

Mad Cowboy Howard Lyman

Lisa Kumar

Mad Cowboy Howard F. Lyman, Glen Merzer, 2001-07-10 The former cattle rancher whose appearance on The Oprah Winfrey Show sparked a lawsuit against both him and Winfrey exposes the hazardous practices of the cattle and dairy industries.--BOOK COVER

No More Bull! Howard F. Lyman, Glen Merzer, Joanna Samorow-Merzer, 2005-09-20 In 1996, when Howard Lyman warned America on The Oprah Winfrey Show that Mad Cow Disease was coming to America, offended cattlemen sued him and Oprah both. Not only were Lyman and Oprah vindicated in court, but events have proved many of Lyman's predictions absolutely right. Mad Cow Disease has come to America, and Lyman argues persuasively in No More Bull! that the problem will only grow more deadly until our government deals with it seriously. In Mad Cowboy, Lyman, a fourth-generation Montana rancher turned vegetarian then vegan, told the story of his personal transformation after a spinal tumor, which he believes was caused by agricultural chemicals, nearly left him paralyzed. In No More Bull!, Lyman uses his humor, compassion, firsthand experience in agriculture, and command of the facts of health to argue that we might all profit by transforming our diets. He makes a powerful case that Alzheimer's is yet another disease linked to eating meat. And he explains that the steak at the heart of your dinner plate not only may destroy your own heart but actually offers no more nutritional value than a doughnut! If you've been confused by the competing claims of the Atkins Diet, the South Beach Diet, and other fad diets, No More Bull! is the book that will set you straight. Its pure, unvarnished truth is told with down-home common sense. Lyman's got a message for meat eaters, vegetarians, and vegans -- and the message of No More Bull! is that we can all do better for ourselves and the planet.

Building an Ark Ethan Smith, 2007-11-01 Building an Ark: 101 Solutions to Animal Suffering is a first-of-its-kind, inspiring look at practical solutions to the impact humans have on animals and the natural world. Factory farms, habitat destruction, animal product testing, the abuse and neglect of companion animals, the illegal trade in endangered species, unsustainable fishing and climate change all create unnecessary suffering for animals. For several decades there has been a global movement building; an ever-increasing consciousness that will soon affect animal welfare and the future of life on Earth - if it's given time to do so. Building an Ark is the story of this movement. Extensively researched and drawing on practical examples from around the world, it provides a voice for both the animals and the humans who have dedicated their

lives to building a sustainable future for all species. The Ark is ready for all to board. Individuals, action groups, schools, businesses, governments, farmers, fishers, developing nations — there's a role for everyone on this journey. Building an Ark offers a host of solutions that — if adopted — will ensure that animals will suffer less today, and that humans and animals will share a more sustainable planet tomorrow.

Glimpsing Heaven Martin A. Lopez, 2021-08-03 The author, Martin A. Lopez, (self), is a late-in-life father who wondrously transformed when his children arrived in his life. He changed from a compassionless pawn of the polluters, oblivious consumer, part of the throw-away culture, suffering from severe nature-disconnect, and blind to the environmental devastation happening to humanity. Through his children, he became filled with a mountainous emotional connection with them, and ultimately, to humanity and nature. At the same time, he became inspired to take action to fight for nature. This journey of metamorphosis includes poems, personal essays about nature and an analysis about solutions. He candidly identifies the villains and 'saints' destroying our children's future and gives us a moral and a scientific perspective. He provides a poetic approach for our teachers to educate about the environmental disaster. He further provides an understandable approach to saving our planet. *Glimpsing Heaven* is an inspired father's unique portrait of parenthood, eye-opening love, and the world's environmental challenges.

You Don't Need Meat Peter Cox, 2025-09-23 The up-to-the minute latest news about meat-eating that our government and

the meat lobby does not want us to know: --How likely is it that mad cow disease could happen here? --What are the latest additives being added to our livestock feed? --Why are our children being bombarded with hours of meat advertisements a day? --How can your family gradually cut down your meat consumption? --What do some researchers think that some Alzheimer's patients really have something else? *You Don't Need Meat* was first published in the United Kingdom, where it quickly became a runaway Number 1 bestseller. Written with a charming mixture of science, humor, and ethics, this completely revised and updated edition will give you all the facts you need about the meat you eat--both from a humane perspective and as a basis for getting and maintaining a healthy body.

The Conscious Planet Neil M. Pine, 2013-07-16 The writing of this book was both a spiritual and intellectual journey. It took more than ten years to complete while having to be revised and updated constantly. This is no-holds-barred literature where the author says what he means and means what he says! He does not mintz his words. *The Conscious Planet* thinks outside the box and breaks all the rules of traditional thinking. Sometimes this information can be brutally honest or painfully real. This author is not trying to win any popularity contest. He tells it like it really is and doesnt care what anyone thinks! *The Conscious Planet* is what the government and big corporations who control it dont want you to know! It is the truth about the truth and nothing but the truth, so help me ! In the modern world, people only know what multinational corporations want them to know, not what they should know! And it is this tainted knowledge which is creating a society of pathetic drones, who like poor doomed sheep, are too busy just trying to survive to see that the wool is being pulled over their eyes while being led to slaughter! Because these corporate imperatives are being paid for at the expense of the future of mankind! Before you patronize any product, be conscious about what its doing to your health, to the earth, and how it will affect future generations. Skeptics have warned the author that this book will receive nominal success, that it represents a small niche market, and not everyone would be interested in such literature. And in retort to this assertion, it should be acknowledged that yes, it is sadly true that not everyone would be interested in this book because the information herein may not pertain directly to their life or general well being. So in understanding, who would be interested in this book, lets narrow it down by eliminating the types of individual who would not directly benefit: x 1. People who are immortal: Yes, these people might not care about this book: heck, if you were immortal, you might eat Twinkies and cheese-burgers all day long. 2. People who have another planet to live on: This is true: why would they care if the world goes to hell in a hand basket? See Ya! Well, lucky them: however, for the other seven billion people who inhabit the planet earth who are not immortal, and who dont have another planet to live on then this book is absolutely the most important book they may ever read! Become a part of *The Conscious Planet*
