The Vision Zero Handbook Karin Edvardsson Björnberg, Sven Ove Hansson, Matts-Åke Belin, Claes Tingvall, 2022-11-30 This open access handbook provides a comprehensive treatment of Vision Zero, an innovative policy on public road safety developed in Sweden. Covering all the major topics of the subject, the book starts out with a thorough examination of the philosophy, ideas and principles behind Vision Zero. It looks at conditions for the effectiveness of the policy, principles of safety and responsibility as well as critique on the policy. Next, the handbook focuses on how the Vision Zero ideas have been received and implemented in various legislations and countries worldwide. It takes into account the way Vision Zero is looked at in the context of international organizations such as the WHO, the UN, and the OECD. This allows for a comparison of systems, models and effects. The third part of the handbook discusses the management and leadership aspects, including ISO standards, equity issues, other goals for traffic and transportation, and opportunities for the car industry. Part four delves into tools, technologies and organizational measures that contribute to the implementation of Vision Zero in road traffic. Examples of specific elements discussed are urban and rural road designs, human factor designs, and avoiding drunk and distracted driving. The final part of the handbook offers perspectives on the transfer of Vision Zero policy to other areas, ranging from air traffic to suicide prevention and nuclear energy. Vision Zero is a public road safety policy including both a long-term goal that no one shall be killed or seriously injured as a consequence of accidents in road traffic and a safety principle stating that the design and function of the road transport system shall be adapted to meet the requirements that follow from that goal. It is a new road safety paradigm which has resulted in new types of responsibilities among stakeholders, technological innovations, and new strategies and organizational measures to achieve a safe system. The road safety work based on Vision Zero has shown promising results, and although Sweden has not yet reached a safe system, the number of fatalities and severe injuries has decreased substantially. This is an open access book.

**ESL (ELL) Literacy Instruction** Lee Gunderson, Reginald Arthur D'Silva, Dennis Murphy Odo, 2019-06-25 Now in its fourth edition, ESL (ELL) Literacy Instruction combines a comprehensive scope with practical, research-based tools and

applications for reading instruction. Designed for use by pre-service and in-service teachers, this guidebook provides the context and expertise to plan and implement reading programs that match the needs and abilities of students at all ages and levels of proficiency. The book explains different models of literacy instruction from systematic phonics to whole language instruction, discusses controversies in the field, and includes specific teaching methods within each model. The fourth edition highlights recent developments in education policy, new models of instruction, and devotes greater attention to issues surrounding assessment. An expanded companion website integrates with the text to offer additional tools and examples, and readers are encouraged to develop their own teaching strategies within their own instructional models. Providing a thorough overview of the history and major issues of ESL (ELL) literacy instruction, this book will be of great interest to pre-service and in-service teachers at all levels, from kindergarten to adult learners.

**The Palgrave Handbook of Criminal and Terrorism Financing Law** Colin King,Clive Walker,Jimmy Gurulé,2018-05-04 The Palgrave Handbook of Criminal and Terrorism Financing Law focuses on how criminal and terrorist assets pose significant and unrelenting threats to the integrity, security, and stability of contemporary societies. In response to the funds generated by or for organised crime and transnational terrorism, strategies have been elaborated at national, regional, and international levels for laws, organisations and procedures, and economic systems. Reflecting on these strands, this handbook brings together leading experts from different jurisdictions across Europe, America, Asia, and Africa and from

different disciplines, including law, criminology, political science, international studies, and business. The authors examine the institutional and legal responses, set within the context of both policy and practice, with a view to critiquing these actions on the grounds of effective delivery and compliance with legality and rights. In addition, the book draws upon the experiences of the many senior practitioners and policy-makers who participated in the research project which was funded by a major Arts and Humanities Research Council grant. This comprehensive collection is a must-read for academics and practitioners alike with an interest in money laundering, terrorism financing, security, and international relations.
