

Paris And The Vikings

Daniel Coit Gilman, Harry Thurston Peck, Frank Moore Colby

The Viking Siege of Paris Si Sheppard, 2022-01-20 The Vikings' siege of Paris in 885–86 was a turning point in the history of both Paris and France. In 885, a year after Charles the Fat was crowned King of the Franks, Danish Vikings sailed up the Seine demanding tribute. The Franks' refusal prompted the Vikings to lay siege to Paris, which was initially defended by only 200 men under Odo, Count of Paris, and seemingly in a poor state to defend against the Viking warriors in their fleet of hundreds of longships. Paris was centred around the medieval Île de la Cité, the natural island now in the heart of the city, fortified with bridges and towers. The Vikings attempted to break the Parisian defenders, but the city itself still held out, and after a year Charles' army arrived to lift the siege. But Charles then allowed the Vikings to sail upstream against the revolting Burgundians. Outraged at this betrayal, the Parisians refused to let the Vikings return home via the Seine, forcing them to portage their boats overland to the Marne in order to reach the North Sea. When Charles died in 888, the people of the Île de France elected Odo as their king. The resistance of Paris therefore marked the end of the Carolingian line and the birth of a new kingdom. This fully illustrated volume, accompanied with maps and strategic diagrams tells the full story of the Vikings' expedition to conquer medieval Paris, highlighting a key moment in the history of France and its foundation as a nation.

Paris and the River Seine Hunt Janin, Nicole Sheehan, 2024-04-22 The intertwined histories of Paris and of the River Seine are interesting but complicated. It is the Seine, however with all its ports, bridges, boats, commerce, monuments, and vistas, that has always been the keystone in the arch of Paris life, both in the past and now in the present. The great French medievalist Jean Favier (1932-2014) summed up its story in just six words: Paris is born of the Seine. Paris may be known today as The City of Light but, like most big cities, it also has a sordid side. This book introduces to the reader not only the rich and the famous of Paris, but also some of the unknown people of the Seine. These latter include traders, police officers, millers, fishermen, charlatans, monkey handlers, jugglers, water carriers, and the homeless men searching through the cold mud of the Seine trying to find a small gold ornament of some kind lost by a rich traveler passing by in a boat.

The Glory of Byzantium Metropolitan Museum of Art (New York, N.Y.), 1997 Serves as both visual and textual record of the exhibition of the same name, surveying the art of the Middle Byzantine period from the restoration of the use of icons by the Orthodox Church in 843 to the occupation of Constantinople by the Crusader forces from the West from 1204 to 1261.

Conceived as a sequel to the 1976 exhibition Age of Spirituality, which focused on the first centuries of Byzantium. Preceding the catalogue, 17 essays treat the historical context, religious sphere, and secular courtly realm of the empire, and the interactions between Byzantium and other medieval cultures. Abundantly illustrated. Annotation copyrighted by Book News, Inc., Portland, OR

Norway and the Norwegians Charles Francis Keary,1892

Viking Attacks on Paris Abbo (Monk of St. Germain),2007 In 885 AD, the Vikings laid siege to Paris, to which a young monk named Abbo, of the abbey of Saint-Germain-des-Pres, stood as witness. Later, he came to make a record of what he saw, heard and believed in a verse chronicle, the *Bella parisiacae urbis*. His often stirring account speaks of the relentless and ingenious attacks of the Norsemen, the selfless heroism of the defending Frankish warriors, and the misery and terror of the besieged Parisians. But his canvas is far larger than this single occurrence, for he hints at greater things yet to come, such as the final disintegration of Carolingian rule, the eventual establishment of the Capetian line of monarchs, and the creation of a French Danelaw, namely, Normandy. Ultimately, however, Abbo is not concerned with an impartial narration of events, but rather with salvation through history - of the individual and of the nation of the Franks. The macaronic style of his chronicle very much appealed to the sensibilities of the time, thus ensuring that Abbo's work would endure.

The Fortifications of Paris Jean-Denis Lepage,2006 This history begins with the period from 300 BC-987 AD. Part 2 looks at the Medieval period (987-1512), the establishment of the Louvre and the Bastille, the Hundred Years' War, and the development of gunpowder and artillery. Bastioned fortifications (1512-1874) are the focus of part 3. Modern fortifications (1874-1944) are detailed in part 4--Provided by publisher.

Syllabus of Lectures Henry Morse Stephens,1918

The New International Encyclopædia Daniel Coit Gilman,Harry Thurston Peck,Frank Moore Colby,1903

Kingship and Politics in the Late Ninth Century Simon MacLean,2003-09-25 This is a major study of the collapse of the pan-European Carolingian empire and the reign of its last ruler, Charles III 'the Fat' (876-888). The later decades of the empire are conventionally seen as a dismal period of decline and fall, scarred by internal feuding, unfettered aristocratic ambition and Viking onslaught. This book offers an alternative interpretation, arguing that previous generations of historians misunderstood the nature and causes of the end of the empire, and neglected many of the relatively numerous sources for

this period. Topics covered include the significance of aristocratic power; political structures; the possibilities and limits of kingship; developments in royal ideology; the struggle with the Vikings and the nature of regional political identities. In proposing these explanations for the empire's disintegration, the book has broader implications for our understanding of this formative period of European history more generally.
