Rafael Alarcon,Luis Escala,Olga Odgers

The New Latin America Fernando Calderón,Manuel Castells,2020-08-04 Latin America has experienced a profound transformation in the first two decades of the 21st century: it has been fully incorporated into the global economy, while excluding regions and populations devalued by the logic of capitalism. Technological modernization has gone hand-in-hand with the reshaping of old identities and the emergence of new ones. The transformation of Latin America has been shaped by social movements and political conflicts. The neoliberal model that dominated the first stage of the transformation induced widespread inequality and poverty, and triggered social explosions that led to its own collapse. A new model, neo-developmentalism, emerged from these crises as national populist movements were elected to government in several countries. The more the state intervened in the economy, the more it became vulnerable to corruption, until the rampant criminal economy came to penetrate state institutions. Upper middle classes defending their privileges and citizens indignant because of corruption of the political elites revolted against the new regimes, undermining the model of neo-developmentalism. In the midst of political disaffection and public despair, new social movements, women, youth, indigenous people, workers, peasants, opened up avenues of hope against the background of darkness invading the continent. This book, written by two leading scholars of Latin America, provides a comprehensive and up-do-date account of the new Latin America that is in the process of taking shape today. It will be an indispensable text for students and scholars in Latin American Studies, sociology, politics and media and communication studies, and anyone interested in Latin America today.

Two Mediterranean Worlds Yassine Essid,William D. Coleman,2012-04-01 Why are globalizing processes unevenly distributed between poor and wealthy countries? What effect do these disparities have on the lives of ordinary people? The contributors to this volume find answers to these questions in the Mediterranean, a region divided between the wealthier nations of the north shore and their poorer neighbours to the south. The divergent histories, economies, cultural and linguistic backgrounds, education systems, and political structures of these two regions lead to explanations not only for uneven globalization but also for the wave of demonstrations that have sparked unrest in North Africa and the Near East.

Making Los Angeles Home Rafael Alarcon,Luis Escala,Olga Odgers,2016-03-08 Making Los Angeles Home examines the different integration strategies implemented by Mexican immigrants in the Los Angeles region. Relying on statistical data and ethnographic information, the authors analyze four different dimensions of the immigrant integration process (economic,

social, cultural, and political) and show that there is no single path for its achievement, but instead an array of strategies that yield different results. However, their analysis also shows that immigrants' successful integration essentially depends upon their legal status and long residence in the region. The book shows that, despite this finding, immigrants nevertheless decide to settle in Los Angeles, the place where they have made their homes.

El malestar social en la transmodernidad Mauricio Guzmán Bracho, 2023-01-04 Entre el fin del siglo XX y primeras décadas del XXI se dio una ola mundial de indignación que convocó a millones de personas en las plazas públicas de 90 países para gritar su inconformidad, fenómeno mundial que tuvo como sedimento un malestar social con facetas variadas en cada región y país, cuya complejidad y diversidad invitan a la búsqueda de elementos explicativos y comprensivos. Tal es reflexión teórica que aquí ofrece Mauricio Guzmán Bracho, quien propone reconceptualizar las nociones de malestar social y transmodernidad para explicar desde la teoría sociológica el fenómeno del malestar social en la transmodernidad, su contenido, su tipología y sus connotaciones. Si bien la inconformidad social y las expresiones de descontento se han explicado desde diversas miradas analíticas para entender las condiciones de la estructura social que lo explican, quiénes son los sujetos sociales y cuáles las acciones sociales que lo evidencian, así como las relaciones características entre la estructura social y el malestar social. Junto a la indagación teórica, el autor toma 15 casos de movimientos sociales entre 1980 y 2014 (desde Solidarnosc, hasta los ocurridos en Medio Oriente, Europa y América) para establecer las líneas de continuidad entre la estructura social transmoderna y el malestar social, con un enfoque comparativo de los impulsos históricos y rupturas epocales de la triada modernidad-posmodernidad-transmodernidad.

The Palgrave Encyclopedia of the Possible Vlad Petre Glăveanu, 2023-01-25 The Palgrave Encyclopedia of the Possible represents a comprehensive resource for researchers and practitioners interested in an emerging multidisciplinary area within psychology and the social sciences: the study of how we engage with and cultivate the possible within self, society and culture. Far from being opposed either to the actual or the real, the possible engages with concrete facts and experiences, with the result of transforming them. This encyclopedia examines the notion of the possible and the concepts associated with it from standpoints within psychology, philosophy, sociology, neuroscience and logic, as well as multidisciplinary fields of research including anticipation studies, future studies, complexity theory and creativity research. Presenting multiple perspectives on the possible, the authors consider the distinct social, cultural and psychological processes - e.g., imagination, counterfactual thinking, wonder, play, inspiration, and many others - that define our engagement with new possibilities in domains as diverse as the arts, design and business.
