

Uconn Campus Map Storrs

Karin Nielsen-Saines

The Art of Illustrated Maps John Roman, 2015-09-25 While literally hundreds of books exist on the subject of cartographic maps, *The Art of Illustrated Maps* is the first book EVER to fully explore the world of conceptual, imaginative mapping. Author John Roman refers to illustrated maps as the creative nonfiction of cartography, and his book reveals how and why the human mind instinctively recognizes and accepts the artistic license evoked by this unique art form. Drawing from numerous references, *The Art of Illustrated Maps* traces the 2000-year history of a specialized branch of illustration that historians claim to be the oldest variety of primitive art. This book features the dynamic works of many professional map artists from around the world and documents the creative process as well as the inspirations behind contemporary, 21st-century illustrated maps.

The Insider's Guide to the Colleges, 2011 Staff of the Yale Daily News, 2010-06-15 For more than thirty-five years, *The Insider's Guide to the Colleges* has been the favorite resource of high school students across the country because it is the only comprehensive college reference researched and written by students for students. In interviews with hundreds of peers on campuses from New York to Hawaii and Florida to Alaska, our writers have sought out the inside scoop at every school on everything from the nightlife and professors to the newest dorms and wildest student organizations. In addition to the in-depth profiles of college life, this 37th edition has been revised and updated to include: * Essential statistics for every school, from acceptance rates to the most popular majors * A College Finder to help students zero in on the perfect school * Insider's packing list detailing what every college student really needs to bring * FYI sections with student opinions and outrageous off-the-cuff advice. *The Insider's Guide to the Colleges* cuts through the piles of brochures to get to the things that matter most to students, and by staying on top of trends and attitudes it delivers the straight talk students and parents need to choose the school that's the best fit.
