets her father's great-uncle and cousins and learns about their connection to the evil sorcerer.
