The Aesthetics of Self-Harm Zoe Alderton, 2018-05-11 The Aesthetics of Self-Harm presents a new approach to understanding parasuicidal behaviour, based upon an examination of online communities that promote performances of self-harm in the pursuit of an idealised beauty. The book considers how online communities provide a significant level of support for self-harmers and focuses on relevant case studies to establish a new model for the comprehension of the online supportive community. To do so, Alderton explores discussions of self-harm and disordered eating on social networks. She examines aesthetic trends that contextualise harmful behavior and help people to perform feelings of sadness and vulnerability online. Alderton argues that the traditional understanding of self-violence through medical discourse is important, but that it misses vital elements of human group activity and the motivating forces of visual imagery. Covering psychiatry and psychology, rhetoric and sociology, this book provides essential reading for psychologists, sociologists and anthropologists exploring group dynamics and ritual, and rhetoricians who are concerned with the communicative powers of images. It should also be of great interest to medical professionals dealing with self-harming patients.

American Eccentric Cinema Kim Wilkins, 2019-02-21 Since the late 1990s a new language has emerged in film scholarship and criticism in response to the popularity of American directors such as Wes Anderson, Charlie Kaufman, and

David O. Russell. Increasingly, adjectives like 'quirky', 'cute', and 'smart' are used to describe these American films, with a focus on their ironic (and sometimes deliberately comical) stories, character situations and tones. Kim Wilkins argues that, beyond the seemingly superficial descriptions, 'American eccentric cinema' presents a formal and thematic eccentricity that is distinct to the American context. She distinguishes these films from mainstream Hollywood cinema as they exhibit irregularities in characterization, tone, and setting, and deviate from established generic conventions. Each chapter builds a case for this position through detailed film analyses and comparisons to earlier American traditions, such as the New Hollywood cinema of the 1960s and 1970s. *American Eccentric Cinema* promises to challenge the notion of irony in American contemporary cinema, and questions the relationship of irony to a complex national and individual identity.

To Stand with Palestine Karam Dana, 2025-02-04 In recent years, attitudes in the United States toward the Palestinian cause have shifted dramatically. Although Palestinians have long been demonized in U.S. media and politics, their struggle portrayed as illegitimate, emergent progressive voices increasingly challenge the status quo on Israel and Palestine and express solidarity with Palestinian resistance. What accounts for this change and its evolution? This book provides a new lens on activism around Palestinian issues, demonstrating how the global Palestinian diaspora has driven transnational political movements. Karam Dana explores the ways that exile has shaped Palestinian identity and allowed for new forms of global activism. He examines the social, political, economic, and technological forces that have created space for Palestinian voices to be heard by wider audiences worldwide. Drawing on interviews with scholars and advocates—including members of the Palestinian diaspora and Jewish American activists—as well as public opinion data and media analysis, Dana traces how global Palestinian communities have influenced American views. He addresses the backlash against pro-Palestinian advocacy but argues that solidarity with Palestinians—both in the United States and globally—will continue to strengthen. Timely and insightful, *To Stand with Palestine* offers an inside look at how Palestinians have shared their story with the world and why sympathy for their plight is growing, with significant implications for the global political landscape.

Real Life Rock Greil Marcus, 2015-10-20 For nearly thirty years, Greil Marcus has written a remarkable column called

"Real Life Rock Top Ten." It has been a laboratory where he has fearlessly explored and wittily dissected an enormous variety of cultural artifacts, from songs to books to movies to advertisements. Taken together, his musings, reflections, and sallies amount to a subtle and implicit theory of how cultural objects fall through time and circumstance and often deliver unintended consequences, both in the present and in the future. Real Life Rock reveals the critic in full: direct, erudite, funny, fierce, vivid, uninhibited, and possessing an unerring instinct for art and fraud. The result is an indispensable volume packed with startling arguments and casual brilliance.
