Women in Stuart England and America Roger Thompson, 2013-05-07 Originally published in 1974, this study offers valuable perspectives on the status and roles of women in Stuart England and in the newly settled colonies of North America, particularly Massachusetts and Virginia. Incorporating both new research on the subject, and the findings of other scholars on demographic and social history, the author examines the effects of sex ratios, economic opportunities, Puritanism and frontier conditions on the emancipation of American women in comparison with their English counterparts. He discusses the effects of these major differences on women's roles in courtship, marriage and the family, educational, legal and civic opportunities. In the final chapter, he compares the moral climate of the two cultures in the latter part of the seventeenth century.

War and Democracy E. F. M. Durbin, John Bowlby, Ivor Thomas, D. P. T. Jay, R. B. Fraser, R. H. S. Crossman, George Catlin, 2019-07-08 Originally published in 1938, this book consists of a group of papers considering widely different subjects, but all bearing upon one social problem – the causation and prevention of war. The authors all occupy the same general political position, they are democratic socialists and active members of the Labour Party. The book falls into three rough divisions, although all the papers are self-contained. The first part of the book is psychological and attempts to summarise and analyse the non-historical evidence (ecological, psychological, and anthropological) about the causes of fighting. The second part is historical. It surveys the different causes of international war in the nineteenth century and then discusses the relation between nationalism and capitalism during the same period. The third part is political and first considers the relation of the use of force to the preservation of peace. Then analyses the choices of foreign policy for a pacific power confronted by the threat of aggressive military dictatorship. It concludes with a review and assessment of the various available policies for the prevention of war in general and under the specific contemporary conditions of the time.

Gender, Power and Restorative Justice Jodie Hodgson, 2022-01-26 This book ties restorative justice into the exercise of patriarchal power. It is focused on the individual narratives of 15 girls and young women who have participated in a victim-offender restorative justice (RJ) conference and the perspectives of youth justice practitioners. *Gender, Power and Restorative Justice* expands feminist engagement with RJ by focusing critical attention on the importance of the social construction of gender, the exercise of power, shame, stigma, muting and resistance to girls' experiences of RJ conferencing. Drawing upon recent developments to the sociology of stigma and feminist perspectives on shame, the book contends that RJ conferencing can produce harmful implications for girls and young women who participate. Ultimately it is argued that anti-carceral, social policy alternatives, underpinned by feminist praxis, should replace a youth justice jurisprudence for girls. This book will be of particular use and interest to those studying modules on criminology, youth justice, criminal justice and social work courses.

Girls Into Maths Can Go Leone Burton, 1986 The book was conceived as support to an in-service pack (PM645) entitled 'girls into maths' which has been jointly developed by the Inner London Education Authority and the Open University and is available from the Open University. The contributions were deliberately chosen from a wide range of sources, some by academics, some by practitioners, some written for a general readership. Together they present a current picture of the state of thinking about gender issues in mathematics education, without claiming to be an all-inclusive. It is hoped that every reader can find an entry point into these issues through one of the contributions and that this will encourage further exploration -- Introduction
