Framing Globalization Patrizia Faccioli, Jacqueline A. Gibbons, 2009-03-26 The book presents a collection of readings to reflect and develop the varied and dynamic interfaces of globalization: the global and local. The purpose is to identify how global and local dimensions intersect with cultural construction and processes of identity. How do the images around us challenge us in everyday life? We are surrounded by a multitude of images in cultural contexts, with rich semiotic signs and symbols, manifest in posters, graffiti, advertising, the media, photographs, religious representation, sculpture, and myriad art forms. In the context of this assortment of representations, we explore visual sociological threads and constructs that emerge from issues evoked by modern ideas about globalization. This important contemporary theme is moved by the parameters of visual sociology, whereby photographic images in various contexts illustrate, reflect, and generate sociological concepts and theories. The collected writings point to a global stage, as we are guided through lands such as Australia, Britain, Canada, Egypt, France, Italy, and Lithuania, in the quest to understand globalization through prisms such as community, class, gender, ethnicity, and religious background. The book addresses the role of visual communication in an examination of these various theoretical facets, and explores ways in which individuals and institutions exchange information about themselves, their identities, their values, and their ideas of belongingness in the varied guises of culture.

Transnational Neofascism in France and Italy Andrea Mammone, 2015-09-23 This book describes the establishment, evolution, and international links of the extreme right in one of the main Western European areas. Andrea Mammone details the long journey in the development of right-wing extremism in France and Italy, emphasizing the transfer, exchange, and borrowing of ideals, personnel, and strategies and the similarities among neofascist movements, activists, and thinkers across national boundaries from 1945 to the present day - including the Cold War years, the election of the European Parliament in 1979, and the 2014 EU elections. Mammone analyzes the adaptation of neofascism in society and politics; the building of international associations and pan-national networks; and the right-leaning responses to the defeat of fascism, European integration, decolonization, the events of 1968, immigration, and the recent EU-led austerity politics. As a book implicitly on space, borders, and belonging, it shows how some nationalisms may embody a transnational dimension and, at times, even pan-European stances.

Progettare Paesaggio - Landscape as Infrastructure AA. VV., 2015-10-15T00:00:00+02:00 In questo lavoro “Progettare Paesaggio, Landscape as Infrastructure” si confrontano: da un lato le stimolanti proposte progettuali redatte dal gruppo di studenti della Harvard Graduate School of Design guidati dalla docente Paola Cannavò; dall’altro l’analisi del territorio portuense ed ostiense e delle possibili future trasformazioni del contesto paesaggistico determinate dai progetti infrastrutturali, in fase di realizzazione o di valutazione, con ipotesi di linee guida per la riqualificazione e la valorizzazione di questa area, intesa come complesso palinsesto storico e paesaggistico, al fine di rendere evidenti le modalità procedurali di quella reale tutela attiva e dinamica del paesaggio affidata al Ministero per i beni e le attività culturali e da sempre svolta. [ANTONIA P. RECCHIA - Direttore Generale, Direzione Generale per il paesaggio, le belle arti, l’architettura e l’arte contemporanea, MiBAC] The project “Progettare Paesaggio, Landscape as Architecture” combines the inspiring design proposals drafted by a group of students of the Harvard Graduate School of Design headed by the teacher Paola Cannavò with a study of the portuense and ostiense areas and how the landscape might change due to the construction of new infrastructure, either being completed or in the design stage. The study includes guidelines for the requalification and enhancement of the area considered as a complex historical landscape; it also highlights the past and present active and dynamic protection measures and procedures adopted by the Italian Ministry of Cultural Heritage and Activities. [ANTONIA P. RECCHIA - Director General, Directorate General for the landscape, fine arts, architecture and contemporary art, MiBAC] “Questa pubblicazione e la ricerca progettuale qui documentata, propongono una opportuna testimonianza delle sfide contemporanee della forma urbana, del processo ecologico e dello sviluppo economico affrontato dalla capitale italiana.” “Evidenziando gli impulsi complessi e contraddittori di tipo ecologico ed economico di un paesaggio portuale attivo, Cannavò propone un nuovo ruolo chiave per l’architettura del paesaggio come strumento urbanistico. Così facendo promuove una posizione italiana all’interno del dibattito contemporaneo sul Landscape Urbanism e l’Ecological Urbanism fornendo al contempo una prospettiva futura per l’urbanistica, anche nell’area di Fiumicino.” [CHARLES WALDHEIM - Direttore, Dipartimento di Architettura del Paesaggio, Harvard Graduate School of Design] “This publication, and the design research that it documents, offers timely evidence of the contemporary challenges of urban form, ecological process, and economic development faced by the Italian capital.” “Highlighting the complex and contradictory ecological and economic impulses of a working port landscape, Cannavò proposes a renewed relevance for landscape architecture as a medium of urbanism. In so doing, she stakes an Italian position in the contemporary discourses of landscape urbanism and ecological urbanism, while pointing to a way forward for urbanism, even in the fields of Fiumicino.” [CHARLES WALDHEIM - Chair, Department of Landscape Architecture, Harvard Graduate School of Design]
