**Christopher L. Miller**

*Touched With Fire* Kay Redfield Jamison, 1996-10-18 The definitive work on the profound and surprising links between manic-depression and creativity, from the bestselling psychologist of bipolar disorders who wrote *An Unquiet Mind*. One of the foremost psychologists in America, “Kay Jamison is plainly among the few who have a profound understanding of the relationship that exists between art and madness” (William Styron). The anguished and volatile intensity associated with the artistic temperament was once thought to be a symptom of genius or eccentricity peculiar to artists, writers, and musicians. Her work, based on her study as a clinical psychologist and researcher in mood disorders, reveals that many artists subject to exalted highs and despairing lows were in fact engaged in a struggle with clinically identifiable manic-depressive illness. Jamison presents proof of the biological foundations of this disease and applies what is known about the illness to the lives and works of some of the world's greatest artists including Lord Byron, Vincent Van Gogh, and Virginia Woolf.

**Touched with Fire** Kay R. Jamison, 1994 From the author of the New York Times bestseller, *An Unquiet Mind*, *Touched with Fire* is an authoritative look at the relationship between manic-depressive illness and the artistic temperament. Psychiatrist Jamison advocates a restrained, humanistic approach to treatment that does not cure the disorder at the expense of artistic inspiration.

**An Unquiet Mind** Kay Redfield Jamison, 2009-01-21 NATIONAL BESTSELLER • A deeply powerful memoir about bipolar illness that has both transformed and saved lives—with a new preface by the author. Dr. Jamison is one of the foremost authorities on manic-depressive (bipolar) illness; she has also experienced it firsthand. For even while she was pursuing her career in academic medicine, Jamison found herself succumbing to the same exhilarating highs and catastrophic depressions that afflicted many of her patients, as her disorder launched her into ruinous spending sprees, episodes of violence, and an attempted suicide. Here Jamison examines bipolar illness from the dual perspectives of the healer and the healed, revealing both its terrors and the cruel allure that at times prompted her to resist taking medication.

Exuberance Kay Redfield Jamison, 2004-09-28 A national bestselling author examines one of the mind's most exalted states—one that is crucially important to learning, risk-taking, social cohesiveness, and survival itself. “[Jamison is] that rare writer who can offer a kind of unified field theory of science and art.” —The Washington Post Book World With the same grace and breadth of learning she brought to her studies of the mind's pathologies, Kay Redfield Jamison examines one of its

most exalted states: exuberance. This “abounding, ebullient, effervescent emotion” manifests itself everywhere from child’s play to scientific breakthrough. Exuberance: The Passion for Life introduces us to such notably irrepressible types as Teddy Roosevelt, John Muir, and Richard Feynman, as well as Peter Pan, dancing porcupines, and Charles Schulz’s Snoopy. It explores whether exuberance can be inherited, parses its neurochemical grammar, and documents the methods people have used to stimulate it. The resulting book is an irresistible fusion of science and soul.

**Fires in the Dark** Kay Redfield Jamison, 2024-05-14 The acclaimed author of *An Unquiet Mind* considers the age-old quest for relief from psychological pain and the role of the exceptional healer in the journey back to health. “To treat, even to cure, is not always to heal.” In this expansive cultural history of the treatment and healing of mental suffering, Kay Jamison writes about psychotherapy, what makes a great healer, and the role of imagination and memory in regenerating the mind. From the trauma of the battlefields of the twentieth century, to those who are grieving, depressed, or with otherwise unquiet minds, to her own experience with bipolar illness, Jamison demonstrates how remarkable psychotherapy and other treatments can be when done well. She argues that not only patients but doctors must be healed. She draws on the example of W.H.R. Rivers, the renowned psychiatrist who treated poet Siegfried Sassoon and other World War I soldiers, and discusses the long history of physical treatments for mental illness, as well as the ancient and modern importance of religion, ritual, and myth in healing the mind. She looks at the vital role of artists and writers, as well as exemplary figures, such as Paul Robeson, who have helped to heal us as a people. *Fires in the Dark* is a beautiful meditation on the quest and adventure of healing the mind, on the power of accompaniment, and the necessity for knowledge.

**Robert Lowell, *Setting the River on Fire*** Kay Redfield Jamison, 2018-02-06 PULITZER PRIZE FINALIST • In this magisterial study of the relationship between illness and art, the best-selling author of *An Unquiet Mind*, Kay Redfield Jamison, brings an entirely fresh understanding to the work and life of Robert Lowell (1917-1977), whose intense, complex, and personal verse left a lasting mark on the English language and changed the public discourse about private matters. In his poetry, Lowell put his manic-depressive illness (now known as bipolar disorder) into the public domain, and in the process created a new and arresting language for madness. Here Dr. Kay Redfield Jamison brings her expertise in mood disorders to bear on Lowell’s story, illuminating not only the relationships between mania, depression, and creativity but also how Lowell’s illness and treatment influenced his work (and often became its subject). A bold, sympathetic account of a poet who was—both despite and because of mental illness—a passionate, original observer of the human condition.

***Battling Nell*** Alexander S. Leidholdt, 2009-11 A longtime columnist for the Raleigh News and Observer, Cornelia Battle Lewis earned a national reputation in the 1920s and 1930s for her courageous advocacy on behalf of women's rights, African Americans, children, and labor unions. Late in her life, however, after fighting mental illness, Lewis reversed many of her stances and railed against the liberalism she had spent her life advancing. In *Battling Nell*, Alexander S. Leidholdt tells the

compelling and ultimately tragic life story of this groundbreaking journalist against the backdrop of the turbulent post-Reconstruction Jim Crow South and speculates about the cause of her extraordinary transformation. The daughter of North Carolina's most prominent public health official, Lewis grew up in Raleigh, but her experiences at Smith College in Massachusetts, and later in France during World War I, led her to question the prevailing racial attitudes and gender roles of her native region. In 1920, Lewis began her storied career with the *News and Observer*. Inspired by H. L. Mencken's scathing criticism of the South, she soon established herself as the region's leading female liberal journalist. Her column, *Incidentally*, attacked the Ku Klux Klan, lobbied against the exploitation of mill workers, defended strikers during the notorious communist-organized Gastonia labor violence, mocked religious fundamentalists who fought the teaching of evolution, and decried lynch law. A suffragist and a feminist who saw women's rights as inextricably linked to human rights, Lewis ran for state legislature in 1928 and was one of the first women in North Carolina to be admitted to the bar. In the 1930s, however, Lewis faced repeated institutionalizations for a debilitating bout of mental illness and sought treatment from Christian Science practitioners, spiritualists, and psychotherapists. As she aged, her views grew increasingly reactionary, and she insisted that she had served as a communist dupe during the Gastonia strike and trials, that communists had infiltrated the University of North Carolina, and that many of her former progressive allies had ties to communism. Finally, many of her opinions completely reversed, and in the wake of the 1954 *Brown v. Board* decision, she served as an influential spokesperson for the South's massive resistance to public school desegregation. She continued to espouse these conservative beliefs until her death in 1956. In his detailed retelling of Lewis's fascinating life, Leidholdt chronicles the turbulent history of North Carolina from the 1920s through the 1950s, as industrialization and racial integration began to tear at the region's conservative fabric. He vividly explains the background and ramifications of Lewis's many controversial stances and explores the possible reasons for her ideological about-face. Through the extraordinary story of *Battling Nell*, Leidholdt reveals how the complex issues of gender, labor, and race intertwined to influence the convulsive events that shaped the course of early twentieth-century southern history.

**Nothing Was the Same** Kay Redfield Jamison, 2009-09-15 A penetrating psychological study of grief viewed from deep inside the experience itself—from the national bestselling author of *Unquiet Mind*. Kay Redfield Jamison, award-winning professor and writer, changed the way we think about moods and madness. Now Jamison uses her characteristic honesty, wit and eloquence to look back at her relationship with her husband, Richard Wyatt, a renowned scientist who died of cancer.

**Impostors** Christopher L. Miller, 2018-12-10 “Miller takes us on an exciting tour of postcolonial and world literature, guiding us through the literary maze of the real and the pretenders to the real.” —Ngugi wa Thiong’o, author of *Wizard of the Crow* Writing a new page in the surprisingly long history of literary deceit, *Impostors* examines a series of literary hoaxes, deceptions that involved flagrant acts of cultural appropriation. This book looks at authors who posed as people they were

not, in order to claim a different ethnic, class, or other identity. These writers were, in other words, literary usurpers and appropriators who trafficked in what Christopher L. Miller terms the “intercultural hoax.” In the United States, such hoaxes are familiar. Forrest Carter’s *The Education of Little Tree* and JT LeRoy’s *Sarah* are two infamous examples. Miller’s contribution is to study hoaxes beyond our borders, employing a comparative framework and bringing French and African identity hoaxes into dialogue with some of their better-known American counterparts. In France, multiculturalism is generally eschewed in favor of universalism, and there should thus be no identities (in the American sense) to steal. However, as Miller demonstrates, this too is a ruse: French universalism can only go so far and do so much. There is plenty of otherness to appropriate. This French and Francophone tradition of imposture has never received the study it deserves. Taking a novel approach to this understudied tradition, *Impostors* examines hoaxes in both countries, finding similar practices of deception and questions of harm. “In this fascinating study of intercultural literary hoaxes, Christopher L. Miller provides a useful, brief history of American literary impostures as a backdrop for his investigation of France’s literary history of ‘ethnic usurpation.’” —Henry Louis Gates, Jr., New York Times–bestselling author

**The Rapids** Sam Twyford-Moore, 2018-08-01 Writing and mental illness make excellent bedfellows, for better or worse. The Rapids — creative and courageous — is an extraordinary personal memoir peppered with film and literary criticism, as well as family history. With reflections on artists such as Carrie Fisher, Kanye West, Robert Lowell, Delmore Schwartz, Paul Thomas Anderson and Spalding Gray, Twyford-Moore also looks at the condition in our digital world, where someone's manic episode can unfold live in real time, watched by millions. His own story, told unflinchingly, is shocking and sometimes blackly comic. It gives the book an edge that is not always comfortable but full of insight and empathy. Smart, lively and well-researched, The Rapids manages to be both a wild ride and introspective at once, exploring a condition that touches thousands of people, directly or indirectly. 'Sam Twyford-Moore's The Rapids is a fascinating exploration of the fragility of the mind, states of mania and how mental ill-health is treated in art and popular culture...his insightfulness, intelligence and skill as a writer make The Rapids a compelling read. It will particularly appeal to art and culture nerds and anyone interested in learning more about the realities of living with manic depression.' — Meelee Soorkia, Books+Publishing

Boslaugh, 2015-09-15 The SAGE Encyclopedia of Pharmacology and Society explores the social and policy sides of the pharmaceutical industry and its pervasive influence in society.
