

Idealismo De Don Quijote

José Luis Abellán

Meditaciones sobre Ortega y Gasset José Luis Abellán, 2005 Cincuenta años después de la muerte de José Ortega y Gasset (1883-1955), un grupo de estudiosos de su obra han compartido y reunido sus investigaciones en este libro interdisciplinar para valorar con criterios objetivos y sin prejuicios la modernidad del legado intelectual orteguiano. Las diferentes perspectivas desde las que habitualmente se viene estudiando el pensamiento de Ortega aparecen aquí integradas en cuatro grandes bloques temáticos: filosófico, filológico, jurídico y socio-político. Sin renunciar al rigor y a la sistematicidad exigibles a su formación científica y a su vocación académica, los autores congregados en esta obra de homenaje, y a la vez de meditación, ofrecen al lector interesado una aproximación al sugerente universo de las ideas de Ortega y una ubicación ante las principales claves de su fértil y fructífero pensamiento. El motivo de estas Meditaciones sobre Ortega y Gasset es hacer un poco más transparente la presencia intelectual y cultural de Ortega en el tema de nuestro tiempo.

El Espíritu liberador Eldin Villafane, 1996 The author of this study has a single-minded goal--the construction of a social ethic for the Hispanic Pentecostal Church in America that both coheres with the Hispanic American sociocultural experience and remains consistent with Hispanic Pentecostalism's self-understanding of ethics emerging from its experience of the Spirit.

Las Culturas y Civilizaciones Latinoamericanas Floyd Merrell, María Teresa DePaoli, 2016-11-14 Las culturas y civilizaciones latinoamericanas has been updated. This textbook not only describes the history of Latin America, but it sets a mood that allows the reader to get a genuine sense of the languages, cultures, and civilizations of this complex and colorful land. It provides an account of how Columbus's voyages gave rise to utopian dreams, the ramifications of which led to a brilliant display of hybrid cultures, changed the ethnic composition of two continents, accelerated lines of commerce, and refashioned the Western World's diet. The textbook takes the reader through the discovery, conquest, and colonization of the New World and on to independence and the national period. In addition, each chapter offers general concepts, important terms, questions, and topics for classroom debates. Comprehensive and compelling, this book chronicles the history of an

important region in a way that will interest students and teachers alike.
