Child, Youth and Family Health: Strengthening Communities Margaret Barnes, Jennifer Rowe, 2013-05-01 A fresh new e-book edition, focusing on the importance of collaboration between healthcare professionals and the community. The second e-book edition of Child, Youth and Family Health builds its focus on the importance of a collaborative partnership between healthcare professionals and members of the community. This approach is vital in supporting, maintaining and strengthening individual and community health across a range of contexts and life stages. Child, Youth and Family Health 2e e-book begins by discussing issues and challenges in child, youth and family health, before addressing contexts for nursing and midwifery, all of which helps readers apply theory to practice. This community healthcare textbook offers additional insight into the importance of the healthcare professional's role when working with children, young people and their families, and looks at practical approaches such as program development, supporting family transitions and mental health promotion. There are three new chapters: 'Communication with children, young people and families - a family strengths-based approach', 'Acute illness: Care for the child and their family' and 'Health promotion through early childhood' along with a range of clinical scenarios, research highlights, practice highlights and critical questions and reflections. Written by authors who are nurses, midwives, early childhood educators and academics, along with a respected team of contributors and editors, Child, Youth and Family Health 2e provides an engaging perspective on the fundamental challenges and issues affecting the health and wellness of infants, children, young people and their families in Australia and New Zealand. - Clinical Scenarios integrated throughout to provide context for practice. - Research highlights provide examples of the most recent research and evidence based practice. - Practice highlights feature up-to-date examples of best practice, policies and procedures in Australia and New Zealand. - Key Points summarise the main issues in each chapter. - Critical questions and reflection feature at the end of each chapter as a tool for tutorials. - Useful Resources provide weblinks for up-to-date data, statistics, organisations and programs. - Extensive references provide for further reading and research. - Chapter 5 'Communication' completely revised with a 'family strengths' approach. - New Chapter 8 'Health promotion through early childhood'. - New Chapter 9 'Acute illness: Care for the child and their family'. - Completely revised and updated with current statistics and data. - Inclusion of contemporary public health policy. - Inclusion of contemporary legislative and regulatory frameworks for health professionals.

Family Assessment and the Australian Family Strengths Nursing Assessment Guide , This work is an overview of family assessment and introduces the Australian Family Strengths Nursing Assessment Guide.

Child, Youth and Family Nursing in the Community Margaret Barnes, Jennifer Rowe, 2007-10-23 This title is directed primarily towards health care professionals outside of the United States. This title aims to: situate child and family health and nursing within the environmental, social, economic, and political contexts; Acknowledge diversity and difference as they influence child and family health and health care; critically analyse contemporary approaches to child and family health promotion; provide a practice development framework for improving effectiveness in child, youth and family nursing; and provide evaluative tools for assessing health-promoting programs. It is structured in sections and takes a critical inquiry approach to encourage and facilitate analysis and critique of policy, practice and evidence. It is client-focused, change-focused and works from practice outward to consider education, service planning, leadership and strategy as they affect practice. - Case studies, exemplars and clinical vignettes are used to demonstrate application of theoretical concepts to practice, and to engage students and teachers. - Interviews with practitioners are included as well as 'practice highlights' and 'critical question and reflection' boxes to reflect the multidisciplinary collaborative nature of child, youth, family, and work. - Chapter Conclusions are followed by Key Points for reinforcement. - Useful Online Resources and comprehensive References are provided.

Community Health and Wellness - E-book Jill Clendon, Ailsa Munns, 2014-10-01 Community Health & Wellness: Primary health care in practice, 5th Edition represents contemporary thinking and research in community health and wellness from Australia, New Zealand and the global community. It challenges students and health professionals to become more aware of the primary health care (PHC) environments in which they work in order to gain an understanding of what is socially determining the health of the individuals, families and communities within their care. - Provides a focus on primary health care practice in Australia and New Zealand - Research and evidence-based practice throughout each chapter - Group exercises that can be used in practice or tutorial groups - Reflective questions to challenge the understanding of key principles and practice - Additional resources for lecturers via Evolve. - • Two new chapters: - Chapter 3 Assessing the Community - Chapter 6 Working in groups - • The SDH Assessment Circle - a new model for community assessment - • Stronger emphasis on working with migrant and refugee families - • A new continuous case study - the Mason and Smith families; both fly-in fly-out (FIFO) families.
