Children and Their Families Vicky R. Bowden, Cindy Smith Greenberg, 2010 Children and Their Families: The Continuum of Care provides a unique interdisciplinary perspective that underscores the nurse's role in planning, coordinating, and working with all members of a pediatric health care team. It shows students how to make critical judgments and assessments to manage the care of children in a variety of community settings, including homes, schools, and medical centers. From infancy through adolescence, this text thoroughly covers the health promotion, surveillance, and maintenance needs of children. In this edition, threaded case studies follow a community of pediatric clients and continue throughout the chapter to show the interrelated dynamics of pediatric nursing care. A companion Website includes journal articles, NCLEX®-style chapter review questions, a Spanish-English audio glossary, Watch and Learn videos, a fluids and electrolytes tutorial, and much more.
