Isolation K. A. Applegate, 2002 Three groups race to gain control of the ship and its power source, Mother, as the Remnants try to create a new Earth. It's a race against the clock--a race the humans may not be capable of winning. It all leads to a face off between Billy and the Baby's true form.

Aftermath Katherine A. Applegate, 2003-05 Now an arid wasteland, Earth is inhabited only by a handful of human descendants and mutated animals. To survive, the Remnants must plant one of their own as leader of a wild band of surface-dwelling Marauders.

Remnants #8 K. A. Applegate, 2022-05-31 Since the destruction of Earth, the Remnants have been stuck out in the universe without a planet to call home. While searching the skies, Jobs stumbles across something that looks vaguely familiar. Could it be a part of Earth? Is it habitable? If it is, Jobs will have to convince Billy and the others to break the Big Compromise and change the ship's course. But not all the Remnants have home on their minds. Yago has a master plan to rule the Meanies that will put everyone at risk. Will Yago's need for power keep Earth in the distance? Destinations will change -- for Mother, for the Meanies, and for the future of the human race.

Remnants #5 K. A. Applegate, 2022-05 There is a computer called Mother that runs the ship keeping the remaining members of the human race alive. And that computer has the ability to create imaginary worlds filled with things that don't - can't - exist. Here's the thing: This computer has evolved. It now experiences emotion. And it is out of control. Jobs, Mo'Steel,

2Face, Billy, and the other Remnants are struggling to survive within Mother's environments. But they are not all surviving. And they've discovered new Remnants - one of which has unwillingly undergone a strange mutation. A mutation that has made him into a living, breathing monster....

Excerpt: Everworld is a Fiction book series written by K. A. Applegate and published by Scholastic between 1999 and 2001. It consists of twelve books. Remnants #4 K. A. Applegate,2022-05-15 Jobs, Mo'Steel, 2Face, and a handful of others are the last of the human race. They are all that remains of what we knew as planet Earth. And they've traveled millions of miles and 500 years to find a place to begin again.But the ship that now sustains them nearly destroys the survivors. Its computer feeds them images that

are incredibly beautiful, intensely horrifying, and very, very dangerous. In order to stay alive, the Remnants have to find a way to work together in an environment that wants to tear them apart. And so far the environment-this strange new place they have to call home-is winning....
