

Proyecto De Elaboracion De Jabones

M Woodhall

Química 3 Méndez Méndez Vidal, Yuridia, Alfaro Fuentes, Israel, López Sandoval, Horacio Clemente, 2014-08-01 Ciencias 3 Química (Méndez) Patria es una obra que parte de la idea de que el aprendizaje de las ciencias implica un modo de entender el mundo: es una oportunidad de plantearse preguntas y proponer respuestas basadas en saberes comprobables, que proporcionan elementos confiables para tomar decisiones respecto al bienestar propio, de la sociedad y del ambiente. Mediante el planteamiento de los contenidos con un tratamiento didáctico que apoye el logro de los aprendizajes esperados, esta obra tiene el propósito fundamental de ofrecer a los adolescentes una herramienta para reconocer la ciencia, específicamente la química, como una actividad humana en permanente investigación e innovación. Por ello se espera que la obra conduzca al alumnado a usar los conocimientos adquiridos para participar en el mejoramiento de su calidad de vida, a partir de la toma de decisiones orientada a la promoción de la salud y el cuidado del ambiente, la comprensión de fenómenos naturales y de los alcances de la ciencia y la tecnología. Las diversas actividades de Ciencias 3 Química están diseñadas para que los estudiantes integren y apliquen sus conocimientos, habilidades y actitudes en la solución de situaciones problemáticas de su vida cotidiana; asimismo, se incluyen actividades experimentales que pueden realizarse con materiales fáciles de conseguir, y están planeadas para proporcionar su creatividad, estimular su curiosidad, su capacidad de análisis y de reflexión; además de acercarlos a su entorno y al trabajo colaborativo.

La producción escrita: Teoría y práctica desde el tópico discursivo Pablo Enrique Arellano García,2024-07-24

Producir un texto escrito es una de las habilidades de comunicación con mayor complejidad ya que, implica no solo la correcta utilización del lenguaje sino también la capacidad de estructurar ideas de manera coherente y persuasiva. El proceso de escritura abarca múltiples etapas, desde la planificación y organización de las ideas hasta la revisión y edición del texto final. Cada una de estas etapas requiere una reflexión crítica sobre el contenido y un entendimiento profundo del mensaje que se desea transmitir. Al escribir el autor debe considerar el público al que se dirige; esto implica adaptar el estilo y el léxico para que el mensaje resuene de manera efectiva con la audiencia. Por ello, la escritura no se da en un vacío: se desarrolla desde un tópico, es decir, a partir de una idea central o el tema principal que se aborda en un fragmento determinado del texto. Es el elemento sobre el cual gira la información y que guía el desarrollo del contenido.
