Motherhood Memoirs: Mothers Creating/Writing Lives Justine Dymond,2013-07-01 The authors in this collection examine and critique motherhood memoir, alongside the texts of their own lives, while seeking to transform mothering practice— highlighting revolutionary praxis within books, or, when none is available, creating new visions for social change. Many essays interrogate the tensions of maternal narrative—the negotiation of the historical location of writer and readers, narrative and linguistic constraints, and the slippery ground of memory—as well as the borders constructed between the “objective” scholar and the reader who engages with and identifies with texts through her intellect and her emotional being.

Collective Courage Jessica Gordon Nembhard,2015-06-13 In *Collective Courage*, Jessica Gordon Nembhard chronicles African American cooperative business ownership and its place in the movements for Black civil rights and economic equality. Not since W. E. B. Du Bois’s 1907 *Economic Co-operation Among Negro Americans* has there been a full-length, nationwide study of African American cooperatives. *Collective Courage* extends that story into the twenty-first century. Many of the players are well known in the history of the African American experience: Du Bois, A. Philip Randolph and the Ladies’ Auxiliary to the Brotherhood of Sleeping Car Porters, Nannie Helen Burroughs, Fannie Lou Hamer, Ella Jo Baker, George Schuyler and the Young Negroes’ Co-operative League, the Nation of Islam, and the Black Panther Party. Adding the cooperative movement to Black history results in a retelling of the African American experience, with an increased understanding of African American collective economic agency and grassroots economic organizing. To tell the story, Gordon Nembhard uses a variety of newspapers, period magazines, and journals; co-ops’ articles of incorporation, minutes from annual meetings, newsletters, budgets, and income statements; and scholarly books, memoirs, and biographies. These sources reveal the achievements and challenges of Black co-ops, collective economic action, and social entrepreneurship. Gordon Nembhard finds that African Americans, as well as other people of color and low-income people, have benefitted

greatly from cooperative ownership and democratic economic participation throughout the nation's history.

Bounds of Blackness Christopher Tounsel, 2024-06-15 *Bounds of Blackness* explores the history of Black America's intellectual and cultural engagement with the modern state of Sudan. Ancient Sudan occupies a central place in the Black American imaginary as an exemplar of Black glory, pride, and civilization, while contemporary Sudan, often categorized as part of Arab Africa rather than Black Africa, is often sidelined and overlooked. In this pathbreaking book, Christopher Tounsel unpacks the vacillating approaches of Black Americans to the Sudanese state and its multiethnic populace through periods defined by colonialism, postcolonial civil wars, genocide in Darfur, and South Sudanese independence. By exploring the work of African American intellectuals, diplomats, organizations, and media outlets, Tounsel shows how this transnational relationship reflects the robust yet capricious terms of racial consciousness in the African Diaspora.

Children of Fire Thomas C. Holt, 2010-10-12 In this groundbreaking new book, renowned historian Holt tells the story of how generations of African Americans fashioned a culture and identity amid the turmoil of four centuries of American history.

Race, Gender, and Power in America Anita Hill, Emma Coleman Jordan, 1995 The shock waves from Anita Hill's testimony at the Senate confirmation hearings of Clarence Thomas continue to reverberate. *Race, Gender, and Power in America* is a powerful and deeply felt collection of essays that examines the context and consequences of that controversy. Edited by Hill and Emma Coleman Jordan, Professor of Law at Georgetown University Law Center, and including the first published essay on the episode written by Hill herself, these essays explore the volatile politics of race and gender, and the unique challenges faced by African American women. Among the distinguished contributors are Eleanor Holmes Norton, playwright and actress Anna Devereaux Smith, Chief Judge Emeritus A. Leon Higginbotham, Jr., of the United States Court of Appeals, and four members of Hill's legal team during the Thomas hearings: her lead counsel, Harvard's Charles J. Ogletree, Jr.; Judith Resnik of the University of Southern California Law Center; Susan Deller Ross, a sex discrimination expert at Georgetown Law Center; and volume co-editor Emma Jordan. Jordan's essay probes the cultural mindset of African Americans who accused Hill of airing dirty linen in public, as though by not remaining silent she had betrayed her race. In *She's no lady; she's a nigger*, Adele Logan Alexander scrutinizes the devastating, centuries-old stereotypes of African American women as mindless, untrustworthy, and sexually insatiable. Hill examines the institutions of patronage and marriage, demonstrating how, as a professional African American woman with no official Senate sponsor, she confounded the assumptions by which lawmakers are accustomed to assigning credibility and status. In going before the Committee, I came face to face with a history of exclusion from power, she writes. Charles R. Lawrence views the controversy as Act One in a three act morality play starring Clarence Thomas, William Kennedy Smith, and Mike Tyson, and Harvard's Orlando Patterson maintains that it is black men, even more than black women, who suffer the consequences of strained gender relations. Looking to the future, Robert L. Allen describes his encouraging work with the Oakland Men's Project, and offers a prescription for ending sexual harassment and the system of sexism that underpins it. Penetrating, bold, and ultimately empowering, *Race, Gender, and Power* is provocative reading for everyone concerned about the fault lines of race and gender threatening to rupture our society.
