

Project For The New American Century

Dale Roy Herspring

America and the New American Century Chris Wogan, 2004-10-10 The explosive new book exposing the hidden history behind America's War on Terror and the unnerving secrets of the Bush administration. This book reveals the truth behind the neoconservative hijacking of American foreign policy and the shocking details of the Bush administration and its War on Terror. As one of the most comprehensive books on America's War on Terror and the history leading up to this perpetual war, America and the New American Century will open your eyes and change the way you see the world around you. Be sure to check out www.AmIraqa.com to take a sneak peak of the book and to find supporting files, documentation, sources, and other information. This version of the book is cheaper because it doesn't contain the dozens of pages of sources. The sources are available for review at www.amiraqa.com.

European Bloc Imperialism Dennis C. Canterbury, 2010 The reinvigorated debate on imperialism in the last two decades focuses on the means by which Euro-American capital is currently spread around the globe and the different ways it pillages the wealth of the developing countries. The Economic Partnership Agreements being foisted on the Africa, Caribbean and Pacific countries by the European Union, however, has been under the radar of the debate on imperialism. This book draws on the experiences of the Caribbean Forum-EU EPA to fill that void by bringing into focus the economic partnership agreement as a conduit of European imperialism. Dennis C. Canterbury, Ph.D. (2000) in Sociology, Binghamton University (State University of New York), is Associate Professor of Sociology at Eastern Connecticut State University. He has published extensively on development issues including Neoliberal Democratization and New Authoritarianism (Ashgate 2005).

Strategic Thinking, Deterrence and the US Ballistic Missile Defense Project Reuben Steff, 2016-04-01 A systematic critical survey of American strategic thinking and the strategic culture in which it is formed. In particular, this book seeks to interrogate the theory and strategy of nuclear deterrence, and its relationship to the concept of missile defence. Drawing widely on the theoretical literature in international relations and strategic studies, it identifies the key groups that have competed over America's nuclear policy post-1945 and examines how the concept of missile defence went through a process of gestation and intellectual contestation, leading to its eventual legitimization in the late 1990s. Steff sheds light on the individuals, groups, institutions and processes that led to the decision by the Bush administration to deploy a national missile defence shield. Additionally, Steff systematically examines the impact deployment had on the calculations

of Russia and China. In the process he explains that their reactions under the Bush administration have continued into the Obama era, revealing that a new great power security dilemma has broken out. This, Steff shows, has led to a decline in great power relations as a consequence.

America in Peril Robert C. Aldridge, 2008 America is being conquered. Our Declaration of Independence has been relegated to history courses. Lulled by passivity, we take our inalienable rights for granted. Recognizing this mass complacency, a certain group recently obtained power in America. Under the guise of a war on terror and national security they are systematically undermining democracy and scrapping our Constitution. 'America in Peril' puts together a pervasive pattern of intrigue and deception. Starting with the characters that wiggled their way into the White House and conjured up a crisis to rally the country behind a wartime president, Aldridge paints a disturbing picture, delving into the decay of civil rights and showing how the government is not only keeping tabs on the populace but also steadily eroding humanitarian law. Two possible outcomes are presented--the path to martial law and dictatorship or a worldview that can save this country if enough perceptive people put it in motion. America is indeed in peril. The test we all face is profound.

The Business of War James A. Tyner, 2017-11-30 Since the cessation of major combat operations in Iraq, approximately 120 people - either contract workers or private soldiers - have been abducted, with one-third being executed. The largest contingent of these workers has been provided by the Philippines. Through a specific, though not exclusive, focus on the Philippines connection, this book considers the myriad ways in which transnational labour migration intersects with the occupation of Iraq. Also examining the role of the USA in the Middle East, the book places the war on terror within the practices of neoliberalism, but also links this with migration issues and argues that it is all part of a larger 'business' of conflict.

Rumsfeld's Wars Dale Roy Herspring, 2008 A highly critical but nonpartisan assessment of the controversial former Defense Secretary as told by one of the leading experts on civil-military relations. Focuses on Rumsfeld's notoriously domineering leadership style, flawed vision for transforming the military, and failures in the Iraq War.

Common Sense for the Twenty-first Century Blase Bonpane, 2004 Much of our current media makes us feel powerless and unconscious. These commentaries are designed to make us conscious and aware of the power we have to build humane national and international polities.

The Enemy of My Enemy George Michael, 2006 In the violent world of radical extremists, the enemy of my enemy is my friend. This study reveals how that precept plays out in the unexpected bonding between militant Islam and the extreme right in America and Europe. It provides an insightful and sane look at the possibilities for collaboration between these groups.

Allies William Shawcross,2003 The US-European relationship has been shaken by the disagreement over whether to invade Iraq. In this work William Shawcross makes the case for the US-British operation and argues that Europeans made a serious blunder in their actions.

The Politics of Intelligence and American Wars with Iraq Ofira Seliktar,2008-01-15 Coming at the heels of September 11, Operation Iraqi Freedom has focused the limelight on the way in which the United States predicts and manages political change. The failure to find WMD and more important, the continued violence in Iraq instead of the hoped for democracy, has engender an acrimonious debate on the motives of the Bush administration and its uses or misuses of intelligence. The question of who got what right or wrong has been fought out along ideological, and partisan lines, with supporters claiming that, given what was known about Saddam Hussein, the decision to change his regime was justified and detractors arguing that a group of largely Jewish neoconservatives, acting on behalf of Israel, manipulated intelligence in order to trick the United States into an unnecessary and costly war. The book provides a systematic and objective analysis of the problems that faced American intelligence in deciphering the behavior of the highly secretive and confusing Iraq regime and its enigmatic leader.

Do Not Disturb Robert Manne,2005 At a time when the Howard government has radically narrowed the national vision, the mainstream media has failed to notice or to hold it to account.Do Not Disturboffers diverse and enlightening explanations for this failure. Featuring an array of independent insiders, including: Eric Beecher, Guy Rundle, Jon Faine, Margaret Simons, David Marr, plus many more.
