Sustentado en ejemplos de uso y adaptabilidad, estudios de caso y proyectos llevados a cabo de modo particular o institucionalmente, tiene como objetivo dar una muestra amplia de los recursos disponibles para mejorar la educación en general y la accesibilidad y la comunicación de las personas con discapacidad en particular. Niños, jóvenes y adultos con dificultades de aprendizaje, problemas de atención y memoria, autismo, dificultades en el desarrollo, trastornos del lenguaje del desarrollo o adquiridos, problemas neurológicos y dificultades motoras, visuales o auditivas, entre otras, son los que más se pueden beneficiar de los recursos tecnológicos. Para ellos la tecnología se transforma en una herramienta sustancial de trabajo y de acceso al conocimiento.

El Ciclo inicial en la educación básica Jesús Asensi, 1981

Prevención en dificultades del desarrollo y del aprendizaje Jesús Nicasio García-Sánchez, 2014-02-27 Las dificultades del desarrollo surgen en el proceso de construcción de las personas y su mundo, por lo que la ayuda y actuación preventiva son básicas para conseguir niveles de desarrollo óptimos y satisfactorios. De ahí que una obra que aborde las cuestiones nucleares de las dificultades del desarrollo y del aprendizaje sea relevante y necesaria para los profesionales de la educación y para las familias. En este libro se proporcionan claves para la optimización del desarrollo y los avances que se han producido en los últimos años en el campo de las dificultades del desarrollo de los primeros años, y de las que surgen en los aprendizajes específicos después. Se trata de avances científicos y tecnológicos en las aplicaciones profesionales y en las políticas educativas y de respuesta a estas dificultades, además de los avances sociales. Es en este contexto en el que se sitúa la presente obra, con un foco predominante en la prevención y en la actuación. En la primera parte se abordan las dificultades del desarrollo desde los enfoques integrales y las medidas educativas para afrontarlas, pasando por la ilustración de programas integrales de estas características como el TEACCH, para centrarse en las dificultades del desarrollo del lenguaje, la intervención con los padres en el hogar para el fomento de la comunicación y del lenguaje, las dificultades por

problemas atencionales, de hiperactividad e impulsividad, o las dificultades en personas con déficits auditivos. En la segunda parte se analizan las dificultades del aprendizaje desde la conceptualización con un enfoque preventivo, las de lectura, las de comprensión lectora, las iniciales de escritura, las del cálculo y las matemáticas y las relacionadas con la convivencia y relaciones interpersonales, incluyendo el papel de la familia en este proceso optimizador del desarrollo y del aprendizaje de los alumnos.

Educación Plástica ,

El desafío de la equidad educativa Juan José Llach, 2006 Es la educación la gran esperanza para hacer de la Argentina una nación con mejores personas, más adaptada a la sociedad del conocimiento, integrada al mundo con exportaciones de mayor valor agregado y, sobre todo, más equitativa? Por ahora esta es apenas la ilusión tranquilizadora con la que cierran los simposios, los debates políticos o las sobremesas de fin de semana. Ello ocurre porque, justo al revés de lo que debería ser, las escuelas a las que asisten los chicos más pobres son, en promedio, las peores. El desafío de la equidad educativa presenta un diagnóstico exhaustivo de esta realidad y formula propuestas concretas para lograr una mayor equidad educativa empezando por los más chicos y por los más pobres, centradas en el lema escuelas ricas para los pobres.

Los sistemas de escritura en el desarrollo del niño Emilia Ferreiro, Ana Teberosky, 1991 El objetivo de este libro es mostrar que existe una forma nueva de considerar el problema de la alfabetización. Demuestra que el aprendizaje de la lectura, entendido como el cuestionamiento acerca de la naturaleza, función y valor de este objeto cultural que es la escritura, comienza mucho antes de lo que la escuela imagina, y procede por vías insospechadas. Que además de los métodos, de los manuales, de los recursos didácticos, existe un sujeto que trata de adquirir conocimiento, que se plantea problemas y trata de resolverlos siguiendo su propia metodología.

Experiencias artísticas con instalaciones Mariana Mucci, Paulina Lapolla, María de los Ángeles Arce, 2020-04-01 El punto de partida de esta obra es el niño como protagonista de su aprendizaje y como sujeto que posee múltiples potencialidades. Muestra una perspectiva diferente desde donde abordar las prácticas docentes vinculadas con el arte, tomando la instalación como eje transversal a partir del cual se logran articular diferentes disciplinas. La instalación aparece como contexto de simbolización y juego en la escuela infantil, en tanto se pone énfasis al valor de la experiencia artística, entendiéndola como fuente de encuentro, participación, inclusión, juego y celebración. Se considera al espacio como un educador más, en tanto favorece que los niños puedan explorar, participar, compartir con otros, hacer y deshacer, descubrir y adquirir nuevas habilidades.
