Engaged Pedagogy, Enraged Pedagogy: Reconciling Politics, Emotion, Religion, and Science for Critical Pedagogy T. Monchinski, 2011-07-23 Students, teachers and schools are under attack. The assault comes in the guise of ‘accountability’ and ‘choice’, cloaking itself in the ‘scientifically-proven’ with an over-emphasis of data. It combines a vilification of organized labor along with a promotion of the irrational, while readily blurring the line between utopia and dystopia. The attack abuses education as it disseminates self-serving propaganda, simultaneously covering up inconvenient truths like the United States government’s long and storied relationships with Saddam Hussein and Osama bin Laden in the Wars on Terror. It suppresses solidarity and compassion while it champions a divisive form of selfish individualism. Engaged Pedagogy, Enraged Pedagogy seeks to counter these attacks and expose the ideological impulses behind them. Marshalling critical pedagogy and an ethic of care with the notions of justified anger and the intellectual warrior, the book explores the non-antagonistic dualisms between faith and science, reason and emotion; it deconstructs social texts ranging from ‘80s action films to dystopian literature as it uncovers the ideologies that structure and order our lives; it explores and champions the democratic potential of dialogue, mutuality, and authority, while challenging left essentialism and identity politics. The book also features an interview with Joe Kincheloe, a seminal figure in the field of critical pedagogy.

Vibrant Learning Debra K. Wellman, Cathy Y. Kim, Lynn Columba, Alden J. Moe, 2018-07-27 Grounded in research, *Vibrant Learning*, focuses on language-rich, literacy-based, collaborative classrooms as the foundation for transforming content area learning. The authors emphasize three areas: (1) strategies to support student understanding of concepts, (2) ideas to encourage student engagement, and (3) creating a lively and respectful classroom environment to foster an integrative approach to learning. Knowledgeable teachers with a repertoire of effective instructional strategies make genuine learning possible. With that in mind, this book presents a solid theoretical background and a set of practical tools in each of its chapters, ranging from assessment, compression, vocabulary, motivation, to integration for the content area teacher.

Through the Eyes of a Child Donna E. Norton, Sandra E. Norton, Amy A. McClure, 2003 In its seventh edition, *Through the Eyes of a Child: An Introduction to Children's Literature* continues to be a visually stunning, theoretically sound, comprehensive overview of children's literature. It focuses squarely on selecting and evaluating quality literature to share with children and guiding them to appreciate and respond to that literature. This edition features multicultural literature and young adult literature in every chapter, expanded coverage of biographies and informational books and over 100 new children's titles referenced throughout. A children's literature CD-ROM accompanies the book and contains bibliographic information for thousands of titles, making it even easier to share quality literature with children and adolescents.

Aesthetic Approaches to Children's Literature Maria Nikolajeva, 2005-05-12 Each chapter includes a short introduction to a specific theoretical approach, an example of its application to a literary text, a number of activities such as study questions

and reading exercises, and suggestions for further exploration. Contemporary literary theories discussed include semiotics and hermeneutics; structuralism and narratology; feminist and postcolonial theory; psychoanalysis, and reader response.

The Rhetoric of Character in Children's Literature Maria Nikolajeva, 2002 Now available in paperback Until now, there was no theoretical research of character in children's fiction and very few comprehensive theoretical studies of literary characters in general. In her latest intellectual foray, the author of *From Mythic to Linear* ponders the art of characterization. Through a variety of critical perspectives, she uncovers the essential differences between story ('what we are told') and discourse ('how we are told'), and carefully distinguishes between how these are employed in children's fiction and in general fiction. Yet another masterful work by a leading figure in contemporary criticism.

The Giver Lois Lowry, 1993-04-26 In Lois Lowry's Newbery Medal-winning classic, twelve-year-old Jonas lives in a seemingly ideal world. Not until he is given his life assignment as the Receiver does he begin to understand the dark secrets behind his fragile community. Life in the community where Jonas lives is idyllic. Designated birthmothers produce new children, who are assigned to appropriate family units. Citizens are assigned their partners and their jobs. No one thinks to ask questions. Everyone obeys. Everyone is the same. Except Jonas. Not until he is given his life assignment as the Receiver of Memory does he begin to understand the dark, complex secrets behind his fragile community. Gradually Jonas learns that power lies in feelings. But when his own power is put to the test—when he must try to save someone he loves—he may not be ready. Is it too soon? Or too late? Told with deceptive simplicity, this is the provocative story of a boy who experiences something incredible and undertakes something impossible. In the telling it questions every value we have taken for granted and reexamines our most deeply held beliefs. *The Giver* has become one of the most influential novels of our time. Don't miss the powerful companion novels in Lois Lowry's *Giver Quartet*: *Gathering Blue*, *Messenger*, and *Son*.

Using Literature in the Middle School Curriculum Carol Otis Hurst, Rebecca Otis, 1999 In this valuable resource, Hurst and Otis bring together the methods and philosophy for the extensive use of trade books in the middle school curriculum. Novels, picture books, and non-fiction materials are summarized and extended within the context of themes, literary study, and focus books for discussion and activities in the classroom and library. Eighteen fully developed themes enable educators to bring literature into other areas of the curriculum. In addition, 29 literary works are explored through

further activities and discussion, again reaching into many curriculum areas. A section on literary study that includes symbolism, foreshadowing, and flashbacks helps teachers guide students to an analytical level in their reading and writing. Both teachers and students will greatly benefit from this useful resource!
