Disjointed Perspectives on Motherhood Catalina Florina Florescu, 2013-10-29 *Disjointed Perspectives on Motherhood* presents the accounts of mothers who have suffered a major physical and/or psychically traumatic accident, and, as a consequence, their minds and bodies have been drastically changed. They live under the pressure of having discovered the alter ego of their traumatized personality, and now, distressed, cannot embrace their unconditional maternal love. Instead, they enter into a phase where they face the challenge of revealing who they are as persons before accepting or motivating themselves as mothers. The mothers presented in this volume also seem to have another thing in common: their transnational, fluid, female identity as they enter into an imaginary dialog that transcends geographical and temporal perspectives on womanhood and motherhood. This collection introduces and analyzes recurrent words that define a woman's body and mind today: fear, competition, motherhood and career rights, selfishness, ambition, destruction, distance, and identity. By using unprecedented comparative critical approaches such as phenomenological, medical, feminist, and re-enchantinent theories, and by analyzing works from literature, cinema, and visual arts, this collection attempts to reestablish and redefine a canonical concept with the intention to revitalize an otherwise taken-for-granted image and role.

Don't Call Us Girls Barbara Leonora Tischler, 2024-11-30 In a collective voice calling for peace tracing back to pre-World War II, *Don't Call Us Girls* follows the protests of women and their allies from the White House to the Arc de Triomphe, heralding their impact on today's world. *Don't Call Us Girls* examines the importance of women's participation in the Civil Rights Movement in the United States, and the international anti-war movement. This collective voice for peace, and an end to nuclear proliferation, reached back to before the Second World War and then firmly embedded itself during the war years when women assumed such important roles in the workplace that Franklin D. Roosevelt called them the 'Arsenal of Democracy'. When the men returned from war, women were encouraged by forces as powerful as government agencies and eminent psychiatrists to return to their 'place' at home. And return home they did, only to realize that they could use the skills they practiced as housewives to begin organizing themselves into groups that would start a wave of protest action that swept through the late 1950s, gathering up the Civil Rights Movement as it hurtled ever forward through the next two decades. In the 1960s and 1970s, no institution or convention was sacred—many aspects of women's lives were fair game for criticism, protest, and change. In this no-holds-barred era, women debated everything from international nuclear policies,

pay equity and child care for women, to reproductive rights and sexual politics. They protested in the streets, outside the White House, in Trafalgar Square, at the Arc de Triomphe, on university campuses, and just about anywhere else they would be heard. They were tired of the role society had cast for them and they would not rest until they saw the substantial change that seemed promising with the emergence of Second Wave Feminism in the 1970s. While we still live in a patriarchal society, we have these women to thank for many of the freedoms we now enjoy. If they have taught us anything, it is never to stop pushing back against the patriarchy and to rest only when we are truly equal. The final chapter of *Don't Call Us Girls* reminds us that there is still a lot of work to do.

Horror Films of 2000-2009 John Kenneth Muir, 2022-10-26 Horror films have always reflected their audiences' fears and anxieties. In the United States, the 2000s were a decade full of change in response to the 9/11 terrorist attacks, the contested presidential election of 2000, and the wars in Iraq and Afghanistan. These social and political changes, as well as the influences of Japanese horror and New French extremism, had a profound effect on American horror filmmaking during the 2000s. This filmography covers more than 300 horror films released in America from 2000 through 2009, including such popular forms as found footage, torture porn, and remakes. Each entry covers a single film and includes credits, a synopsis, and a lengthy critical commentary. The appendices include common horror conventions, a performer hall of fame, and memorable ad lines.

Rockin' the Classics and Classicizin' the Rock: Janell R. Duxbury,2001-02-05 Rock music of all varieties has been influenced by classical music and vice versa, both in the form of direct quotes and in the form of borrowings of style, composition, and instrumentation. The average listener may be unaware of the many links between rock music and the classics. One might remember a few examples, such as Walter Murphy's chart-topping A Fifth of Beethoven or Eric Carmen's All by Myself, but pass them off as interesting anomalies. However, the influence of the classics on rock music is pervasive and grows from a long line of precedents. This second supplement to Janell R. Duxbury's original 1985 discography, *Rockin' the Classics and Classicizin' the Rock*, brings the earlier work and first supplement up-to-date with hundreds of new entries documenting recently released or newly discovered examples of the interconnection between these musical genres. Duxbury details nearly 700 new examples of recorded rock instrumentals and songs that borrow musical themes from the classics. Variations range from contemporary renditions of complete classical works to brief classical quotes or phrases subtly incorporated into rock compositions. Duxbury also gives additional examples of recorded orchestral versions of songs originally composed and/or written by rock artists. In these examples, the musical style varies from strict classical interpretations to pop-style orchestral renditions. The second supplement then expands Duxbury's original compilation of sound recordings and live performances of rock groups performing with established orchestras and choruses, selected samples of recorded rock music that simulate baroque or classical sound/structure, examples of the manifest influence of rock on classical music, and instances of rock artists and classical artists switching roles. Lastly, this discography updates the 1985 version and the first supplement with new information, expanded details, and minor corrections to the earlier works. An extended list of selected non-rock background examples is included in several new appendixes. The Preface is updated. A general index includes the names of classical composers, rock artists and groups, orchestras, choruses, orchestra conductors, sound recording producers, and song or instrumental titles. With its incomparable scope and content, this supplement, together with Duxbury's previous discography, and its first supplement will be appreciated by students, researchers, record collectors, trivia buffs, music industry employees, and fans of rock music and the classics.

Mathematics and Culture IV Michele Emmer,2007 This book concerns comics and what was, in 2003, a developing tradition of Disney-style comic-strips. It also deals with the Dutch graphic artist Maurits Cornelis Escher. Several of his images can be seen in animated form. It also talks of theatre and cinema too. For example, Luca Viganò's curious theatrical spectacle in Genoa about Evariste Galois. It talks about war and peace, ageless themes. All this and a tribute to the mathematician Ennio De Giorgi.
