How to Read Literature Like a Professor Revised Thomas C. Foster, 2014-02-25 Thoroughly revised and expanded for a new generation of readers, this classic guide to enjoying literature to its fullest—a lively, enlightening, and entertaining introduction to a diverse range of writing and literary devices that enrich these works, including symbols, themes, and contexts—teaches you how to make your everyday reading experience richer and more rewarding. While books can be enjoyed for their basic stories, there are often deeper literary meanings beneath the surface. *How to Read Literature Like a Professor* helps us to discover those hidden truths by looking at literature with the practiced analytical eye—and the literary codes—of a college professor. What does it mean when a protagonist is traveling along a dusty road? When he hands a drink to his companion? When he's drenched in a sudden rain shower? Thomas C. Foster provides answers to these questions as he explores every aspect of fiction, from major themes to literary models, narrative devices, and form. Offering a broad overview of literature—a world where a road leads to a quest, a shared meal may signify a communion, and rain, whether cleansing or destructive, is never just a shower—he shows us how to make our reading experience more intellectually satisfying and fun. The world, and curricula, have changed. This third edition has been thoroughly revised to reflect those changes, and features new chapters, a new preface and epilogue, as well as fresh teaching points Foster has developed over the past decade. Foster updates the books he discusses to include more diverse, inclusive, and modern works, such as Angie Thomas's *The Hate U Give*; Emily St. John Mandel's *Station Eleven*; Neil Gaiman's *Neverwhere*; Elizabeth Acevedo's *The Poet X*; Helen Oyeyemi's *Mr. Fox and Boy*; Snow, Bird; Sandra Cisneros's *The House on Mango Street*; Zora Neale Hurston's *Their Eyes Were Watching God*; Maggie O'Farrell's *Hamnet*; Madeline Miller's *Circe*; Pat Barker's *The Silence of the Girls*; and Tahereh Mafi's *A Very Large Expanse of Sea*.

The Encyclopedia of Vampires, Werewolves, and Other Monsters Rosemary Guiley, 2004 Monsters and shape-shifters have always held a special fascination in mythologies, legends, and folklore the world over. From ancient customs to famous cases of beasts and vampires and their reflections in popular culture, 600 entries provide definitions, explanations, and lists of suggested further reading.

The Formulas of Popular Fiction Anna Faktorovich, 2014-09-17 This book creates a taxonomy for the major bestselling fictional genres: romance (e.g., authors Heyer, Cartland, Woodiwiss and Roberts), religious and inspirational (Corelli and

Douglas), mystery and detective (Conan Doyle, Christie and Mankell), and science fiction, horror and fantasy (Wells, Tolkien, Orwell, Niven, King and Rowling). Chapters look at a genre from its roots to its most recent works. The structural patterns in the plot, characters and setting of these genres are then explained. The book also provides a critique of currently popular hyper-formulaic, hack, unliterary writings that have multiplied in recent decades. Special topics such as the publishing oligopoly and the resulting homogeneity among bestselling works and the steady movement from literary to unliterary fiction are also examined.

Blood Read Joan Gordon, Veronica Hollinger, 1997-10 Scholars and writers from the United States, Canada, England, and Japan examine how today's vampire has evolved from that of the last century, consider the vampire as a metaphor for consumption within the context of social concerns, and discuss the vampire figure in terms of contemporary literary theory.

Featuring the author's trademark high-interest reading selections--including multi-paragraph readings to prepare students for college-level texts--this developmental text motivates students to complete numerous exercises and tests, while simultaneously fostering the idea that reading is a stimulating and exciting activity in its own right.

Know that your favourite author writes spy stories, but also writes science fiction under another as yet unknown name? Now Read On will solve all these problems. It is a guide to popular modern fiction divided up into writing genres, such as historical novels, macabre stories and science fiction. Each author entry within these novel types gives a brief life history, outlines the writer's style and lists all the relevant published titles. In addition a Now Read... list indicates authors who write in a similar vein. Much had changed since the first edition. New writers have established themselves as genres writers, some have switched from one area of writing to another or have

even added a new interest to an old one. Around 450 titles have been added to authors listed in the first edition (particularly in 'Family Stories' and 'Police Work'), 60 new names have been selected, and one new genre 'Women Detectives' has been created. All this is backed up by an author index, and a list of characters that reappear in related stories and series. The winners of the relevant book prizes over the last 25 years are also included. This book will prove invaluable to readers, booksellers and library staff, for anyone who wants to expand their fiction reading interests or advise others on the next good read.
