We Shook Up the World Tracy Daugherty,2024-04-30 George Harrison met Muhammad Ali in 1964, when both men were on the cusp of worldwide fame. Ten years later, the two men simultaneously staged comebacks, demonstrating just how much they embodied the promises and perils of their era. In doing so, Tracy Daugherty suggests, they revealed the scope and the limits of political courage and commitment to faith in the modern world. *We Shook Up the World* is the story of these two larger-than-life figures at a momentous time. A unique blend of biography and cultural history, this book goes to the very heart of the zeitgeist that each man inhabited and reinvented in profound and enduring ways. In 1974, deep in the Pennsylvania woods, thirty-two-year-old Muhammad Ali was seeking renewal, training to regain his heavyweight boxing title in a fight with George Foreman, and exploring questions about his politics, his career, and his life. Meanwhile, George

Harrison was thirty-one years old. With the Beatles disbanded, his marriage ending, and the loss of his mother still fresh, he traveled to India to revitalize his faith, energy, and musical spirit, seeking renewal at the Hindu holy city of Varanasi. In contemplating how these two complex figures managed to carry the cultural rebelliousness and spiritual yearning of the 1960s into a new era of cataclysmic political, economic, and social change, *We Shook Up the World* offers an intimate perspective on two outsize figures in the nation's and the world's cultural history, and a new understanding of their unique contributions to the consciousness of their time and ours.

Syntax of Dutch Hans Broekhuis, Norbert Corver, 2025-10-01 *The Syntax of Dutch* aims at presenting a synthesis of the currently available syntactic knowledge of Dutch. It is primarily concerned with language description and not with linguistic theory, and provides support to all researchers interested in matters relating to the syntax of Dutch, including advanced students of language and linguistics. *Syntax of Dutch: Verbs and Verb Phrases* consists of three volumes. Volume 1 opens with a general introduction to verbs, including a review of various verb classifications and discussions on inflection, tense,

mood, modality and aspect. This is followed by a comprehensive discussion of complementation (argument structure and verb frame alternations). Volume 2 continues the discussion of complementation, but is more specifically focused on clausal complements: the reader will find detailed discussions of finite and infinitival argument clauses, complex verb constructions and verb clustering. Volume 3 concludes with a description of adverbial modification and the overall structure of clauses in relation to, e.g. word order (verb placement, wh-movement, extraposition phenomena, scrambling, etc.).
