Son Tay 1970 Justin W. Williamson, 2024-11-21 A superbly illustrated account of one of the key milestones in the development of modern US Special Operations Forces, the hugely complex POW rescue at Son Tay. On November 21, 1970, a meticulously prepared force of US Special Forces in HH-53 helicopters, supported by more than a hundred combat aircraft, raided the POW camp at Son Tay, North Vietnam, just 23 miles west of Hanoi, seeking 61 American prisoners. Having trained for months in secret, and utilizing the best troops and air crews possible, the raiders executed the mission flawlessly. No Americans were killed and only two aircraft were downed, with the raiders killing several dozen North Vietnamese. It was the epitome of joint commando operations and regarded as an unheralded success. Except, the prisoners were missing. The raiders had come up empty handed. Illustrated with original artwork and maps, and drawing on both declassified documents and new interviews with participants, in this book diplomat and historian Justin Williamson explains the significance of this highly complex commando mission, deep inside enemy territory. A joint Army-Air Force assault, with the Navy flying diversionary missions, the Son Tay raid was the first operation to be conducted under the direct command of the Joint Chiefs of Staff, and ranks among the most important moments in the development of modern US Special Operations Forces.

Shattered Lives Jeff Ingber, 2018-03-28 On January 24, 1975, six young businessmen were enjoying lunch in lower Manhattan's historic Fraunces Tavern when a bomb placed inside the restaurant exploded, tearing through the building. It had been planted by a group claiming support for Puerto Rican independence known as the "FALN," the most active domestic terrorist organization in American history. Among those businessmen were two sons of immigrants and only children—Frank Connor, with a wife and two young boys, and Alex Berger, whose wife was six months pregnant. Both were murdered, along with two other men, while dozens were injured, many horrifically. *Shattered Lives*, co-authored by Jeff Ingber and Joe Connor, Frank Connor's son, chronicles the origins of the Puerto Rican independence movement, its transformation into a Cuban-led Marxist cause, the FALN's decade-long reign of murder and destruction that was a precursor to future domestic terrorism, the hunt for the perpetrators by a group of dedicated FBI agents, the inexplicable escape from prison by the FALN's chief bombmaker who eventually received asylum in Cuba, and the political maneuvering that led to

Presidents Clinton and Obama granting clemency to FALN members. Through extensive, exclusive interviews with survivors and family, *Shattered Lives* describes the devastating impact of the Fraunces Tavern bombing on the Connor and Berger families and its many other victims, including NYPD officers, uniting them in their struggle to move forward while seeking justice for their loved ones.

A 21st Century Road Trip John Mulhern, III, 2006-12 In this book, John Mulhern III writes about traveling a total of 7,694 miles in 18 days—a route through eighteen widely (and wildly) different states including not only stops in the cities of Chicago, Santa Fe, Los Angeles, San Francisco, and Seattle, but also nights in the small towns of Claremore, Point Arena, and Murdo. Adventures on the road (multiple encounters with both high winds and snow) yield to visits with friends old and new, encounters with various other Corvettes and other vehicles of interest, and more than a few great restaurants, sometimes in the most unexpected places. This is a book for travel lovers and most certainly for Corvette lovers, but most of all for devotees of the stunning beauty and endless variety of America. It includes several detailed maps of the route, an annotated bibliography, and over 150 color photos.

Bridging the Entrepreneurial Financing Gap Michael J. Whincop, 2017-10-05 This title was first published in 2001: Governments world-wide have developed policies to encourage innovation, entrepreneurship, and small firm growth, and to increase access to small firm finance. However, the effectiveness of small firms and entrepreneurs as innovators depends on their incentives and the effective governance of relations between entrepreneurs, investors, and employees. This book links these regulatory policies to the ethical and governance practices of small firms, in order to explain the impact and success these policies might be expected to enjoy. The book examines the empirical and theoretical nature of governance practices in small firms, as well as a range of regulatory policy areas, including intellectual property, insolvency law, taxation, securities regulation, and directors' duties in Australia, Europe, and North America.
