R Sandford

The House in Town. A Sequel to "Opportunities" House, Susan B. Warner, 1871

Parable of the Talents Octavia E. Butler, 1998 Parable of the Talents celebrates the classic Butlerian themes of alienation and transcendence, violence and spirituality, slavery and freedom, separation and community, to astonishing effect, in the shockingly familiar, broken world of 2032. Long awaited, Parable of the Talents is the continuation of the travails of Lauren Olamina, the heroine of 1994's Nebula-Prize finalist, bestselling Parable of the Sower. Parable of the Talents is told in the voice of Lauren Olamina's daughter&...from whom she has been separated for most of the girl's life&...with sections in the form of Lauren's journal. Against a background of a war-torn continent, and with a far-right religious crusader in the office of the U.S. presidency, this is a book about a society whose very fabric has been torn asunder, and where the basic physical and emotional needs of people seem almost impossible to meet.

The Cambridge Companion to American Science Fiction Gerry Canavan, Eric Carl Link, 2015-01-26 The Cambridge Companion to American Science Fiction explores the relationship between the ideas and themes of American science fiction and their roots in the American cultural experience. Science fiction in America has long served to reflect the country's hopes, desires, ambitions, and fears. The ideas and conventions associated with science fiction are pervasive throughout American film and television, comics and visual arts, games and gaming, and fandom, as well as across the culture writ large. Through essays that address not only the history of science fiction in America but also the influence and significance of American science fiction throughout media and fan culture, this companion serves as a key resource for scholars, teachers, students, and fans of science fiction.

Willow Brook. A sequel to "The little Camp on Eagle Hill." By the author of "The Wide, Wide World," etc. [Miss S. Warner.] , 1874

A Critical Introduction to the New Testament Carl R. Holladay, 2011-07-01 This book introduces the New Testament in two senses: it not only provides basic literary and historical information on each of the twenty-seven writings but also orients readers to the religious, theological, and ethical issues related to the message and meaning of Jesus Christ. The overall goal is to help interested readers of the New Testament become informed, responsible interpreters of these writings and thereby enrich their personal faith and understanding. By giving special emphasis to how the New Testament has helped shape the

church's identity and theological outlook throughout the centuries, as well as the role it has played within the broader cultures of both East and West, this introduction also seeks to assist readers in exercising creative, informed leadership within their own communities of faith and in bringing a deeper understanding of early Christianity to their conversations with the wider public. Along with separate chapters devoted to each New Testament writing, there are chapters explaining how this collection of texts emerged as uniquely authoritative witnesses to the church's faith; why they were recognized as canonical whereas other early Christian writings were not; how the four canonical Gospels are related to one another, including a discussion of the Synoptic Problem; how the Jesus tradition--his teachings, stories from his ministry, and the accounts of his suffering, death and resurrection--originated and developed into Gospels written in narrative form; and how the Gospels relate to Jesus Christ as he was and is. Also included is a chapter on the writings of Paul and how they emerged as a collection of authoritative texts for the church. This chapter includes a discussion of ancient letter-writing, special considerations for interpreting the Pauline writings, and Paul's decisive influence within the history of the church and western culture.

Everything Now Rosecrans Baldwin, 2025-09-23 A LOS ANGELES TIMES BESTSELLER. NAMED A BEST CALIFORNIA BOOKS OF 2021 BY THE NEW YORK TIMES A provocative, exhilaratingly new understanding of the United States' most confounding metropolis—not just a great city, but a full-blown modern city-state America is obsessed with Los Angeles. And America has been thinking about Los Angeles all wrong, for decades, on repeat. Los Angeles is not just the place where the American dream hits the Pacific. (It has its own dreams.) Not just the vanishing point of America's western drive. (It has its own compass.) Functionally, aesthetically, mythologically, even technologically, an independent territory, defined less by distinct borders than by an aura of autonomy and a sense of unfurling destiny—this is the city-state of Los Angeles. Deeply reported and researched, provocatively argued, and eloquently written, Rosecrans Baldwin's *Everything Now* approaches the metropolis from unexpected angles, nimbly interleaving his own voice with a chorus of others, from canonical L.A. literature to everyday citizens. Here, Octavia E. Butler and Joan Didion are in conversation with activists and astronauts, vampires and veterans. Baldwin records the stories of countless Angelenos, discovering people both upended and reborn: by disasters natural and economic, following gospels of wealth or self-help or personal destiny. The result is a story of a kaleidoscopic, vibrant nation unto itself—vastly more than its many, many parts. Baldwin's concept of the city-state allows us, finally, to grasp a place—Los Angeles—whose idiosyncrasies both magnify those of America, and are so fully its own. Here, space and time don't quite work the same as they do elsewhere, and contradictions are as stark as southern California's natural environment. Perhaps no better place exists to watch the United States's past, and its possible futures, play themselves out. Welcome to Los Angeles, the Great American City-State.

The Role of Nature in the Works of Octavia Butler Robin Rockensüß,2008-12 Examination Thesis from the year 2008 in the subject American Studies - Literature, grade: 1,3, University of Dortmund, 67 entries in the bibliography, language: English, abstract: The science fiction (SF) writer Octavia Estelle Butler (1947-2006) was a pioneer in many ways. She won several Hugo and Nebula awards and was critically acclaimed as the most successful and most gifted female African-American author in a genre that is still mostly dominated by white males. Butler had been publishing stories since the early 1970s, imaginatively addressing issues such as slavery, race and gender in a science fiction environment - including elements of time traveling as in *Kindred* (1979) and telepathy and extraterrestrials in the *Patternist* series (1976-1984), which is made up of five novels and was republished in 2007 as the compilation *Seed to Harvest*. The *Patternist* stories already contain references to biological alterations of bodies and somatic mutations. 1987 marks the publication of *Dawn*, the first volume of the *Xenogenesis* trilogy which was also republished after Butler's death in the compilation *Lilith's Brood*. The series advances the idea of biological engineering to modern genetics in the same year when a committee of the National Academy of Sciences stated that organisms altered or created by the combination of genes between species pose no hazards to the natural environment and are virtually risk free or have risk-to-benefit ratios well within acceptable bounds (Schmeck 1987). Within the next two years, *Dawn* was followed by the sequels *Adulthood Rites* (1988) and *Imago* (1989). The two novels continued the scenario of a post-apocalyptic civilization and a world controlled by peaceful, yet intrusive extraterrestrial hybrids. In the trilogy Butler considered the overall consequences for nature, humanity and civilization by extrapolating from actual scientific and social developments. This approach can also be detected in the near-future dystopia of the *Parable*

Parable of the Sower Octavia E. Butler,2023-03-28 From a celebrated, award-winning author, a modern classic about a young girl fighting for survival in a post-apocalyptic world, perfect for fans of N.K. Jemisin and Margaret Atwood. Fifteen-

year-old Lauren Olamina lives inside a gated community with her preacher father, family, and neighbors, sheltered from the surrounding social chaos and anarchy caused by climate change and economic crisis. In a society where any vulnerability is a risk, she suffers from hyperempathy—a debilitating sensitivity to others' emotions. Precocious and clear-eyed, Lauren must make her voice heard in order to protect her loved ones from the imminent disasters her small community stubbornly ignores. But what begins as a fight for survival soon leads to something much more: the birth of a new faith . . . and a startling vision of human destiny. Includes a foreword by LeVar Burton and an afterword by N. K. Jemisin Lauren's story continues in *The Parable of the Talents*. In the ongoing contest over which dystopian classic is most applicable to our time, Octavia Butler's 'Parable' books may be unmatched.—The New Yorker
