Salt and Light, Volume 1 Carol Lee Hamrin, Stacey Bieler, 2009-01-01 Salt and Light presents the life stories of outstanding Chinese Christians who, as early modernizers, promoted China's nation building and moral progress in the early twentieth century. Lively anecdotes and photographs highlight the strong character of ten pioneers in the modern professions of education, medicine, journalism, and diplomacy. These professionals were motivated by faith to introduce practical social reforms and build up China's civil society. They modeled and promoted virtues essential to social progress during the golden age of Chinese Protestantism. Their stories touch on themes important in today's global era: patterns of cooperation between foreign and Chinese partners, the contributions to China of Western-educated professionals, Christianity's role in furthering East-West understanding and exchanges, and the transnational nature of modern Chinese Christianity. The editors and authors articulate the importance of recovering China's Christian heritage as part of world Christianity. Contributors: Connie Shemo, Fuk-Tsang Ying, Elizabeth Littell-Lamb, Guowei Wright, Peter Tze Ming Ng, and Mary Jo Waelchli

Just and Lasting Change Daniel C. Taylor, Carl E. Taylor, 2016-06-19 This revised and updated guide presents a proven

method for policy and health professionals to promote community-based progress in developing nations. Daniel C. and Carl E. Taylor built their decades-long careers by partnering with key thinkers to combat inequity, environmental degradation, and globalization. Their innovative SEED-SCALE model enables people to transform their communities by analyzing their local context in relation to the global, taking appropriate actions based on their priorities and resources, and assessing what next steps may be needed for continuing progress. Just and Lasting Change describes, step by step, how the SEED-SCALE model can be effectively implemented. Drawing from a variety of personal experiences and case studies, the authors describe historical attempts to promote social development, as well as current efforts in South America, Africa, and Asia. This wide-ranging book touches on examples of community-based change from Abraham Lincoln's leadership style to the Green Bay Packers's ownership model. It also explores thematic global examples from the anti-smoking campaign, Green Revolution, Child Survival Revolution, and urban agriculture. This second edition is fully revised and updated with: Five completely new chapters Thirteen years of scholarship and global evidence New contributions from leading international experts in community-based development and public health

Southeast Asian Personalities of Chinese Descent Leo Suryadinata, 2012 This is a bold project recording the lives of a particular group of Southeast Asians. Most of the people whose biographies are included here have settled down in the ten countries that constitute the region. Each of them has either self-identified as Chinese or is comfortable to be known as someone of Chinese ancestry. There are also those who were born in China or elsewhere who came here to work and do business, including seeking help from others who have ethnic Chinese connections. With the political and economic conditions of the region in a great state of flux for the past two centuries, it is impossible to find consistency in the naming process. Confucius had stressed that correct names make for the best relationships. In this case, Professor Leo Suryadinata has been pursuing for decades the elusive goal of finding the right name to give to the large numbers of people who have, in one way or another, made their homes in, or made some difference to, Southeast Asia. I believe that, when he and his colleagues selected the biographies to be included here, they have taken a big step towards the rectification of identities for many leading personalities. In so doing, he has done us all a great service. - Professor Wang Gungwu, National University of Singapore
