**The Reading Aloud Resource Book** Katie Walsh,Maria Bracken,2023-05-11 This practical guide is the ideal tool for the busy practitioner or speech and language therapist to provide an effective, meaningful, and contextualised approach to language development using picture books. Drawing from up-to-date, evidence-based research, each chapter shows you how to get the most out of picture books to support language development, with a focus on the range of opportunities that reading aloud can bring. The guide offers a complete package to promote speech, language, and early literacy, and to enrich language comprehension, vocabulary, phonological awareness, and oral language – all by using books to provide a context for meaningful language learning. The resource also includes advice on how to develop intervention goals and outcome measures for reading aloud, with practical suggestions covering topics from creating a reading routine and book nooks, to encouraging reluctant readers and reading aloud challenges. Language skills are essential for academic, social and communication success and this reading aloud resource will be valuable reading for early year educators, primary teachers, and speech and language therapists working with young children aged 0-7.

**Teaching and Learning English in the Primary School** Gila A. Schauer,2019-10-11 This book is the first comprehensive investigation of interlanguage pragmatic issues in a primary school context that is based on both primary

school teachers' statements on their own teaching realities, views and preferences, and a thorough investigation of materials used by teachers and recommended by teacher educators in the state the primary schools are located in. It offers a contrastive analysis of primary school learners acquiring English in a typical English as a foreign language school context and their age peers in the same state that are exposed to English in a school immersion context. This book will be of interest to scholars, researchers, educators in higher education that focus on English language teaching, second language acquisition and applied linguistics. It is also intended for students who are planning to become primary school teachers of English as a foreign language.
