JR Anderson

**Encyclopedic Dictionary of Roman Law** Adolf Berger, David R. Clark, 1953 This Dictionary: explains technical Roman legal terms, translates & elucidate those Latin words which have a specific connotation when used in a juristic context or in connection with a legal institution or question, & provides a brief picture of Roman legal institutions & sources as a sort of an introduction to them. The objectives of the work, not the juristic character of available Latin writings, therefore, determined the inclusion or exclusion of any single word or phrase. This dict. is not intended to be a complete Latin-English dict. for all words which occur in the writings of the Roman jurists or in the various codifications of Roman law. The reader must consult a general Latin-English lexicon for ordinary words that have no specific meaning in law or juristic language. Reprinted 1980.
