Hard Realities: India, Pakistan, China in an Emerging New World Dr. Amarjit Singh, 2019-12-26 Hard Realities presents ideology and strategies for Indian pre-eminence. Some of the interesting takeaways are:- Irrefutably, Pakistan's existence is not in India's interest. The time is ripe for dismantling Pakistan as India's neighbor. Thus, Baluchistan, Sindh, West Punjab, and Kashmir must spin out of Pakistan in different ways, while the Federally Administered Tribal Areas (FATA) must be legitimately returned to Afghanistan. Consequently, India has no choice but to prepare its forces with a sense of urgency for the upcoming world economic disruption in the 2020s. However, India has shortcomings, such as historical failures by the Indian leaders to strategize properly with respect to Pakistan and China; deficient investment in engineering disciplines, and failure to boost its economy timely through indigenous defense production. Mostly, India's personality is inappreciable. Moreover, India's approach to China must be unambiguous that Tibet and Xinjiang are not a part of China. As such, India will not share a border with China. But, at present, China is running circles around India, and only technological development of high quality engineering talent will help India. India has a majorly tough row to hoe as a nation. Its 2.5 to 3-front war is its own creation. Though the destiny of nations is a potent force, India must not be found wanting when it comes to singly defending its military and economic independence.

Balochistan and the Mélange of Violence Seema Khan,2023-11-10 This book presents a comprehensive analysis of the intricate security situation prevailing in Balochistan. It explores and establishes correlations between the internal structural vulnerabilities and fault lines of the Pakistani state with the external influences exerted on the region. Employing a rigorous examination of both primary and secondary data, the volume critically examines the multifaceted nature of organised violence in Balochistan. In addition to separatist movements, the presence of religious militancy and cross-border terrorism is thoroughly examined. The book delves into the external involvement of regional and global powers in the intricate tapestry of violence within Balochistan, thereby shedding light on the emerging geopolitical landscape and the corresponding power dynamics in the region. It also analyses how the implementation of largescale developmental initiatives, particularly facilitated by China under the auspices of the China-Pakistan Economic Corridor (CPEC), has elevated the geostrategic significance of Balochistan while simultaneously entangling it in the vortex of regional power politics. This volume will be of interest to scholars and researchers specializing in geopolitics, International Relations, and South Asian studies.

Globalization and Popular Music in South Korea Michael Fuhr,2015-06-12 This book offers an in-depth study of the globalization of contemporary South Korean idol pop music, or K-Pop, visiting K-Pop and its multiple intersections with political, economic, and cultural formations and transformations. It provides detailed insights into the transformative process

in and around the field of Korean pop music since the 1990s, which paved the way for the recent international rise of K-Pop and the Korean Wave. Fuhr examines the conditions and effects of transnational flows, asymmetrical power relations, and the role of the imaginary other in K-Pop production and consumption, relating them to the specific aesthetic dimensions and material conditions of K-Pop stars, songs, and videos. Further, the book reveals how K-Pop is deployed for strategies of national identity construction in connection with Korean cultural politics, with transnational music production circuits, and with the transnational mobility of immigrant pop idols. The volume argues that K-Pop is a highly productive cultural arena in which South Korea's globalizing and nationalizing forces and imaginations coincide, intermingle, and counteract with each other and in which the tension between both of these poles is played out musically, visually, and discursively. This book examines a vibrant example of contemporary popular music from the non-Anglophone world and provides deeper insight into the structure of popular music and the dynamics of cultural globalization through a combined set of ethnographic, musicological, and cultural analysis. Widening the regional scope of Western-dominated popular music studies and enhancing new areas of ethnomusicology, anthropology, and cultural studies, this book will also be of interest to those studying East Asian popular culture, music globalization, and popular music.
