What Teachers Need to Know Matthew Bruce Etherington, 2017-03-31 Every generation has sought to make teaching and learning more inclusive and equitable, but pesky questions always remain, such as, how can teaching and learning be conducted in ways that satisfies and respects everyone? What are the parameters of an inclusive pedagogy? Who defines its principles? How should these principles be taught and by whom? And by what authority shall they be grounded? These types of thorny questions occupy the essence of educators and the authors of this book. This book is about teachers, educators, and topics related to inclusion. Teachers and educators have a lot to know, therefore the topics are broad and relevant to the times. What should teachers know about special needs, religion and spirituality, Aboriginality, the environment, tolerance, and school choice? Although teachers have knowledge of their subject matter, knowledge alone is not sufficient. They must know and understand how people learn. A teacher must also care deeply about who they teach. And this teacher knowledge grows and changes over time as teachers become more experienced, informed, skilled, and wiser. At the same time no teacher preparation will be sufficient because there will always be discussions that were never had and knowledge that was never shared. Time has its costs and there is only so much a formal education can prepare someone. This book helps to satisfy a cavity in learning for teachers and educators in general.

A Short Guide to the Pronunciation of New Testament Greek Benjamin Kantor, 2023-07-13 What did the apostles' Greek sound like? How should New Testament Greek be pronounced in our classrooms? Often students are taught Erasmian pronunciation, which does not even reproduce Erasmus's own pronunciation faithfully, let alone that of the New Testament authors. But if we want to process the language of the New Testament the same way its original authors and readers did, we should use their pronunciation. In his new book, Benjamin Kantor breaks a path toward an authentic pronunciation of Koine

Greek at the time of the New Testament, seeking to improve students' reading proficiency. A Short Guide to the Pronunciation of New Testament Greek distills Kantor's new monograph, *The Pronunciation of New Testament Greek*, with an eye toward practical instruction. The first comprehensive phonological and orthographic study of Judeo-Palestinian Koine Greek, *The Pronunciation of New Testament Greek* surveys thousands of inscriptions and papyri to determine historical pronunciation. A Short Guide gives students an overview of the basics of phonology before explaining the pronunciation of each Greek letter and phoneme individually. Perfect for classroom use, this guide explains Kantor's cutting-edge research accessibly and includes sample texts for reading practice.

Sounds from the Other Side Elliott H. Powell, 2020-11-03 A sixty-year history of Afro-South Asian musical collaborations From Beyoncé's South Asian music-inspired Super Bowl Halftime performance, to jazz artists like John and Alice Coltrane's use of Indian song structures and spirituality in their work, to Jay-Z and Missy Elliott's high-profile collaborations with diasporic South Asian artists such as the Panjabi MC and MIA, African American musicians have frequently engaged South Asian cultural productions in the development of Black music culture. *Sounds from the Other Side* traces such engagements through an interdisciplinary analysis of the political implications of African American musicians' South Asian influence since the 1960s. Elliott H. Powell asks, what happens when we consider Black musicians' South Asian sonic explorations as distinct from those of their white counterparts? He looks to Black musical genres of jazz, funk, and hip hop and examines the work of Miles Davis, John Coltrane, Rick James, OutKast, Timbaland, Beyoncé, and others, showing how Afro-South Asian music in the United States is a dynamic, complex, and contradictory cultural site where comparative racialization, transformative gender and queer politics, and coalition politics intertwine. Powell situates this cultural history within larger global and domestic sociohistorical junctures that link African American and South Asian diasporic communities in the United States. The long historical arc of Afro-South Asian music in *Sounds from the Other Side* interprets such music-making activities as highly political endeavors, offering an essential conversation about cross-cultural musical exchanges between racially marginalized musicians.

Snafu Edu Jessamyn Neuhaus,2025-07-15 Looking beyond "classroom management" and "conflict resolution," *Snafu Edu* carefully and clearly grounds its lessons in the real context of education, where institutional structures, systemic injustices, individual and collective history, and the complexity of human interactions mean there will always be snafus. Like a preparedness kit for natural disasters, the book gives teachers an educational "go-bag" of insights, strategies, and practices to have at the ready when things go sideways.

Plurilingual Pedagogies for Multilingual Writing Classrooms Kay M. Losey, Gail Shuck, 2021-12-29 A much-needed resource on plurilingual pedagogies, this book counters the common dominant English-only approach found in writing and composition classrooms by identifying practices and pedagogies that support multilingual students. Providing a window into a range of contexts and classrooms where students' full identities are honored, contributors offer research-grounded strategies and pedagogies that allow students to harness all of their language resources in order to build on their strengths and develop their writing abilities. The specific examples in this book, drawn from high school and college writing contexts, demonstrate the value of embracing linguistic diversity in writing programs. Presenting a wide range of models and strategies from top scholars that center students' linguistic repertoires as strengths, the volume addresses classroom teaching, assessment, curriculum, school administration, and more, all from an asset-based orientation. This book is ideal for courses in composition and second-language writing pedagogy as well as for students, scholars, and educators in second language writing, language and literacy education, and composition studies.
