**Jack Barranger**

*Gods of Eden* William Bramley,1993-03-01 They Came To Earth Millions Of Years Ago To Spread The Poison Of Hatred, War And Catastrophe... They Are With Us Still... Human history is a seemingly endless succession of bloody conflicts and devastating turmoil. Yet, inexplicably, in the light of astonishing intellectual and technological advancement, Man's progress has been halted in one crucial area: he still indulges the primitive beast within and makes war upon his neighbors. As a result of seven years of intense research, William Bramley has uncovered the sinister thread that links humanity's darkest events - from the wars of the ancient pharaohs to the assassination of JFK. In this remarkable, shocking and absolutely compelling work, Bramley presents disturbing evidence of an alien presence on Earth -- extraterrestrial visitors who have conspired to dominate Humankind through violence and chaos since the beginning of time...a conspiracy which continues to this very day.

*The Gods of Eden* William Bramley,1989

**Mysteries Explored** Jack Barranger,Paul Tice,2000 An overall investigation into human origins, religion, mythology, UFOs, and other unexplained phenomena. Begins by covering the most ancient mysteries about mankind and proceeds up to modern times, exploring the evidence, and ending with where we currently are from a religious and spiritual standpoint. A fascinating look at the development of mankind, with the possibility that we have experienced some form of outside intervention in remote times. In some ways, this intervention may still be with us today.

*They Would Be Gods* Anthony K. Forwood,2011

**In The Beginning** Alex Teplish,2018-04-06 Ancient Legends, myths, and religions from around the world have spoken of gods and angels, not always in the spiritual sense, but actual flesh and blood beings interacting with mankind. Many of these ancient cultures had vast knowledge of mathematics and astronomy, attributing their knowledge as being handed down from the gods. Who were these god-like beings, known to one of the oldest civilizations, the Sumerians, as the Anunnaki? This two-part graphic novel starts with an amazing discovery in the present day that takes us back hundreds of thousands of years. Follow the Anunnaki on their ancient astronaut journey From Nibiru to Earth and their interactions with humanity's genesis.

*The Ancient Alien Question, 10th Anniversary Edition* Philip Coppens,2021-03 Analyzing historical and archaeological evidence, Philip Coppens demonstrates that there is substantial proof that our ancestors were far more technologically advanced than in currently accepted, and that certain cultures interacted with non-human intelligences. Our ancestors were

clearly not alone. Have we been visited by extraterrestrial beings? Did these ancient aliens contribute to the birth of human civilization? Do our ancient monuments contain evidence of their presence? Fifty years after Erich von Däniken posed these questions in *Chariots of the Gods*, Coppens provides clear, concise answers to the great historical enigmas in an accessible, readable format. This new edition features a preface by Kathleen McGowan, along with a new afterword that is the last essay Philip Coppens wrote. Book jacket.

*Past Shock* Jack Barranger, 1998-11 Alvin Toffler once coined the term future shock when people are overwhelmed by the future. *Past Shock* suggests that events from thousands of years ago strongly impact humanity today. It reveals why religion was created, what organized religion won't tell you, the reality of the slave chip programming that we all have, what really happened in the Garden of Eden, what the Tower of Babel was and why we were stopped from building it, how we were conditioned by gods to remain spiritually ignorant, and much more. Exposes the pretender gods advanced beings who were not divine, but had advanced knowledge of scientific principles, including genetic engineering. Our advanced science of today has begun to unravel their secrets. Learn how to overcome the slave chip conditioning and begin living life as it was meant to be, as a spiritually fulfilled being.

**The Seventy Greatest Conspiracies of All Time** Jonathan Vankin, John Whalen, 1998 *The 70 Greatest Conspiracies of All Time* presents a feast of the most startling conspiracy theories ever. It has been lauded in dozens of publications. Additionally, *Wired* magazine listed this book in its Top 10 Fringe Books of 1995. Now this instant classic has been updated to include late-breaking mysteries and cover-ups, including the alien autopsy controversy, the death of Vince Foster, Big Brother on the Internet, and Japan's shadowy Aum cult. Those who delve into this book will never again see the world in quite the same way.

**The God Hypothesis** Joe Lewels, 1997 *The God Hypothesis* offers a bold look at the alien abduction phenomena and challenges not only commonly accepted UFO theories, but also the modern theological and scientific consensus views of reality. By thoroughly examining evidence from various scientific disciplines, Dr. Lewels presents a compelling case for the reality of UFOs and their connection to the major religions of the world. In so doing, he causes us to re-examine our own spiritual and religious beliefs and to see the Bible through modern, scientific eyes a view that demystifies the ancient texts and reveals the true origins of the human race and its proper place in the hierarchy of intelligent life in the universe. Lewels sees the UFO enigma as part of the process of human evolution, in the physical sense as well as in the spiritual. He proposes a solution that crosses the line between the physical, material world and that spiritual dimension where quantum physics tells us that time and space cease to exist.

*Ancient Aliens* Philip Coppens, 2014-12-15 Ancient civilizations generated many innovations that are difficult to explain, such as the remarkable mathematical accuracy of the pyramids of Giza, the man-made fertile soil of the Amazon known as

terra preta, and massive stone monuments too heavy to move in Peru and Lebanon, among other places. Given that modern science cannot explain these mysterious phenomena, one theory holds that ancient aliens were responsible for them. This volume examines the credibility of various paranormal hypotheses, giving readers the opportunity to explore the greatest puzzles of antiquity.

**The 80 Greatest Conspiracies of All Time** Jonathan Vankin, John Whalen, 2004 The effects of the Invisible Hand are everywhere, machinations to control the modern world are happening right now - The Eighty Greatest Conspiracies of All Time lists them all. This book presents a feverish feast of the most far-reaching, far out and startling conspiracies ever theorised. Following the massive success of The Seventy Greatest Conspiracies of All Time, this updated version is bound to be immensely popular. Recent additions include 9/11 theories surrounding the terrorist attacks and Echelon - how big brother may be becoming reality.

West Virginia UFOs Bob Teets, 1995

**Forthcoming Books** Rose Arny, 1993

Parapsychology, New Age, and the Occult, 1993

**The Roots of War and Domination** Ralph Metzner, 2008 Dr. Metzner tracks the roots of war and domination in the psychological consequences of violent child abuse; in historical and prehistorical patterns of resource competition; and in mammalian predator behavior gone awry. Seeking still deeper roots, he explores lesser-known mythological and esoteric teachings including the Buddhist myths of power-addicted demons and the Sumerian myths of dominating extraterrestrial, war-lord colonizers.

**Conclusions of a Parapsychologist** Michael Lewis, 2013-07-04 Aimed at the popular market, this book will appeal to readers who do not want to be burdened by detail. It presents the authors conclusions based on facts and invites them to ponder the disturbing implications. Its succinct and readable style will appeal to those with busy lifestyles. An astonishing account of what it is like to die and experience a day in the Afterlife, during which the author was told how things really are! The author ventures into areas where few dare to tread. At last sober facts not speculation about the paranormal from an objective, unbiased researcher who tries to take a scientific viewpoint. Michael Lewis writing rings with truth and authenticity. It is a carefully selected and finely expressed group of closely related, well defined and chosen concepts, no doubt from a personal experience that is even wider than that which we here are privileged to share. The material is presented in a narrative context, and will engage and often astonish the reader. Michael demonstrates that we are but at the very edge of knowledge, and that all we can see is a small corner of the whole. A book like this gives us the chance to lift the veil a little, and glimpse the vast uplands beyond. He has the ability to set down the material clearly and with an attractive writing style, the prose is as clear as a window-pane. - Mark Sykes, former Editor-in-Chief, Athena Press

**The Paradigm Conspiracy** Denise Breton, Christopher Largent, 1996 The resources here will guide you along a pathway of self-assessment, discovery, and fulfillment. This well-researched book exposes the addictive paradigms that bind us to society (and often to one another) and hinder our growth as free-thinking individuals and then provides a new framework through which we can approach our lives and view the world.

The Freemasons Jeremy Harwood, 2007 A detailed and intriguing account of the rituals and symbolism from its origins to today.

**The Source** Art Bell, Brad Steiger, 2002 From the undeniable accuracy of end-of-the-world prophesies, to an increase in paranormal sightings, as well as proven interactions with the other side, the field known as the 'unexplained' has captured the interest of believers and non-believers alike. In this broad-ranging study, two of the most respected experts in the field disclose their conclusions and theories about: end-of-the-world prophecies and prophets; near-death and out-of-body experiences; conspiracies and government cover-ups; Roswell and UFO sightings; demon possession and much more.

*The Encyclopedia of Extraterrestrial Encounters* Ronald Story, 2001 With contributions by a host of experts on all things alien, this compendium of UFOria is a comprehensive A-to-Z encyclopedia containing over 800 entries. 300 drawings & photos.
