

Did The Khazars Convert To Judaism

Michael Bradley

Understanding the Exodus and Other Mysteries of Jewish History S. B. Segall, 2003 This book describes the origin and evolution of the Jewish religion from the period leading up to the Exodus to the establishment of Jewish kingdoms in eastern and central Europe during the Middle Ages - a period of about 2500 years. It describes the influence of other religions on Judaism and the influence of Judaism on other monotheistic religions. In particular, the evolution of Christianity from a Jewish sect to an independent religion is described.

Handbook on the History and Culture of the Black Sea Region Ninja Bumann, Kerstin S. Jobst, Stefan Rohdewald, Stefan Troebst, 2024-12-30 Following the annexation of Crimea by the Russian Federation in spring 2014 - 160 years after the Crimean War - and the full-scale invasion of Ukraine in February 2022, the Black Sea region has again become the focus of world history. In this handbook, international scholars from various historical and cultural disciplines provide deep historical insights into the structures of conflict, cooperation, and interrelations between the Balkans, the Middle East, the Caucasus, and Eastern Europe in the space referred to as the Black Sea world. The trans-maritime communication and intra-regional circulations, spanning from Antiquity to the present day via, Byzantium, the Polish-Lithuanian Commonwealth, the Crimean Khanate, the Venetian, Safavid, Ottoman, and Romanov empires, two World Wars, and the Cold War, highlight the autonomy of this historical region in the larger transcontinental setting - designated in various times and varying languages as the Pontus Euxinus, the Mare Maggiore, the Kara Deniz, the Chernoe More, or the Black Sea. This voluminous edition sheds real light upon the history of the Black Sea region from antiquity until the end of the 20th century. Not only does this first-rate book provide a host of excellent historical essays across time, it also devotes considerable attention to important questions regarding how the Black Sea region is conceptualized and theorized. A very useful contribution. (James H. Meyer, Montana State University) In the wake of several research projects, monographs and journals, this is the first groundbreaking handbook on the cohesive history of the Black Sea as a historical meso-region. It gathers 39 excellent contributions that provide the conceptual apparatus, survey the history of the region from a Greek to Byzantine to Ottoman lake, to conflicting rivalries, to its recent transformation from a quasi-Soviet to a quasi-NATO lake, examine the ideas that underpin the various national, ethnic and religious identities, research the different mobilities through migration, transport, infrastructure, and take stock of its turbulent history through conflicts and war." (Maria Todorova,

University of Illinois at Urbana-Champaign) Mostly the work of scholars from Central Europe and the Black Sea region, this massive volume focuses on the relationship between historical research and memory, in particular the difficulty of certain groups living in the region when confronted with empires and nation states, whose centers may be quite distant from the Black Sea. Attentive readers may thus view the present handbook not merely as a work of reference on history, memory and movement, but also as a testimony to the historical perspectives developed by a significant number of Central European and Black Sea scholars during the first quarter of the twenty-first century. (Suraiya Faroghi, Ibn Haldun University, Istanbul)

The Emperor Theophilos and the East, 829-842 Juan Signes Codoñer, 2016-03-23 Modern historiography has become accustomed to portraying the emperor Theophilos of Byzantium (829-842) in a favourable light, taking at face value the legendary account that makes of him a righteous and learned ruler, and excusing as ill fortune his apparent military failures against the Muslims. The present book considers events of the period that are crucial to our understanding of the reign and argues for a more balanced assessment of it. The focus lies on the impact of Oriental politics on the reign of Theophilos, the last iconoclast emperor. After introductory chapters, setting out the context in which he came to power, separate sections are devoted to the influence of Armenians at the court, the enrolment of Persian rebels against the caliphate in the Byzantine army, the continuous warfare with the Arabs and the cultural exchange with Baghdad, the Khazar problem, and the attitude of the Christian Melkites towards the iconoclast emperor. The final chapter reassesses the image of the emperor as a good ruler, building on the conclusions of the previous sections. The book reinterprets major events of the period and their chronology, and sets in a new light the role played by figures like Thomas the Slav, Manuel the Armenian or the Persian Theophobos, whose identity is established from a better understanding of the sources.

Great Events in Religion Florin Curta, Andrew Holt, 2016-11-28 This three-volume set presents fundamental information about the most important events in world religious history as well as substantive discussions of their significance and impact. This work offers readers a broad and thorough look at the greatest events in world religious history, covering a wide range of religions, time periods, and areas around the globe. The entries present authoritative information and informed viewpoints written by expert contributors that enable readers to easily learn about the chief events in religious history, help them to better understand the course of world history, and promote a greater respect for culturally diverse religious traditions. The first of the three volumes covers religion from the preliterate world through around AD 600; the second, the post-classical era from 600 to 1450; and the third, the modern era from 1450 to the present. Each volume begins with a substantive introduction that discusses the history of world religions during the period covered by the volume. The chronologically ordered entries overview each event, place it in historical context, and identify the reasons for its enduring significance.

How Medieval Europe was Ruled Christian Raffensperger, 2023-09-06 The vast majority of studies on rulership in medieval Europe focus on one kingdom; one type of rule; or one type of ruler. This volume attempts to break that mold and

demonstrate the breadth of medieval Europe and the various kinds of rulership within it. How Medieval Europe was Ruled aims to demonstrate the multiplicity of types of rulers and polities that existed in medieval Europe. The contributors discuss not just kings or queens, but countesses, dukes, and town leadership. We see that rulers worked collaboratively with one another both across political boundaries and within their own borders in ways that are not evident in most current studies of kingship, inhibited by too narrow a focus. The volume also covers the breadth of medieval Europe from Scandinavia in the north to the Italian peninsula in the south, Iberia and the Anglo-Normans in the west to Rus, Byzantium and the Khazars in the east. This book is geared towards a wide audience and thus provides a broad base of understanding via a clear explanation of concepts of rule in each of the areas that is covered. The book can be utilized in the classroom, to enhance the presentation of a medieval Europe survey or to discuss rulership more specifically for a region or all of Europe. Beyond the classroom, the book is accessible to all scholars who are interested in continuing to learn and expand their horizons.

Politics of Polemics: Marcin Czechowic on the Jews Magdalena Luszczynska, 2018-11-05 The works of Marcin Czechowic (1536-1613), a leader of a Polish Radical Protestant sect known as the Arians, are often referred to as proof for the Jews' close contacts with Radical Christians and the tolerant character of interreligious debates in early-modern Poland. In "Politics of Polemics," Magdalena Luszczynska explores Arian-Jewish relations focusing on Czechowic's two polemics that utilise contrasting images of the Jew. The first features an invented interlocutor, a spiritually blind, tradition-bound 'hermeneutical Jew,' while the second engages in depth with Jewish texts, beliefs, and practices drawing on the Christian Hebraist perception of the Jews as potential teachers of 'sacred philology.' The works are analysed in the context of Radical Protestant theology, the tradition of Christian-Jewish polemics, and Arian leadership contest. "Politics of Polemics," providing an English-speaking reader with an unprecedented access to this unique polemical material, is a valuable source for the historians of the Radical Reformation and of Christian-Jewish relations in early-modern Poland.

The Genesis of the Bible Shaka Saye Bambata Dolo, 2012-03 This book is about Christianity, Islam, Judaism, and how the Arabs and Europeans took these Afrikan Religious Belief Systems from ancient Egypt, North Afrika and used them during The Trans-Sahara Afrikan Slave Trade by the Arabs in the name of Allah, and followed by The Transatlantic Afrikan Slave Trade by the Europeans in the name of Jesus, to enslave the bodies, minds, and souls of the Afrikan Race. This book is about the Jesus' Deception that has been passed on down through history by European historians, that is still being taught around the world today. This book takes a provocative intellectual, scholastic, historical, cultural, and sociological look at the Bible. This book identifies the names of the translators of the King James Bible of 1611 A. D., and when the chapters and verses in the Bible were created and who created them. The purpose of this book is to expose the historical, cultural, sociological, religious and theological lies of the Europeans and the Arabs. This book reveals the truth of the origination of The Bible, as There Is No Religion Higher Than The Truth. Join me in an intellectual odyssey through time. Here, I feel like a Lone Warrior

standing before a mighty army. Come with me on this perilous pilgrimage as we travel through a parallel universe. I dedicate this book to my mother and father who gave me life. To the rest of my Native Afrikan family for supporting me and encouraging me on this publishing venture. To the Heavenly Father, without whom none of this would be possible. There are others I would also like to thank for being a part of helping me through this journey called Life, such as my professors at the Alabama State University where many a great scholars paths I have crossed. To my American family and friends in Mobile, Alabama who nurtured and taught me from childhood to adulthood. The many friends and colleagues I met in my travels all across America in my intellectual journey, and last but certainly not least, to my publisher for granting me the opportunity to speak to many all around the world in this forum. I am eternally indebted to you all-Thank you.

The Theory and Practice of Welcoming Converts to Judaism Lawrence Jeffrey Epstein,1992 This is a theological interpretation of Judaism focusing on the Jewish covenantal obligation to offer Judaism and welcome converts. The term Jewish universalism is applied to the theory because the central idea of the interpretation is that Judaism is a universal religion. This is supported by an analysis of the basic theological concepts of Judaism (God, the natural world, humanity, chosenness, revelation, covenant, mission, the nation of Israel, and redemption). These concepts are understood to emphasize the Jewish mandate to offer Judaism without requiring it.

Hungarians and Europe in the Early Middle Ages András Róna-Tas,1999-03-01 Lavishly illustrated, the book contains seventy five historical maps and colour plates which visualize the historical background of Hungary and introduces its early history to a broader readership. The early history of Hungarians is embedded into the history of Eurasia and special attention is given to the relationship of the Hungarians with the Khazars and the Bulghar-Turks. The first part deals with methods and sources which can be used for elucidating the ancient history of the Hungarians, relying on research into linguistics, archaeology, anthropology and natural history. The second part traces how the Hungarians came into the Carpathian Basin and answers such questions as: who are the Magyars, from where did they come and how did they conquer

the land? It reconstructs and examines their early political and social structure, the economy, and religion, and compares the Hungarian medieval process with the ethnogenetic processes of the Germanic, Slavic and Turkic people.

Turks and Khazars Peter B. Golden, 2010 This second collection of studies by Peter Golden continues his explorations of the T'Á1/4rk Empire (mid-sixth to mid-eighth centuries), the stateless polities that followed its collapse, and of the Khazar Qaghanate (mid-seventh century to ca. 965-969), its imperial successor state in the western Eurasian steppes. Examined here are issues relating to the rise of the T'Á1/4rks, slavery and its role in Turkic nomadic societies, and the cultural interactions between Turkic nomads and neighbouring societies, notably Kievan Rus', Georgia and the Islamic world.

Christianizing Peoples and Converting Individuals Guyda Armstrong, Ian N. Wood, 2000 The selected essays in this volume deal with the subject of conversion across the full chronological, geographical and religious expanse of medieval Europe and central Asia.
