What the Ear Hears (And Doesn't) Richard Mainwaring, 2022-12-27 You'll never listen to the world the same way again. A truly ear-opening experience! —Chris Ferrie, award-winning physicist and author of *Where Did the Universe Come From? And Other Cosmic Questions* For readers of Neil deGrasse Tyson and Bill O'Neill, *What the Ear Hears (and Doesn't)* is a fascinating science book for adults that explores the physics principle of frequency and the (sometimes weird) role it plays in our everyday lives. What do the world's loneliest whale, a black hole, and twenty-three people doing Tae Bo all have in common? In 2011, a skyscraper in South Korea began to shake uncontrollably without warning and was immediately evacuated. Was it an earthquake? An attack? No one seemed quite sure. The actual cause emerged later and is utterly fascinating: Twenty-three middle-aged folks were having a Tae Bo fitness class in the office gym on the twelfth floor. Their beats had inadvertently matched the building's natural frequency, and this coincidence—harnessing a basic principle of physics—caused the building to shake at an alarming rate for ten minutes. Frequency is all around us, but little understood. Musician, composer, TV presenter, and educator Richard Mainwaring uses the concept of the Infinite Piano to reveal the extraordinary world of frequency in a multitude of arenas—from medicine to religion to the environment to the paranormal—through the universality of music and a range of memorable human (and animal) stories laced with dry humor.

Whether you're science curious, musically inclined, or just want to know what a Szechuan pepper has to do with physics, *What the Ear Hears (and Doesn't)* is an immensely enjoyable read filled with did you know? trivia you'll love to share with friends.

Urban Legends from Space Bob King, 2019-10-15 Fun, Outrageous Space Stories, Debunked! In this Internet age where science fiction masquerades as fact, even the most rational person might find themselves wondering: Could NASA have faked the moon landings? Are we sure the government isn't using chemtrails to experiment on people? And did NASA really spend millions on "space pens"? *Urban Legends from Space* cuts through the fog of myth to bring the truth behind these questions, and 48 other celestial legends, out into the open. In examining the shaky claims behind these many misconceptions and taking us step-by-step through the concrete evidence that contradicts them, expert Bob King debunks each myth and exposes the scientific truth at its core. Along the way, King offers us the tools we need to become more discerning observers of the world around us and more responsible sharers of information overall.

The Queen Chronology (2nd Edition) Patrick Lemieux, Adam Unger, 2018-04-11 REVISED & EXPANDED 2ND EDITION *The Queen Chronology* is a comprehensive account of the studio and live recording and release history of Freddie Mercury, Brian May, John Deacon and Roger Taylor, who joined forces in 1971 as the classic line-up of the rock band Queen. Years of extensive research have gone into the creation of the *Chronology*, which covers the very beginnings of band members' careers, their earliest songwriting efforts and recording sessions, through the recording and releasing of Queen's 15 original studio albums with their classic line-up, to the present-day solo careers of Brian May and Roger Taylor. All of this information is presented date by date in chronological order, with detailed descriptions of each song version, including those both released and known to be unreleased. Every Queen and solo album, single, non-album track, edit, remix and extended version is examined, as are known demos or outtakes, pre-Queen recordings and guest appearances.

The Emperor of Sound Timbaland, Veronica Chambers, 2015-11-17 The long-anticipated inside look at the extraordinary career of the man who brought *Sexy Back*, the legendary producer in the pantheon of music greats as influential and groundbreaking as Motown's Berry Gordy and a memoir of the creative process. Hailed by the *New Yorker* as "the eminence grise behind half of what is great in the Top Forty these days," world-renowned producer Timbaland has been a fixture on the pop charts, with more top-ten hits than Elvis or the Beatles. An artist whose fans are multi-racial and multi-generational, Timbaland works with the hottest artists, from Mariah Carey and Missy Elliott to Justin Timberlake, Nelly Furtado, Madonna, and his childhood friend, Pharrell Williams. Yet this celebrity is a uniquely private man who shuns parties, stays out of gossip columns, and rarely gives interviews. Deliberately choosing to tour by bus and conspicuously bling-free, he maintains a low-key lifestyle. If he's not at the recording studio, he is at home with his family. In *The Emperor of Sound*, Timbaland offers fans an unprecedented look into his life and work. Completely uncensored and totally honest, he reveals the magic behind the

music, sharing the various creative impulses that arise while he's producing, and the layering of sounds that have created dozens of number one hits. Cinematically written, full of revealing anecdotes and reflections from today's most popular music icons, *The Emperor of Sound* showcases this master's artistry and offers an extraordinary glimpse inside this great musical mind.

Queen Georg Purvis, 2007 Mixing and clashing an outrageously eclectic set of influences—the close harmonies of the Beatles, the guitar pyrotechnics of Jimi Hendrix, the heavy sound of Led Zeppelin, and the glamour of David Bowie—Queen found a winning formula by channeling this strange cocktail through its charismatic frontman, Freddie Mercury. More than a decade after Mercury's death, Queen's fan base continues to grow. This meticulous, session-by-session, album-by-album, tour-by-tour chronicle of the band is the book that Queen fans have been waiting for.

To Speak of this Land Duncan Brown, 2006 Questions of identity, belonging, and place are crucial issues in South Africa today. *To Speak of this Land* explores these issues in a way that is academically rigorous but refreshingly accessible. Duncan Brown's focus is South Africa - spanning Bushman storytelling, rock painting, and aboriginal land claims; African-Christian identity formations; Mazisi Kunene's Emperor Shaka the Great; Ronnie Govender's Cato Manor stories; the poetry of Douglas Livingstone; and the rap music of Prophets of da City - but he draws on comparative material from elsewhere in the world, as

well as stressing the 'global' aspects of 'local' identities. To Speak of this Land offers thought-provoking answers for a South African context to this internationally challenging question.
